Tragedy Recalls Death of Woman's Former Wealthy Spouse

Instead of Answering Court Charge, Man Does Murder

SAN FRANCISCO, Sept. 22.—Mrs. Vera Murphis, 30 years old, who in 1910 was alleged to have shot and killed her husband, Dr. Proesser, a millionaire Seattle physician, while on a Montana train, fell victim today to a similar fate when her latest husband, George Murphis, 29, shot her to death as she stood at a telephone, and then turned the revolver against himself. Both bodies are at the morgue. Mrs. Murphis having died at the Central Emergency hospital. Murphis was dead when the apartment at which the shooting occurred in the Brussels hotel, 433 Ellis street, was entered.

Why Murphis killed his wife and himself is not known. They were married on July 31, after the woman had been divorced from her second husband, named Scott. Murphis was proprietor of a billiard hall at 163 Mason street.

They registered at the Brussels on September 13. Later Mrs. Murphis went to the police with charges against her husband, which, if substantiated, might have brought him under the Mann act. But the police disregarded these charges, after investigation, and charged Murphis with exhibiting a deadly weapon.

READY FOR COURT.

The case was to be heard this morning in the police court. Murphis, who had made up with his wife again, was about to leave the hotel for the courtroom with her. Both were dressed for the street.

Mrs. Murphis went to the telephone and called L. A. Phillips, owner of the building in which Murphis had his billiard parlor. She said she had an assignment of the lease, and after some other conversation handed the telephone over to Murphis. Then, a second later, Mrs. Murphis called for Market 912. T. Antipas, the hotel

Seek Mysterious Wireless Plant

WASHINGTON, Sept. 22.—On complaint of the British embassy the department of agriculture has begun a search for a mysterious wireless plant supposed to be operating in the mountains on the Pacific coast. Information furnished to the department is vague, but apparently the plant is busily engaged in sending messages uncensored by the federal government.

Forest rangers who patrol the mountains are understood to have received orders to look for the wireless outfit.

WAS LEIPZIG INFORMED?

By Associated Press.

SEATTLE, Sept. 22.—The report that a wireless plant was in operation somewhere in the Puget Sound country and was communicating with the German cruiser Leipzig, originated in British Columbia a month ago, when a rumor was also current that the cruiser planned a descent upon Prince Rupert, B. C. It was reported further that steamers leaving Seattle with coal were planning a delivery to the Leipzig at sea. Investigation by naval officers of the United States proved that the coal was for a legitimate destination and that there was no wireless plant conveying unlawful messages. Afterward it was learned by the British authorities that the Leipzig, after coming north as far as Cape Mendocino, had altered her course and had never entered the North Pacific.

Capture German Ship and 300 Reservists

LONDON, Sept. 22, 7:07 p. m.—The German steamer Professor Woermann, of the Woermann line, with 300 German reservists on board, has been taken captive and brought into Sierra Leon, on the west coast of Africa, according to information which has reached London.

OPERATION STOPPED BY SHELLS; HOSPITAL PATIENTS REMOVED

By Associated Press.

BORDEAUX, Sept. 22, 11:45 a. m.—Madame Paul, head of the French Women's Ambulance Corps, has reported to the government from Etain, in the department of Meuse, describing the bombardment of an hospital at that place by the Germans August 24.

The first shot from the German artillery, Mme. Paul said, brought down the Red Cross flag on the roof and a fragment of this shell shattered a basin beside a table on which Dr. Proust of Paris was operating on a serious case. The doctor then moved to another wing of the building in which there were five wounded German soldiers. The shells began to fall faster and finally this section of the hospital had to be abandoned. The wounded were removed to Verdun, twelve miles away.

Boy of 15 Saves Lives of Many Wounded Men

By Associated Press.

BORDEAUX, Sept. 22, 3:15 p. m.—An undersized boy of 15 years named Jacques Jesegel arrived at Bordeaux today with a convoy of French wounded soldiers. He attached himself to a French infantry regiment at Amiens and kept with it through many battles, making himself useful in helping the wounded and in catching riderless horses amidst a storm of shot and shell.

The youth particularly distinguished himself in the battle of the Marne, where he saved the lives of several wounded troopers.

Aeroplane Drops Bomb in Maestricht

By Associated Press.

AMSTERDAM, via London, Sept. 22, 4:10 p. m.—An aeroplane of unknown nationality dropped a bomb in Maestricht today near the Brussels gate, according to a dispatch received here. Automobiles were sent in pursuit of the air craft, but it disappeared, going south.

BRITISH CRUISERS ARE TORPEDOED

SISTER SHIPS ARE DESTROYED; LOSS OF LIFE UNKNOWN

By Associated Press.

LONDON, Sept. 22, 6:27 p. m.—A dispatch received here from the Hook of Holland says the Dutch steamer Titon has arrived there bringing 20 British wounded and some dead, picked up in the North Sea after the sinking of the British cruisers Aboukir, Hogue and Cressy.

SUNK BY TORPEDOES.

By Associated Press.

LONDON, Sept. 22, 4:30 p. m.—The British warships Aboukir, Hogue and Cressy have been sunk in the North Sea by submarines, according to an announcement given out by the official bureau this afternoon.

Continuing, the announcement says that a considerable number of the crews of these vessels were saved by H. M. S. Lowestoft and by a division of torpedo boat destroyers. Trawlers and their boats also aided in the work of rescue.

The Aboukir was torpedoed first. The Hogue and the Cressy drew in close to her and were standing by to save her crew when they also were torpedoed.

The Cressy, Captain Robert W. Johnson; the Aboukir, Captain John E. Drummond, and the Hogue, Captain Wilmot S. Nicholson, were sister ships. They were armored cruisers of a comparatively obsolete type. The lists of the casualties among their crews will be published as soon as they are known.

The warships Aboukir, Hogue and Cressy are cruisers of the same type. Their tonnage armament, etc., are identical. These vessels had a displacement of 12,000 tons, were 440 feet long, 69.3 feet wide and drew 26 feet of water. Each one had a complement of 755 men, including officers and crew.

These three cruisers had armaments consisting of two 9.2-inch guns, twelve 6-inch guns, twelve 12-pounders and five 3-pounders. The Aboukir and the Cressy were built at Govan in 1900 and the Hogue was built at Barrow the same year.

MANY LIVES MAY BE LOST.

By Associated Press.

LONDON, Sept. 22, 5 p. m.—The silence of the British authorities regarding naval operations in the North sea was suddenly broken this afternoon by announcement of a disaster to the British navy, which, according to official information, has suffered the loss of three armored cruisers, sunk by German submarines.

The victims of this brilliant stroke on the part of the German fleet were the Cressy, the Aboukir and the Hogue, sister ships.

The loss of life among the crews of these three vessels probably will be heavy, although a considerable number of men were picked up by the cruisers Lowestoft, destroyers and some trawlers.

Neither the time nor the scene of the disaster is given in the official report.

Last German Wireless in Pacific Destroyed

By Associated Press.

LONDON, Sept. 22, 11:22 a. m.—The destruction of the wireless station on the island of Nauru, removing the last German stationary wireless apparatus in the Pacific, is reported today from Sydney, New South Wales.

The British flag now flies over the island, though the German governor and his staff have been allowed to remain.

Scattered fighting has taken place at Rabaul on Neupommoin, an island in the Bismarck Archipelago. The natives under German leaders proved very troublesome, but the Australian landing party took to cover cleverly and suffered no losses, and after a skirmish, Rabaul practically surrendered.

Doctor Pockley, a member of the Australian Red Cross detachment, was shot by a German officer after he had removed his coat with the Red Cross band on the sleeve, to cover a wounded man.

Canada Sending Over 40,000 Men to Front

By Associated Press.

OTTAWA, Ont., Sept. 22.—It is understood that by January Canada will have abroad, either on the fighting line or in England, upward of 40,000 men. The 21,000 to be sent from Valcartier probably will go to a depot in England from which they will be sent to the front when thoroughly efficient.

Fabre Line Strikes Germania From List

NEW YORK, Sept. 22.—The name Germania was stricken today from the list of vessels owned by the Fabre steamship line, a French company. It was announced that the Germania would henceforth be known as the Brittania. She sails between this port and Marseilles.

HERE'S STORY OF BULL WHICH SLEW 18 GERMANS

PARIS, Sept. 22, 7:10 a. m.—The Petit Parisien prints a story of a bull, which it says killed eighteen Germans. It appears that when the peasants in the neighborhood of Sezanne were warned of the approach of the Germans they opened the gates of the cattle pens and endeavored to remove the cattle to a place of safety. One enormous bull, it is said, becoming enraged by the sound of the cannon fire, broke away and charged the Germans, who looked on in stupefaction, believing it some trick of the French. At the first dash the bull gored six, throwing them high in the air; others shot and wounded the animal, which, however, gored twelve more before succumbing.

BATTLE AT CRAONNE FIERCE

Seventh Day of Aisne Fighting Is Most Violent

Hand-to-hand Struggles Mark Day's Engagement

By Associated Press.

PARIS, Sept. 22, 6:50 a. m.—The battle of Charleroi lasted three days and the battle of the Marne covered six days, though the retirement of the Germans commenced on the third day. Today is the seventh day of the battle of the Aisne, the most violent of the three, but the limit of human endurance seems to have been reached, as the intensity of the struggle has diminished in front of Rheims.

At Craonne, after a brief lull, the fighting has become fierce again, and the losses of the Germans were increased. Here alone, of the whole line, hand-to-hand fighting occurred yesterday. Everywhere else the invaders left the attack to the "Brummers," as they call the immense mortars which did so much damage to the Cathedral of Rheims.

It may well be asked if the result of the lavish use of these immense projectiles, between 5 and 6 feet long, is a good investment, as the serious damage of the Rheims Cathedral has had only the result of increasing the determination of the French to win.

The significance of yesterday's official communications to be seen on consulting the maps is that the allies have advanced at points where the danger to the invaders is greatest. The progress to the west of Noyon threatens the German right and the advance between Rheims and the Argonne threatens their line of retreat and communications through Stenay.

The deduction of the military experts here is that the weariness shows more decidedly in the German camp. They are said to be feverishly active in their work on the fortifications along the Sambre from Maubeuge to Namur, and even on their lines of defense across the German frontier, and this is taken to indicate a lack of confidence in the final issue of the clash of the Aisne.

Returns From Scene of European Conflict

After seeing Italian troops preparing for mobilization, observing the excitement of the Italians when the European war broke out and sailing through the Mediterranean in fear of attack, Edward Engs, prominent Oakland attorney, arrived today from Genoa. Engs was touring Europe and had reached Italy when the war clouds gathered. He at once arranged to sail for America, arriving here with no hardship and but little difficulty.

P. J. O'Connor, Los Angeles capitalist, also an arrival from Italy, registered at the Hotel Oakland with his family today. O'Connor, with Mrs. Mrs. O'Connor and five children, were in Italy when the first troubles arose. They hastened to Ireland, and from there sailed for America. They will place their children in school in the bay region before returning to the south.

Tribute of Food Is Levied for Germany

By Associated Press.

PARIS, Sept. 22.—Gaston Thomson, minister of commerce, in a report on a visit he made to Lille and other cities in the north evacuated by the Germans, says the Germans not only requisitioned provisions necessary for their troops, but forwarded great quantities to Germany, having exhausted the resources of the regions through which they passed.

SPARE CATHEDRAL AT RHEIMS, ORDER TO KAISER'S MEN

By Associated Press.

BERLIN, Sept. 22.—(By wireless, via Sayville, Long Island.)—The announcement given at official headquarters under date of September 21st relates that in the fighting around Rheims the Germans have occupied the heights of Craonne and that in advancing on the French city, which is described as on fire, they occupied the village of Bethany.

The Germans have attacked the line of forts to the south of Verdun and they crossed victoriously the eastern frontier of Lorraine, which was defended by eight French army corps. A French sortie from a point northeast of Verdun was repulsed.

GERMANS SHOW ACTIVITY.

By Associated Press.

WASHINGTON, Sept. 22.—The German embassy today received the following wireless from Berlin:

"Headquarters reports September 21st that the attack against the French and English army makes progress. Rheims lies in the French battle line and we regret being forced to answer their fire. The city suffers, but orders have been given to spare the cathedral.

"In middle Alsace the French attacks have been repulsed. The subscription to the German war loan up to the present time reaches 4,200,000,000 marks."

By Associated Press.

PARIS, Sept. 22, 3:06 p. m.—The following official announcement was made in Paris today: "Along the entire front from the Oise to the Woevre the Germans manifested yesterday, September 21st, a certain activity, without, however, obtaining appreciable results.

"First, on our left wing, on the right bank of the river Oise, the Germans were obliged to fall back before the French attacks. Between the Oise and the Aisne the situation remains unchanged. The enemy has not delivered any serious attack, contenting himself yesterday, Monday evening, with a continued cannonading.

"Second, on the center, between Rheims and Souain, the enemy attempted an offensive movement which was repulsed, while between Souain and the Argonne, we have made some progress.

"Between the Argonne and the river Meuse there has been no change.

GERMANS ATTACK HEIGHTS.

"In the Woevre district the enemy made a violent effort; he attacked the heights of the Meuse along the front between Tresauvaux, Vigneuilles and Hendicourt, without, however, succeeding in gaining position on these heights.

"On our right wing, in Lorraine, the enemy has again passed the frontier, using in this operation a number of small columns. Donestre, to the south of Blamont, has been reoccupied by the enemy.

"During the days of September 20th and September 21st we captured twenty automobiles used in moving provisions, together with all the men attached to them. We also captured on these

TODAY'S WAR SUMMARY

By Associated Press.

Another day has gone and neither one side nor the other, Germany nor allies, lays claim to any decisive outcome in the battle of the Aisne, where the supreme conflict of the war, up to the present time, has long been raging.

The engagements seems to be partaking of the nature of a siege. Both sides continue to hold most of their strongly entrenched positions. The German lines, for 100 miles, are described as virtually a continuation of forts and heavy entrenchments. The artillery fire goes on day and night, and under its cover are sorties of infantry. Counter attacks follows attack, and occasionally one side or the other gains ground.

It would appear today that nothing but a successful flanking movement could have any serious effect on either army. But neither front has been broken and neither side has been outflanked.

Rheims appears to be the center of the most persistent fighting. It is between the lines of battle and the city has suffered heavily. The Germans are said to be most anxious to recapture this position.

The French official announcement issued at Paris this afternoon says that incessant German attacks delivered yesterday, September 21, have been unsuccessful and that the Germans have been compelled to retire at more than one point. The French took many prisoners.

The latest official communication from Berlin, issued Monday night, says the Germans have captured the hill positions at Craonne and occupy the village of Bethany, three miles north of Rheims. This announcement described the Germans also as attacking the strong forts south of Verdun.

The military expert of the London Times gives positions to the French forces on the left, which, if correct, show a remarkable advance along the flank of the German right wing. The French line had not been previously reported north of Noyon, but the Times places it at Lecatelet, thirty miles north of Noyon, Rosiel, nine miles southwest of Lecatelet, and Lassigny, eight miles due west of Noyon. These locations have not been confirmed from any other source, the French war office having contented itself with saying that the French left wing was advancing along the right bank of the River Oise.

Dispatches from Servian sources lay claim to further victories over Austrian forces along the River Drina. According to these advices, the Austrians have been driven across this river to the Austrian side with heavy losses.

days numerous prisoners belonging principally to the Fourth, Sixth, Seventh, Eighth, Ninth, Fourteenth, Fifteenth and Sixteenth German army corps, to the Bavarian Landwehr and to the reserve corps.

"Concerning the Russians in Galicia: The rear guards of the Austrian armies have been pursued by the Russians and have suffered considerable losses. Russian troops have come in contact with the Austrian garrison near Przemysl. The heavy Russian artillery is bombarding the fortifications of Jaroslav."

German Right Bends Back Under Pressure

By Associated Press.

LONDON, Sept. 22, 1:20 p. m.—All eyes are now fixed on the western section of the great battle line in France where the allied army is expected to descend on the German right which already is bending backward under persistent pressure to the northward of the River Aisne. If these German positions are once carried strategists here believe the whole German front will be in danger.

Meanwhile, however, a "perceptible progress" is all the light the official chronicler permits himself to throw on the great siege of the fortified positions which now has lasted ten days. German reinforcements, according to Berlin reports, have beaten their opponents in the race to the fighting zone and the result is seen in the rapid series of Hussar strokes which General Von Kluck has been able to deliver in an effort to stem the allied envelopment movement around St. Quentin.

Thus far the battle of the Aisne reproduces on a larger scale the chief features of the struggle on the Marne, but whether in the final outcome the victory will rest with the same side is likely to remain a secret for a few days more.

NEITHER CLAIMS ADVANTAGE.

Ten days of the most furiously contested struggle known in modern history has left both armies in such a position that neither can claim a definite advantage over the other and the result must depend largely on what reinforcements the opposing commanders are able to control.

On the river, as on the Marne, the Germans are thrusting persistently at the allies' center, while the French and British troops are pursuing their favorite movement of working around the German flank. Day by day the allied line, though stationary in the center, seems, according to official statements, to gain a little ground on both wings.

If the report that General Von Kluck has moved his headquarters back to Mons be true it will be of the greatest significance as showing his recognition of the danger which might threaten him from an army marching from the west.

The third great battle between the Russians and Austrians in Galicia, starting with a bombardment of Przemysl, in which two million men are said to be engaged, is expected to be in full swing within a few hours, when the whole line along the new positions occupied by the Austrians between Przemysl and Cracow will be involved.

Report Von Kluck Has Moved Headquarters

By Associated Press.

LONDON, Sept. 22, 9:56 a. m.—The dearth of official news this morning from the long battle front in the western arena of the war has raised the usual crop of rumors. These attract interest, and in the minds of some people are important from the fact that, originating simultaneously at widely distant points, they seem more or less to confirm each other.

(It is evident from the text of these dispatches that a recital of the rumors alluded to have been deleted by the censor).

The unsubstantiated report from Antwerp that General von Kluck, the commander of the German right wing, has removed his headquarters back to Mons completes these rumors.

The latest official communication from Paris, even more laconic than usual, said the allies are making progress between Rheims and the Argonne, although the fighting yesterday was less violent. A wounded British officer, who has returned to Paris from the front, has supplemented the official news with the declaration that the allies on their left have advanced seven miles.

REPORT HILLS TAKEN.

Berlin, however, reports that the German counter attacks about Rheims have resulted in their capture of the strong hill positions at Craonne, eighteen miles northwest of Rheims, and the occupation of the village of Betheny, three miles north of the French city. Berlin claims also a successful attack on the line of forts south of Verdun, defended by eight French army corps, as a result of which German troops have crossed the east border in the direction of Lorraine. Berlin reports further the defeat of a sortie from the northeast of Verdun, but declares there has been no important engagement elsewhere on the western battle front.

The city of Rheims may be razed to the ground, it is felt in London, not because in itself it has any strategic importance, but because it happens to be in the way of the operations directed against the plateau above the city, where the allies undoubtedly will endeavor again to disprove, as did Napoleon, the theory of Bleucher, that these heights are impregnable, even if defended by only 25,000 men.

CATHEDRAL WALLS STAND.

The walls and the tower of the Rheims Cathedral, according to latest reports, are still standing, but it is not believed they are strong enough to endure much more bombardment.

Nowhere else along the battle line is any great effort being made to carry a frontal attack, and unless one side or the other executes an outflanking movement Rheims may witness the most decisive battle of the war.

Belgian sorties continue from the shelter of Antwerp, but neither the Belgians nor the Germans have brought about any real change in their relative positions in this district.

From Petrograd come stories of the continued flight of the broken Austrian armies in Galicia, while at the same time Vienna declares that these armies are reorganizing for offensive action. It would seem clear, however, that only Przemysl is today standing out against the total occupation of Galicia by Russia.

Petrograd reports further that the populace already is fleeing from Cracow, from which city a portion of the unique library has been removed for safety.

DECLINE TO SERVE.

Reports received in the Russian capital are that Austrian Polish volunteers are declining to serve against the Russians. These give the Russians hope that Cracow may be delivered to them without a struggle.

The Russians claim still further victories against the Austrian forces attempting to reach Cracow, and they predict that there is no chance of the Austrians resuming the offensive before next spring.

That the Austrian army was not so badly demoralized and disorganized as at first reported is indicated by the admission from Petrograd of the desperate nature of the four days' assaults which preceded the recapture of Lemberg.

Battle of the Aisne Has Lasted One Week

By Associated Press.

LONDON, Sept. 22.—The correspondent of the Times in Paris discussing the big battle says:

"The battle of the Aisne continues, having lasted a week, with the allies making slow progress against extraordinary difficulties.

"It is no longer, properly speaking, a battle, but a siege, the Germans having constructed along their hundred-mile front a series of small fortresses from the Oise to the Meuse, made of old forts and disused quarries.

"Bomb proof shelters, formed of bags of concrete and subterranean passages connect the casements on the heights of Pommiers with the open country, by means of which the enemy secures victuals and is supplied with ammunition. These elaborate works were prepared by the Germans before the march on Paris was begun, thus indicating that they had some doubts of success.

"The plains of Champagne are admirably suited for the French offensive. They oriside with trenches and redoubts, but if these hamper French action they also stop German attacks. The battle of the Aisne thus becomes a kind of Sebastopol. Operations of this sort always resort in the defeat of the besieged unless reinforcements arrive."

The Times' military expert says that the line of the allies now extends on the east from a point near St. Die through Luneville, Pont-a-Mousson, Etoin, Consenvoie, Montafauconi, Scuain, Rheims, Craonne, Noyon, Lassigny and Roisel to Lecallelet.

"The news of the day," this expert says, "is the appearance of the fresh forces around Faronne, 17 miles northwest of St. Quentin, attacking the German extreme right at St. Quentin.

"The English army is near Soissons. On the British left are French troops who probably reach through to Lassigny toward Ham, 12 miles southwest of St. Quentin, and are endeavoring to close in upon LaFere, 14 miles northwest of Leon."

Battle of Aisne Like Mukden, Expert Says

By Associated Press.

BERLIN, Sept. 21, via London, Sept. 22.—The news of the bombardment of Rheims reached the public here briefly through the morning papers, but no other details were printed concerning the battle. Mention was made of three places, Noyon, Rheims and Brimont.

The military critic of the Lokal Anzeiger, discussing the reports of strong entrenchments on both sides, says that the fighting, which heretofore has been mobile, has now entered upon the stage of stationary position engagements, like Liao-Yang and Mukden, necessitating first the discovery of weak points in the enemy's lines and then protracted efforts at breaking down the opposition.

It is denied officially that the German troops have evacuated Brussels

Duke Ernest August of Brunswick, son-in-law of the German Emperor, has been decorated with the Iron Cross.

Germans Cremating Dead; British-French Are Buried

By Associated Press.

LONDON, Sept. 22.—The British and French dead are being buried together where they fall on the field of battle and the German dead cremated, according to a dispatch to the Daily Telegraph from Erneville (south of the Aisne). The dispatch which is dated Sunday says:

"The sixth day of the battle is being fought with the same ceaseless energy as were the previous phases. Very little ground is won or lost. The artillery is engaged in an incessant roar and the troops are being given very little rest.

"Every trench on the left has been won by the greatest sacrifice. Some of the British regiments have paid very dearly."

Germany Officially Reports on Battles Around Rheims

By Associated Press.

BERLIN, Sept. 21, via London, Sept. 22.—An official communication issued Monday night regarding the course of the battles around Rheims says:

"The strong, hilly positions at Craonne have been captured. Advancing on Rheims, our troops occupied the village.

"We are attacking the strong forts on the line south of Verdun, and the Germans have crossed the east border in the direction of Lorraine, which is defended by eight French army corps. A sortie from the northeast of Verdun has been repulsed.

"The French troops camping to the north of Toul (near Nancy) have been surprised by our artillery.

"In the rest of the French war theater there have been no engagements.

"In the Belgian and eastern battlefields the situation is unchanged."

WAR RISK INSURANCE MAY NOW BE ARRANGED

By Associated Press.

WASHINGTON, Sept. 22.—War risk insurance on American vessels and cargoes carried in American vessels many now be arranged for through any collector of customs in the United States, under a decision announced tonight by the Treasury Department.

This action obviates the necessity of establishing branches of the new bureau at seaports. Applications may be received by any collector or deputy, but in no instance will the government issue war risk insurance except where the applicant has ordinary marine insurance, and in no case will the war risk exceed the marine insurance.

The bureau announced also that applications must be made personallly b ythe owner or his representative.

clerk, obtained the switch. He had not relinquished the 'phone himself when two shots rang out in the Murphis' apartments.

Antipas called help and the rooms were entered. Murphis lay dead on the floor with the revolver near him. Mrs. Murphis was alive, but unconscious. She was sent to the hospital, but died.

Costa Murphis, a brother, came in and remarked that probably Mrs. Murphis did the shooting, as his brother had often said he feared he would get what Dr. Proesser did. But the police indicated the positions of the bodies and the revolver, and said Murphis did the shooting.

The police said also that Murphis' true name is Murphison, but to all papers he signed the name of Murphis.

His wife had jewels in the room worth $2000 and a considerable sum of money.

HER NORTHERN RECORD.

SEATTLE, Sept. 22.—Mrs. Vera Murphis, who was shot and killed in San Francisco today by her husband, gained national notoriety by shooting and killing her divorced husband, Reese Proesser, on a railroad train at Libby, Mont., June 1, 1910. Proesser had obtained a divorce from her two weeks previously in Seattle and had started for Cleveland, where his family is well known. The woman boarded the same train.

She was tried in Montana for murder and acquitted. Soon afterward she married Lloyd E. Scott, a piano salesman, who obtained a divorce from her early in 1911 at Bloomington, Ill.

During the past two years the woman had been arrested at various places, sometimes as a vagrant.

SAD PROCESSION OF REFUGEES FROM RHEIMS

By Associated Press.

LONDON, Sept. 22.—The Daily Mail's correspondent at Rheims, under date of Sunday sends this description of the scenes there:

"Following five days of bombardment, constantly increasing in intensity, there is streaming along the wet, muddy roads to Epernay, a sad procession of refugees of all classes from Rheims. They are in every sort of vehicle except the motor car, and have been driven by the destruction of the city to seek shelter elsewhere.

"Regarding the damage, there is not much to see on the outside of the cathedral, as might have been expected, for the towers and walls still stand and the scars on the Gothic decorations, caused by the German shells, are not easily distinguishable by the stranger's eye from those worn by the weather of 600 years, but the great doors yawn nakedly, for the old oak portals have been entirely consumed.

A cursory view gives the impression that it could be possible to restore the cathedral in time at a great cost, but some of the damage can never be atoned, for example the great rose windows. Not all of this, however, is gone, but there are holes in it, sad to see.

"The situation in the city is most serious. The people are living in cellars, provisions are becoming exhausted and no bread is being baked."

RHEIMS WREATHED IN SMOKE.

By Associated Press.

LONDON Sept 22.—The correspondent of the Daily Telegraph at Rheims sends this story of the situation at that point:

"To the visitor Rheims, wreathed in smoke and echoing with the boom of cannonading, presents a forlorn and disconsolate sight. Everywhere there is evidence of the damage done by the shells of the big howitzers. Whole houses are seen with their interior smashed into a shapeless mass of bricks, mortar and wood.

"Around the cathedral hardly a house escaped damage. In front of the facade of the cathedral stands a statue of Joan of Arc. The figure is unscathed but the horse and pedestal are chipped and seared by shells and the flames.

"At first sight the exterior of the cathedral does not appear to be much damaged, although the masonry is chipped, scarred and whitened by countless shrapnel bullets, while many carved figures and gargoyles have been broken off.

"In the doorway still stands the crippled beggar who has caught alms there for many years. He maintained his post throughout the bombardment and like a statue he stands, covered with dust, pebbles and glass. The man was unharmed. He was crippled in the war of 1870.

BUILDING RESISTS SHOCKS.

"An examination of the interior shows that the better part of fifty shells have found lodgment, but luckily the range being very great, the solid stone work of the building had resisted the successive shocks. It was the ancient and priceless glass of the windows which suffered the most. In the center of the vault, the great candelabra which hung from the roof lies broken in the center of the floor amid a mass of debris.

"The general impression is that the cathedral can be restored, although most of its priceless decorations are ruined.

"Some of the German wounded are still in the cathedral. Several of them were killed by shrapnel bullets during the bombardment, as well as at least one of the French soldiers who were attending them.

"German aeroplanes hovered over Rheims while the bombardment was in progress, doubtless to report the success of the cannonading. They flew very high and the French soldiers did not trouble to fire at them."

CONDEMN DESTRUCTION.

By Associated Press.

GENEVA, via Paris, Sept. 22. — The Swiss press unanimously condemns the destruction of the Rheims cathedral, and there has been an outburst of indignation among the 200,000 representatives of all nations who are at present in Switzerland.

According to late advices there were riots yesterday at Vienna, the people demanding war news. Food is very scarce and prices are rising daily. As a result of the riots several persons were killed and many arrests were made.

German papers received here seem to be adopting a more sober tone, some of them even mentioning a possible retreat "for strategic reasons" from France for the purpose of "punishing the Russians."

The prices of food in all the German towns are mounting slowly but steadily. At Hamburg, an egg costs one mark (25 cents).

SEND PROTEST.

By Associated Press.

ROME, via Paris, Sept. 22.—The International Arctic Club, the Academy of St. Luke any many other organizations have sent protests to the German authorities against the destruction of the cathedral of Rheims.

MAY RAZE ENTIRE CITY.

A Paris dispatch to the Express says: "Military experts here believe that the Germans intend to raze the entire city of Rheims. While the city itself is immaterial from a military standpoint, it is the center of a district of the highest strategic value. The German forces in great strength are close to the city on the north side while the French batteries occupy the heights to the south.

"While the German main attack is developing at Rheims the French attack is centering toward Noyon. The plateau of Craonne is held by 100,000 Germans, while the village is occupied by the French. Blucher, who was defeated by Napoleon on this same ground, declared that 25,000 troops could hold this plateau against any odds.

POPE PROTESTS.

By Associated Press.

LONDON, Sept. 22, 8:35 a. m.—A Rome dispatch to the Central News says that the Pope has telegraphed to the German Emperor protesting against the destruction of the cathedral of Rheims.

LAY DAMAGE TO FRENCH.

By Associated Press.

AMSTERDAM, Sept. 22, via London, 3 p. m.—According to German papers received here, the Cathedral of Rheims suffered but slightly during the recent German bombardment. These papers aver that no damage at all would have been done to the cathedral if the French troops had stayed away from it.

Denies Malice in Cathedral Wrecking

By Associated Press.

NEW YORK, Sept. 22.—Count von Bernstorff, German ambassador to the United States, asserted today it was "preposterous to suppose that the destruction of the Cathedral at Rheims was a premeditated act."

"It would seem from certain published reports," Count von Bernstorff continued, "that the destruction of this grand old edifice was the result of malice. This is ridiculous. I am positive that the attack on the Cathedral at Rheims was not willful. However, I believe this is a case of hyper-sympathy. For my part I feel much more for the thousands of men who have sacrificed their lives, although I regret as much as any man the destruction of such a beautiful work of art."

HOW BRITISH CRUISER WAS SILENCED BY GERMAN VESSEL

By Associated Press.

CAPE TOWN, Union of South Africa, Sept. 22.—Further details have been obtained here of the naval action in the harbor of Zanzibar last Sunday morning, when the British cruiser Pegasus, under command of Captain John A. Ingram, was attacked and put out of action by the German cruiser Koenigsberg.

It seems that the Koenigsberg approached Zanzibar harbor at full speed. She disabled a patrol boat with three shots and then opened fire on the Pegasus. Her shooting was accurate. She commenced firing at 9000 yards, closing in to 7000. The Pegasus replied with all her guns but her artillery was disabled in fifteen minutes. When her fire ceased there came a lull of five minutes, after which the Koenigsberg again opened fire for another quarter of an hour. The Pegasus was unable to reply. Nearly all the casualties on board the British boat occurred around her guns and on her upper deck. She was badly injured on the water line and listed heavily. Her flag was shot away twice, but each time it was raised again and held up by her marines.

Apparently little or no damage was sustained by the Koenigsberg.

CLAIMS ENGLISH HAD 'DUM-DUMS'

Red Cross Head Says They Were Found on British Soldiers.

By Associated Press.

AACHEN, Aix La Chapelle, Sept. 8.—The head of the Red Cross division in Rhineland today showed American correspondents "dum-dum" bullets, one thousand of which, he said, had been found on English soldiers taken at Maubeuge. The end of these bullets was tipped with lead which contained a copper core. It was a 45-caliber make, similar to cartridges used for big guns. These soft-nosed bullets had caused ugly injuries to the German wounded which he had previously treated, said the Red Cross chief.

The officer spoke without animus and only gave evidence which he said he had personally gathered. He said many of the English bullets are made like the sharp nickel-pointed German bullets. The French bullets were uniformly good, he declared, made small wounds and did not spread.

SAYS BUCKSHOT WAS USED.

According to the official's story he had treated German wounded who had been shot with English buckshot. He brought in a wounded German boy, Wolfgang Kocher, son of a Madgeburg professor, and enlisted in the Seventy-fourth infantry regiment of Hanover. This boy, aged 19, was made a prisoner with thirteen others, by the Belgians at Liege, during the first days of the fighting. He said he was told by the wife of the doctor who attended them that if anything happened to any of her relatives in the war she would poison the prisoners. For four days, therefore, they were afraid to touch food or water, and when rescued by the Germans were on the point of starvation.

CHARGES FIRING ON AUTO.

The Red Cross chief said he har seen a Red Cross automobile fired on at Batueste by Belgian civilians. He told a remarkable story of a Belgian telephone girl at Dahlen, who telephoned Belgian officers at the forts that they were not properly placing their shells. By following her instructions they were able to regulate their firing effectively and the telephone girl was killed by a shot which destroyed the office from which she was directing the operations.

At Dahlen, the Red Cross official said, they had been fired upon by Belgians at midnight, after being kindly treated by them during the day.

LAUDS HOLLAND'S AID TO AMERICANS

Hospitality to Stranded Americans Described by Returning New Yorker.

By Associated Press.

WASHINGTON, Sept. 22.—Holland's generous hospitality to stranded Americans as they poured in on every side from belligerent countries was described today by V. S. Merle-Smith of New York City, who has served as a volunteer secretary at the American legation at The Hague since the outbreak of the war. He arrived here today with private dispatches for the state department from Henry Van Dyke, the American minister.

"Though Holland herself," said Merle-Smith, "has suffered immeasurably from the effects of the war, she has spared no pains in her treatment of Americans. There has been the most hearty cooperation between the government of The Netherlands and the American minister. Holland with a population of about 6,000,000 mobilized an army of 390,000 men in four days. Her commerce and fishing industries have been badly crippled and many of her home industries ruined."

DENY EGYPTIAN REPORT.

By Associated Press.

WASHINGTON, Sept. 22.—The British embassy today received the following dispatch from its foreign office: "Germans are spreading reports that the British commander in Egypt has seized reserve funds of Egyptian dote publique and cash funds of national bank and minister of finance and has sent them to London, issuing equivalent amount of notes. This story is a pure invention."

200 BRITISH WARSHIPS MASSED

Vessels in Battle Line Off German Naval Base Ready for Action.

By Associated Press.

NEW YORK, Sept. 22.—Two hundred British warships lie in battle line off the German naval base off Heligoland, so close that at times they appear to touch each other, according to Captain Skelley of the British oil tank steamer San Lorenzo, which reached New York today from London. For six weeks the San Lorenzo was with this British fleet, her officers said, as supply ship for oil burning war craft. She took them 15,000 tons of fuel oil. The San Lorenzo was with the fleet during the engagement with the German cruisers behind Heligoland, but was not permitted to steam close enough to see the fighting.

Captain Skelly said a story was current among the sailors of the fleet that Sir John R. Jellicoe was aboard the submarine which sank the German cruiser Hela recently. As to this, however, he had no knowledge further than the tale of the bluejackets.

Outside the Ambrose Channel lightship, [illegible] to New York harbor, Captain Skelly said there were two British cruisers and a Cunard liner, converted into an auxiliary cruiser.

NINE DIE IN SEA FIGHT.

LONDON, Sept. Sept. 22, 10:25 a. m.—The admiralty has issued an official list of casualties on the Carmania, which sank an armed German merchant steamer off the South American coast. It shows that nine men were killed and five seriously wounded. No officers name appears among the dead or seriously wounded.

GERMAN CREW SAVED.

BERLIN, via Rotterdam and London Sept. 22, 11:47 a. m.—The report of the sinking of the German armed merchant cruiser Cap Trafalgar September 14 off the east coast of South America by the Cunard line steamer Carmania, converted into a British auxiliary cruiser, has been confirmed in an official statement given out here today. This communication adds that the crew of the Cap Trafalgar was saved by the German steamer Elenore Woerman.

STEAMER BRINGS AMERICANS HOME

Passengers From War Zone Tell of Horrors of Battle.

By Associated Press.

NEW YORK, Sept. 22.—The Red Star liner Zealand came in today from Liverpool with 363 passengers from the war zone of Europe.

All had stories to tell. Dr. H. H. McCarthy of Spokane, Wash., was in Berlin when a train containing several hundred wounded British prisoners passed through. A crowd of hoodlums attacked the train, crying "Kill the English!" As the prisoners were shackled at the ankles and wrists, they were helpless. A squad of German cavalry charged the mob and beat it off with the broad sides of their sabers.

Henry De Sibour, an American living in London, who was marooned at Belfort when the war broke out, on one field saw squares of dead German soldiers. Those on the outside had fallen, but the bodies toward the center of the square were standing upright, leaning against each other. Officers told him machine guns were responsible for this wholesale killing. Mrs. De Sibour declared a near relative of hers who is an officer of an English railroad had told her his line had transferred 250,000 troops across England.

HORSES FOR BELLIGERENTS.

By Associated Press.

BLISS, Okla., Sept. 22.—It was learned yesterday that 10,000 Oklahoma and Texas horses are being collected at a ranch near Bliss for one of the nations involved in the European war. Inspectors are now en route from New York, it is stated, to pass upon the horses.

SERBS ROUT AUSTRIANS

LONG BATTLE ENDS IN PANIC

Army of 250,000 Demoralized, Is the Report From Nish.

By Associated Press.

PETROGRAD, via London, Sept. 22, 7:27 p. m.—Russian troops have occupied the fortified Austrian position of Jaroslav, according to official announcement made here today. The Russian flag is now flying over the town.

FLEE IN PANIC.

By Associated Press.

PARIS, Sept. 22.—A dispatch to the Havas Agency from Nish, Servia, says: "After several days of battle near Kroupani, ten miles from the Bosnian border, in which 250,000 Austrians were engaged, the Austrians suffered complete defeat and are flying in panic from the banks of the river Drina.

"The Servians, who called back their troops in Syrmia for this battle, are now advancing toward Svornik.

"On the river Save an Ausurian detachment tried to capture the town of Shatbatz, forty miles west of Belgrade, but was thrown back with great losses."

ARMY DEMORALIZED.

By Associated Press.

WASHINGTON, Sept. 22.—The following dispatch was received at the British Embassy today from Sir Edward Grey of the Foreign Office:

"Servian official communication dated September 18 gives highly favorable account of operations against Austrians and states that Austrian army is completely demoralized and panic stricken and 'flying before our men.' Montenegrin army at present only 15 kilometres from Bosnian capital and has captured large amount of booty."

PURSUED BY SERVIANS.

By Associated Press.

PARIS, Sept. 22, 11:22 a. m.—In a dispatch from Nish, Servia, dated Setpember 20, the correspondent of the Havas News Agency says the Austrians had been forced to retreat along the entire front between Lioubovia, Svornik and Losnitza, and that they were being notly pursued by the Servians near Kouriatcitza. The Servians destroyed the bridges over the river Drina, but after suffering heavy losses the Austrians gained the opposite bank.

The Austrian attempt, the correspondent continued, to cross the River Save between Mitrovitza and Shabats failed. In Bosnia yesterday the Serviars occupied the heights west of Rogatnitza.

DEFEATS FETTER AUSTRA.

By Associated Press.

ROME, via Paris, Sept. 22.—A dispatch received here from Petrograd says that reports of fresh defeats of the Austrians have led the Russian headquarters to believe that it will be impossible for Austria to assume the offensive in Galicia until next spring.

CRACOW MAY CAPITULATE.

By Associated Press.

LONDON, Sept. 22.—The correspondent of the Post at Petrograd sends the following version of the military situation at Cracow:

"The populace is already fleeing from Cracow, from which place a part of the unique university library has also been removed for safety.

"The Polish voluntary bands, which have been enrolled for the defense of Cracow, have declined to oppose the Russians on the ground that they prefer that the tide of war should break upon some other part of Austria rather than around Cracow. This seems to show that Cracow may be delivered up to the Russians."

OCCUPY TOWN.

By Associated Press.

LONDON, Sept. 22, 4:25 p. m.—The Rome correspondent of the Star says Servian and Montenegrin forces have occupied Samatevo, which was abandoned by the Austrians after an overwhelming defeat.

DISASTER CONFIRMED.

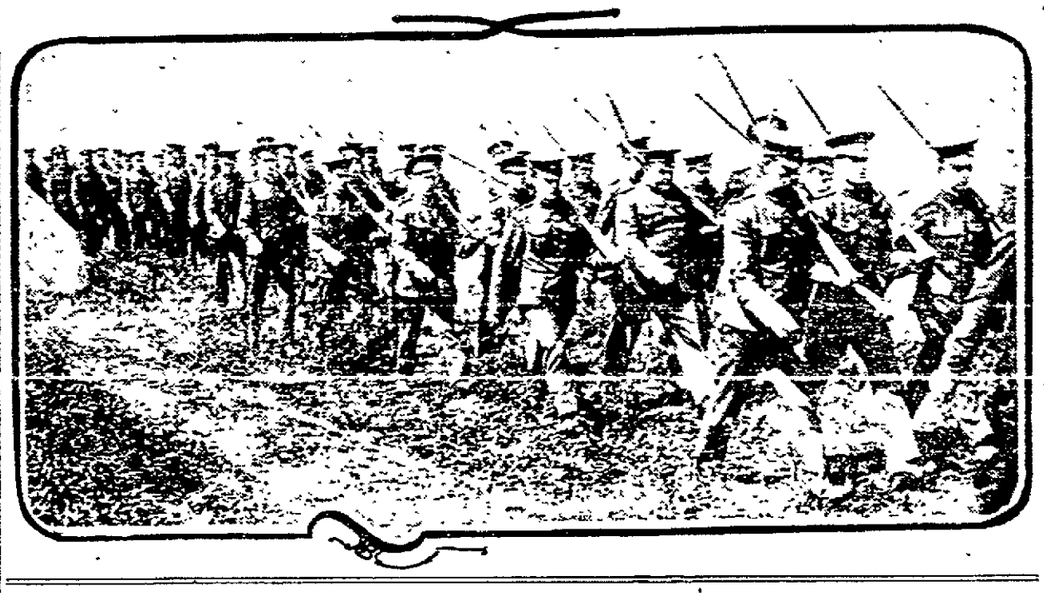

By Associated Press.

NISH, Servia, via London, 3:28 p. m., Sept. 22.—The battle which has been progressing for several days near Krupini, on the Drina river, has, according to official announcement, ended in complete disaster for the Austrian army.

The announcement declared that 160,000 Austrians were engaged in this encounter, while the Servian forces included various bodies of men who had been concentrated along the Drina, reinforced by troops hastily recalled from Semlin and Slavonia. The fighting was very sanguinary.

The Austrian attempt on Shabats was repulsed with heavy loss.

REPORT 150 KILLED IN FIGHT ON STEAMER

By Associated Press.

LONDON, Sept. 22.—The Express received the following dispatch from Madrid yesterday: "Many of the 1200 passengers on the steamship Infanta Isabel, which was in Cadiz on September 17, says that they were aboard the steamship Blucher on September 8, when in the port of Pernambuco a discussion of the war was started between the passengers and crew, who were all Germans, and they became violently angry. They attacked the French, Spanish and Portuguese passengers with knives, axes and revolvers, while the engineering staff squirted boiling water on them.

"Many passengers jumped overboard through fright. One hundred and fifty passengers had been killed before the stopped the carnage.

"The Spanish and Portuguese Consuls afterwards arranged to tranship 430 of their nationalities to the Infanta Isabel. Twenty-seven of these were seriously wounded, and many of the others had been robbed of their money and baggage."

LONDON, Sept. 22.—Brigadier-General Christian Frederick Beyers, commandant-general of the Union of South Africa's defense forces, has resigned his post because of his disapproval of the action of Great Britain in sending commandoes to conquer German Southwest Africa.

TELLS OF FRANC-TIREUR OUTRAGES

Correspondent Lays Gruesome Charges Before Forum of Historical Truth.

(Correspondence of the Associated Press.)

BERLIN, Sept. 21.—"A cry of indignation has been called forth throughout the world," writes W. Scheuermann, a correspondent of several German newspapers, who accompanies the German general staff, "by the so-called cruelty with which the Germans are carrying on this war. In all countries that get their news through English and French sources, stories of German barbarism are repeated.

"It is therefore doubly the duty for a war correspondent who can speak of what his own eyes have seen to report what he saw and what he can answer for before the forum of historical truth. I have spent days in the worst Franc-Tireur regions of Belgium and France. My first impressions of the horrors of war were obtained at Battice, on the road from Aachen to Liege, where fighting occurred between Franc-Tireurs and our soldiers. Instead of a flourishing village, with clean houses and neat villas one sees there today charred ruins stretching along the highway for a mile.

REMEMBRANCE OF LIFETIME.

"I saw things there that I shall remember as long as I live. I passed through a village that was quite burnt out, where only a few German soldiers were standing guard—no other living beings visible anywhere. But when I came to the doorway of a house that had fallen I saw in what had probably been the living room, a white haired woman with a kitchen knife raking in the debris.

"I called to her. She did not hear me. Her face was like a gray stone, and her eyes fixed as in death. She dug as if she was expecting to find something under the fallen bricks.

"In a front garden, which had been scorched by the flames, a woman in a black dress was crouching and weeping. I have stood at many an open grave in the churchyard, but I have never heard anybody weep like that woman. The sound of it will ring in my ears forever as one of the most terrible experiences of my life.

"Even the petty losses of property are painful to see. In the upper story of one house everything had been destroyed by fire, but at one place on the smoke-begrimmed wall there hung the discolored photograph of a woman probably a long time dead. At one place a blue enameled child's bedstead peers out of the smoking debris, still filled with its scorched mattress and pillows. Whoever has a child at home in its snow white bed——.

THRICE CURSES CAUSE.

"But a curse, and thrice a curse, on those who caused all this misery. For them there is no punishment in this world sufficient to atone for their evil deed. And when they now denounce our brave warriors as the cause of this desolation, this latter slander, shameful as it is, does not weigh much in comparison with what they actually did.

"Our German soldiers and landwehr men marched into the country of the enemy with the same order and discipline that they maintain on the drill ground and in army maneuvers. Wherever we came we guaranteed to the inhabitants security for life and property; we are waging war with the armies of the enemy, not with civilians. In Battice the German proclamation promising the Belgians peace and the integrity of their territory was still seen on the walls of the burnt houses.

"Now, what happened in Battice, Clermont, Herve, Fleron and other Belgian places was, with singular similarity, as follows: 'The inhabitants let the Germans march in, received them with cringing friendliness, offered them wine in superfluous quantities and then fell on them at night. It goes without saying—for our preservation demanded it—that every murdered German was avenged. We arrested them and they were brought before a court-martial; and if their guilt was evident, they were shot or hanged.

EXAMPLE OF SELF-CONTROL.

"All this was done in perfect order. How far the self-control of our troops extended was proved to me by an example only day before yesterday. At the entrance to the French fortress of Longwy, just captured, I saw German soldiers bring in a troop of Franc-Tireurs, quite old fellows, and among them a few common thieves scarcely beyond schoolboy age, all of them with criminal faces of the hardest type. Pity that we did not photograph them so that the world might see what hideous scamps are killing our men.

"'What did these men do?' demanded an officer. 'They put on Red Cross scarfs, then went on the battlefield and mutilated our wounded. We caught them in the act,' was the reply. 'Why did not you beat the scoundrels to death at once?' 'We dare not do that. They must be brought before a court-martial.'

"No reader should know what was the character of these mutilations. The eyes of our wounded men, lying helpless in their pain on the battlefield, were cut out with knives. But this was not by far the most cruel thing these beasts invented. Old and young men and women were caught as hyenas of the battlefield and they received their reward.

"At Vise a 16-year-old girl had to be shot because she was caught in the act of mutilating our wounded.

"There is no mercy for such deeds, and there can be none. I should like to know what other people in the world possess the self-restraint, in the presence of such shameful crimes, to wait and bring the criminals before a court-martial court.

TOWNSPEOPLE TO GIVE UP ARMS OR BE SHOT

By Associated Press.

LONDON, Sept. 22.—Following is the text of the proclamation published in France and said to be posted in all towns occupied by the Germans:

"All the authorities and the municipality are informed that every peaceful inhabitant can follow his regular occupation in full security. Private property will be absolutely respected and provisions paid for.

"If the population dare, under any form whatever, to take part in hostilities, the severest punishment will be inflicted on the refractory.

"The people must give up their arms. Every armed individual will be put to death. Whoever cuts telegraph wires, destroys railway bridges or roads or commits any act in detriment to the Germans will be shot.

"Towns and villages whose inhabitants have taken part in the combat or who fire upon us from ambush will be burned down and the guilty shot at once. The civil authorities will be held responsible.

TO ORGANIZE WOMEN'S CONGRESS FOR PEACE

By Associated Press.

NEW YORK, Sept. 22.—Organization of a woman's peace congress to help terminate the European war was discussed here yesterday, at a meeting of the women's peace parade committee.

"It is time to say that legalized murder is never right, whether it be done by the executioner or by the battalions of a president or an emperor," said Mrs. Henry Villard, president of the peace parade committee, in an address. "Too long have women been controlled by the teachings of men who demand of them that they permit their fathers, husbands and sons to perish on the field of battle."

Resolutions were adopted urging the women of America to oppose all fashions based upon the military idea, to refrain from the purchase of toy weapons and to work against their importation from foreign countries, and to see that nothing be placed in the hands of children to keep before them the idea of war.

31,200 CANADIANS TO AID ENGLAND'S CAUSE

By Associated Press.

VALCARTIER, Quebec, Sept. 22.—Canada will send 31,200 soldiers from the contingent, which will start shortly for the European theater of war. This is nearly 10,000 more men than the British war office asked for. This announcement was made last night by Colonel Hughes, minister of militia. It was originally planned to send a division of 22,500 men.

"We have decided that every man will be taken from this camp," said Colonel Hughes last night. "The firing-line from Canada will consist of an army division of 22,500 men, but at the same time we have deemed it advisable to send the rest of the Canadians who will act as a reserve."

SCHOONER ANNA OLGA MAKES PORT AT TELLER

NOME, Alaska, Sept. 22.—Word reached Nome yesterday that the long overdue gasoline schooner Anna Olga, which sailed from Point Barrow for Nome August 25 last, is safe at Teller after a period of trial and distress, during which the schooner drifted helplessly and disabled along the northwest Alaskan coast.

The Anna Olga, Captain Chris Sten, had repaired a broken propeller shaft before sailing from Point Barrow. On her way down the coast the shaft broke again when the little vessel, a seaant 50 feet in length, was off Point Hope. How long the vessel drifted was not reported. GIVES CHRISTIAN SCIENCE LECTURE

Dr. Francis J. Fluno Addresses Large Audience at First Church of Oakland.

An audience of several thousand people heard the lecture on Christian Science delivered last evening at Piedmont Pavilion by Dr. Francis J. Fluno of this city. The lecture was given by the Church of Christ, Scientist of Oakland, and the lecturer was introduced by Mrs. Mirrie [illegible] Church, Mrs. Hall said:

"[illegible] Christian Science is today attracting the attention of all thinking people. It is calling for an intelligent [illegible] of mere belief in life. It [illegible] obedience to a God of love, a God whose law it is to give, and whose [illegible] existence naturally heals. Instead of fear of a God of punishment the students of Christian Science can truly say with the beloved disciple, John: 'That which we have seen and heard declare we unto you, that ye also may have fellowship with us and truly our fellowship is with the Father, and with His Son, Jesus Christ.'

"The Mother Church, the First Church of Christ Scientist of Boston Mass., has appointed a board of lecturership whose purpose it is to present the subject of Christian Science correctly and to bear testimony to the facts regarding the life and works of its discoverer and founder, Mary Baker Eddy. It gives me great pleasure to present to you one who has had personal instruction under Mrs Eddy, Dr Francis J. Fluno, C. S. D., a member of the Board of Lecturership of the Mother Church, the First Church of Christ Scientist of Boston, Mass., who will address you."

Dr. Fluno said in part:

CLAIMS OF CHURCH.

"The claims of Christian Science on the modern world are the claims of Christian Science on the prehistoric age, the ancient age, the medieval age, the present age and the ages to come.

"The average man, until awakened by Science, is mainly in his swaddling clothes, whose horizon is marked by the age in which he lives; he sees the way to live, and the ways of life, only in his own immediate business, church or creed.

Christian Science is not a discoverer of a new Truth, but a new discoverer of an old Truth.

"Christian Science is the law of eternal Life—divine Principle; and is therefore the Science of Sciences; the Religion of Religions and the Church of all Churches. It teaches the scientific fact of a perfect God and a perfect creation, as the basis of every conclusion.

What primarily was true, will always be true, is all that is true, or ever will be true.

"Christian Science makes no unreasonable claims on the modern world; its claims are based upon the Spirit of Love, and is reflected in health, kindness, charity and good will to all.

TAKES NOTHING FROM WORLD.

"It takes nothing from the world, but gives all to the world. In the place of war we find peace, and universal peace is raised to the dawn of that glad day "When all shall dwell together, one Shepherd and one Fold."

The sick are raised to health, and the healthy are raised to a standard of health, far beyond their present conception.

"Christian Science takes the world where it finds it, and raises the lower to the higher; and the higher still higher.

"It not only heals mortals of sickness, but it corrects the world of such a thing as sickness. It not only heals individuals of sin and iniquity, but it corrects the world of such a thing as sin and iniquity.

"As the problem in mathematics is found after the solution to be not only perfect and correct, but is found also that it always was perfect and correct.

"Likewise man in Christian Science is found after the solution of the problem, not only to be perfect like the Father, but it is found at the same time that he always was perfect; that the errors of human belief never were true, any more than the errors of the mathematical problem wer true.

NOT ICONOCLASM.

"'Ye shall know the Truth, and the Truth shall you free.'

"Christian Science is not essentially iconoclasm. It does not break images, tear down altars and break up churches, clans and societies. Neither does it use the old as a foundation upon which to construct the new. But it educates out of the old into the new; out of the lower into the higher, out of the false into the true.

"The science of Truth, like the garment of Christ, is a seamless robe, woven throughout from top to bottom; complete in itself; nothing can be added to it, and nothing taken from it; and nothing can be true that is not included in it. In it mankind and the world will find all his needs supplied, and all his real desires fulfilled.

"But the laws of God are not the laws of mortal mind or of matter. The so-called laws of health are no more the laws of God than the laws of evil are the laws of good, or the law of wrong is the law of right.

NO FOUNDATION IN FACT.

"The so-called laws of health that civilization makes and breaks, and yet builds upon, are as changeable as the wind that blows; and are all built upon the shifting sands of physical observation, conjecture, doubt and fear; having no principle of foundation in fact.

"The divine law of health, which is the law of Life, that is the law of God, is as changeless, immutable, pure and perfect as the eternal God Himself.

"Christian Science shows that the error of the ages is, in having two powers, one of good and the other of evil; and this belief beclouds the eye of reason, shuts out the true sense of being, and robs man of his God-given inheritance.

"This belief, in belief, makes man mortal instead of spiritual; makes man subordinate to every beast of the field, every fowl of the air and every plant that springs out of the earth; makes man a slave instead of a master.

"When man begins to see himself as a child of God, a child of Spirit rather than a child of the dust—then he begins to take possession of himself in the name of Almighty God, and to claim his birthright of health, happiness, harmony and immortality.

DOMINION BY LOVE.

"He then begins to take dominion over the beast of the field, and over the fish of the sea, the fowl of the air, and over everything that creepeth upon the earth.

"But this dominion is not expressed in the power of might, of physical strength and mortal cruelty, but in the power of love, kindness, gentleness and helpfulness to all that is below him.

"Christian Science, ever loving, ever gentle and ever kind, will never take away one single thing that you hold dear, without returning more then it took away, and that is what you shrd hrd away, and that which you love better.

"Christian Science turns the searchlight on animal magnetism, mesmerism, hypnotism and mental suggestion, and shows them to be dealing entirely with the mortal or finite mind, so-called, which is but the negative of the divine Mind, or Mind of God; and has no more existence, compared with the divine Mind, than darkness has compared with light.

"Christian Science is the wonder of the finite world, and the light of the ages; it is the grandest gift of the Nineteenth Century to the Twentieth.

"To donor, the Rev. Mary Baker Eddy, whom we lovingly call "Our Leader," is indeed a most wonderful woman.

WONDERS OF BOOK.

"To write such a book as 'Science and Health with Key to the Scriptures,' and write it in the darksome days of the world's history, when Heaven was a far-away place, and God a tyrannical personality, sitting on a throne in some unknown and unknowable locality; and the dark abyss of hell was yawning for the souls of men, and when matter and mortality, sin, sickness and death, the devil and even damnation itself were all the works of a great and good God.

"To write such a book at such a time and under such circumstances, is the wonder more and more, of all who love its teachings.

"As time goes on, and the great facts of eternal life as taught in Christian Science are more clearly seen, and more perfectly demonstrated, and Christian Science, the Science of Life, is better understood and comprehended, the name of Mary Baker Eddy, 'The Discoverer and Founder of Christian Science,' will stand out in the world's greatest history, like a star of the first magnitude; and she, herself, will be honored and loved for what she has done for mankind and for the world."

MASSACHUSETTS PRIMARIES.

BOSTON, Sept. 22.—The absence of a contest for the head of the state ticket in any of the three parties led to the expectation that not more than a third of the voting strength would be represented at today's Massachusetts primaries. Governor David I. Walsh will be renominated by the Democrats, former Congressman Samuel W. McCall will be nominated for governor by the Republicans and Joseph Walker, former speaker of the House, by the Progressives. Of the congressmen seeking renomination, the only one encountering strong opposition was Augustus P. Gardner, Republican in the Sixth District, whose place was sought by A. H. Pyiatt Andrews.

REREGISTRY HURRIED.

WASHINGTON, Sept. 22.—State Department officials were notified last night that delay in the transfer of the steamer Robert Dollar from British to American registry at Rio Janeiro had been caused only by the failure of the English consul to receive prompt assurance that the British registry had been closed. Steps have been taken to have the registrar at Ottawa cable the required notice, according to a cablegram from the American consul at Rio, and the British officials there are co-operating to expedite the proceedings.

MEMBER IN EXILE IS BOON TO HOME CLUB

Thrilling Narratives of War in Europe Are Expected for Future Program

Every club should have exported one member at least to Europe just before the war in order to provide a thrilling program for the season. The personal experiences of an acquaintance on the continent at the outbreak of hostilities would have an interest, a reality, that no printed account could ever achieve. Moreover, the return of a person who had come safely through besieged towns or marching troops, a person who had starved madly for the first time, would make a superb motif for entertainment purposes.

So, despite the regret members of the Home Club feel that Mrs. Daniel Easterbrook has been unable to return to preside over the opening affairs at the Hill clubhouse this season, they look forward to hearing stirring narrations of war scenes when their popular president does find her way back across the Atlantic and the American continent to the less turbulent environs of Oakland. Mrs. Easterbrook's long absence caused much uneasiness here until it was learned that she was safe in Norway, waiting to secure passage on an uncrowded steamer.

Doubtless the Home Club president suffered no extreme hardships, but it is believed that she cannot have escaped interesting experiences.

ARRANGE PARCEL POST EXPANSION

Two-Cent Letter Postage Rate Planned by U. S. for Western Hemisphere.

WASHINGTON, Sept. 22.—Plans for establishing a 2-cent letter postage rate throughout the Western Hemisphere are being considered by Postmaster-General Burleson. While a sacrifice of revenue would be involved, Burleson said today, strong arguments have been advanced in favor of the proposal.

It is contended that the change would go far towards permanently building up direct and frequent exchanges between the countries of North and South America.

The Postmaster-General today directed a suggestion to the representatives of Latin-American countries with which the United States does not transact money order business as to the desirability of concluding conventions for that purpose.

The countries are Argentina, Colombia, Dutch Guiana, Paraguay, Venezuela, Guatemala, Nicaragua and Panama. Germany, it was said at the department, has had virtually a monopoly of the money order business in several of the larger South American countries.

With the conclusion of a pact with French Guiana yesterday the United States had negotiated international parcel post conventions with 50 countries. The weight limit provided by the Guiana agreement, which becomes effective November 1, is 11 pounds, with a rate of 12 cents a pound.

LUCK WITH REAL ESTATE

That man who sold his Rockridge lot for $4000 made a $2425 profit.

You say he's always lucky. Not luck—judgment, quick decision. He heard of Rockridge—investigated—acted quickly. Then the enormous upbuilding of new homes started in the foothills out Broadway.

That was two years ago. Today there's scarcely a vacant lot in the district—right to the line of

That same sort of luck is before YOU now. Shrewd buyers grasped it quickly.

PLEASANTON READY FOR COUNTY FAIR

Prosperous Farming Year Reflected in Display of Agricultural Products.

PLEASANTON, Sept. 22.—Everything is in readiness for the opening of the Alameda County Fair tomorrow. A large staff of men were engaged today under the direction of Secretary W. J. Dakin in getting the stock and other exhibits in order. Entries in the exhibit departments of the fair have come in earlier than last year and this has given more time in arranging the display.

The fair grounds this year show an astonishing transformation. The exhibits, livestock horses, are set in a park with trees, shrubs, flowers and acres of lawn. The grounds are in splendid shape with clean, smoothly cut grass. The garden on the fair grounds has come in for much attention and has been extended to the borders of the race track, where rows of dahlias, geraniums and other flowers have been planted.

FINE STOCK EXHIBIT.

Judging from the entry of stock the fair will see one of the finest live stock exhibits ever shown in Alameda county. A prosperous farming year is reflected in the display of agricultural products.

As complete as the exhibit arrangements are for the amusement of the thousands of visitors. The management promises there shall be diversion for all, from stock parades, home shows and judging saddle class events, athletic contests, harness and automobile racing for carnival attractions.

All the departments are exceptionally well represented this year. In the women's section there will be a great display in all the branches of art and domestic sciences.

Since the last fair, the Alameda County Farm Bureau has been formed and the members of the bureau will attend the show in a body.

MANY PRIZES OFFERED.

There are several additions to the long list of prizes.

The association has offered two cash prizes of $10 and $5 for the first and second best decorated places of business in the town of Pleasanton for the week during the fair, and appointed as judges for this competition Messrs. N. S. Boone of San Ramon, Henry Lachman, Mission San Jose, and Manuel Brown, Warm Springs. Decision to be made on the afternoon of Saturday, September 19.

The State Fair at Davis has made arrangements to send throughout the circuit of the fair this year a display of three carloads, two of which will be stock and the other to consist of demonstration work in which the college is engaged. Lecturers will accompany and explain the virtues of all classes of the exhibits.

PUPILS TO STUDY WORLD EVENTS FROM MAGAZINE

SAN LEANDRO, Sept. 22.—Over 100 of the pupils of the grammar school have subscribed for a magazine from which they will study events all over the world. According to Principal Guy C. Smith the children will be better able to understand happenings recorded in a condensed manner than from reading them in the newspapers. Articles on different subjects contained in the magazine will be discussed by the young readers.

In connection with the interest taken by the pupils in the daily news, several budding editors have undertaken to write up the school events in a newsy manner. The school editors are Harold Williams, Rhoda Perry, Esther Sturm and Aylmer Felton.

The Chrysanthemum Association of the school has nearly completed arrangements for the initial chrysanthemum show. As there is still doubt as to when the blooms will be ready for exhibition the association will not be in a position to fix a date for the show for two weeks. It will probably be held in about a month from now.

Louis Paul Hart has presented a scholarship for a correspondence school in Scranton, Penn., to the grammar school. This will be sold and the money will go towards purchasing extra prizes for the chrysanthemum show.

WOMEN AUXILIARY HEARS ART PLANS

Gathering at Hotel Oakland Is Addressed by J. E. Trask and Miss Mollie Conners.

Art and exposition from all angles crowded with interest yesterday afternoon's meeting of the Alameda County Auxiliary to the Women's Board of the Panama-Pacific Exposition at the Hotel Oakland. Following reports from the district chairman, of rapid membership increases, several addresses were listened to with enthusiasm. Mrs. Gaillard Stoney, the first speaker, as secretary of the Women's Board, spoke of the work of that body and of the important place women were taking in the San Francisco Exposition. For the first time, she asserted, women were to be represented in every department and in every exhibit without discrimination.

Miss Mollie Conners, vice-chairman of the Alameda County Auxiliary, was then introduced by the chairman, Mrs. C. Posey, who paid a warm tribute to her devotion to the interests of the city and the county, and to the assistance she had given in the auxiliary work. Miss Conners urged that Alameda county support San Francisco to the uttermost. "We are the aristocratic county!" she said. As the aristocratic county, the richest and the most cultured, she felt it a privilege to stand at San Francisco's right hand in receiving the east in California. "To receive the visitors with no vacant lots, but streets lined with flowers with a spirit of comradeship and simplicity." Miss Conners' concluding remark that "we, ourselves, would have the time of our lives," met with unanimous approbation and laughter.

TRASK OUTLINES ENSEMBLE.

John E. Trask, chief of the Fine Arts Department of the Exposition, proceeded to outline the general ensemble of pictures which would be available to visitors to the Fine Arts building in 1915.

He said it was doubtful whether there would be exhibitions of pictures from Austria, Germany and other European countries. But there will be excellent representations of the fine Scandinavian painting; also of the French. American art will be shown very completely.

There will now be a women's as well as men's committee of one hundred to promote the passage of the enabling act permitting Alameda county to bond itself for $1,000,000 in support of the Panama-Pacific Exposition. Yesterday afternoon at the Hotel Oakland, at a meeting called by Mrs. S. C. Borland, it was decided by a number of active and representative women to organize this committee. A number of names were signed, an executive committee and a permanent chairman chosen, and organization plans adopted.

SELECT EXECUTIVE COMMITTEE.

With Mrs. S. C. Borland acting as temporary chairman, and Mrs. George Fredericks as secretary, Mrs. W. S. Peters was selected as permanent chairman of the organization and of the executive committee whose members represent the various districts and club interests of the country. There are to be fifteen in all but the nine decided upon are: Mrs. E. Gibson, Mrs. William E. Colby, Mrs. G. Beck, Mrs. Philip E. Teller, Mrs. S. C. Borland, Mrs. Cora E. Jones, Mrs. A. D. Thompson, Mrs. J. S. Emery, Mrs. W. S. Peters.

A meeting of this executive committee will be held next Tuesday afternoon at 2 o'clock at the Hotel Oakland to fill out the list of members and to plan the campaign which will be carried out in conjunction with the efforts of the committee of one hundred men working for the bond issue.

Among those who will be on the new committee are Miss Elke Moore, Miss Mollie Conners, Mrs. C. S. Chamberlain, Mrs. A. D. Thompson, Mrs. Wallace Pond, Mrs. O. M. Beebe, Mrs. John Pike, Mrs. Cora Jones, Miss Edith Booth.

CANNOT MAINTAIN WOODYARD ON SUM

Superintendent Goodrich Files Communication Regarding $1700 Appropriation.

W. S. Goodrich, superintendent of the Oakland Municipal Woodyard, filed a communication with Commissioner of Public Health and Safety F. C. Turner today showing that it will be impossible for the woodyard to be properly maintained on the appropriation in the budget of $1700.

Goodrich has unceasingly reiterated to the city council that Oakland should establish a free employment bureau. He contends that it is a better plan to find work for a man than to "make work" for him. This is set forth in his monthly report.

The letter to Turner follows:

"Commissioner F. C. Turner, City Hall, Oakland, Cal.—My Dear Mr. Turner: In accordance with your request, I am writing to you in regard to the appropriation for the Oakland Public Wood Yard.

"As it appeared in the daily papers, the appropriation for the fiscal year 1914-15 is $1700, only enough of $2000 a year and the rent of the premises, $540, will more than absorb this amount. This institution is not, and in the nature of things cannot well be made to be, self-supporting. This is the experience of all semi-charitable institutions. A man, no matter how industrious, simply cannot cut enough wood by hand to pay for his keep. If machinery is installed, then the men will have no work, and the intent of the place is defeated.

"We should have at least $1000 to work on. We must have some new sheets and towels. We should have a small washing machine in order to keep things clean. All observers agree, and the outlook appears to justify their conclusions, that we shall have about as serious a problem of unemployment this winter as we had last year. You will recall that Oakland had no unpleasant notoriety because of hungry and sick men being neglected. This institution played its part in securing that end.

"Springfield, Mass., with a population of 88,895 in 1910 against Oakland with 150,159, prides itself in its report for 1913 that the upkeep of its 'Wayfarers' Lodge,' an institution similar to this, cost the city about $2681.50 for the year. We did better than that. Sincerely yours,

"W. S. GOODRICH, superintendent."

FIRE DAMAGES RESIDENCE.

TAXPAYERS' COLUMN

All Communications to the Editor of THE TRIBUNE must bear the signature and address of the writer.

OBJECTS TO DESECRATION.

EDITOR TRIBUNE: I desire to thank you for your dignified editorial regarding the use of the "Star Spangled Banner" in amusement places. Although many people may disagree with your contention that the matter is not one that needs regulation, the editorial will serve at least the purpose of stimulating discussion of the proposition. I think, however, that your writer missed the main point of the resolutions which were aimed at the method rather than the frequency of the use of our national anthems.

The resolutions introduced by me and adopted by the Alameda County Music Teachers' association were prompted by the trivial use made of the "Star Spangled Banner" by a performer at a local vaudeville theater. It is quite a common experience of those who attend theatrical performances, especially of a vaudeville character, to have the national anthems and the flag dragged in often to save an otherwise characterless act. In fact, it has become a sort of unwritten law, as well as a subject of jest among the theatrical profession, that if you cannot "put your act over," to use theatrical parlance, any other way, arrange to have the orchestra play a few measures of the "Star Spangled Banner," display the flag, and you will be certain of a generous "hand" from the audience and thereby "save" your act.

MENTIONS ANOTHER NUISANCE.

Herein arises another nuisance, aside from the parody of the flag and the anthems. When the performer "pulls this stunt," a part of the audience arises out of respect to the custom of paying tribute to the flag, in itself an act of reverence entirely out of place when used simply to exploit a so-called comic act. By the time that the portion of the audience who have kept their seats are commencing to feel foolish and perhaps have decided that they also should arise, the orchestra usually swings into some other tune, and then everybody feels cheap excepting the performer who gratifies himself with the thought that he has been able to make such clever use of the flag and the anthem and the audience.

No one can object to the custom of our Oakland municipal band playing the national anthem at the close of its Sunday performance. This is done in Oakland by the theater orchestras at the close of each performance. It is a dignified custom.

There is another phase of this question which may well be discussed at this time. The "Star Spangled Banner" is not by any means an air that lends itself easily to vocal production. When sung, however, by a large body of people supported by organ or orchestra, it has a noble sonority quite as effective as the great German battle hymn "The Watch on the Rhine," or the "Marseillaise," or any other of the patriotic hymns of the nations. It is a reflection, however, upon our lack of patriotic interest in these things in America, that our people do not know the words of this hymn which has become a fixed part of our national traditions.

MAKES SUGGESTION.

I should like to make a practical suggestion to the Orpheum and other Oakland theaters which have a motion picture equipment. The suggestion is that just before the close of part one or act one of their programs each evening they shall have the words and music of the "Star Spangled Banner" projected on the screen, and the entire audience arise and sing it with the accompaniment of the orchestra. This custom carried out at every theatrical performance in America and coupled with the absolute discontinuance of the anthem in any other form during the performance, would do much to remove the present abuse of a national tradition and custom.

Then, too, it would not be an unwelcome act of physical relaxation for the audience which has been sitting in a somewhat cramped position for sometime in seats which are often none too comfortable. ALEXANDER STEWART,

President of Alameda County Music Teachers' Association.

CLAD AS MAORI DANCER NEW ZEALAND IS THEME

MRS. LELIA M. BLOMFIELD, WHO, DRESSED AS A MAORI "POI DANCER," WILL TALK ON NEW ZEALAND SUFFRAGE IN A SCHOOL LECTURE.

They've seen many things in the Oakland schools—and heard many things in the school lectures conducted by the Board of Education—but never before has a New Zealand Maori "Poi dancer" invaded the classic precincts. She's going to—not to dance—but to tell of the Australasian lands. Mrs. Lelia M. Blomfield, who will tell of New Zealand and of how women in her native land vote, will appear in the full costume of a native Maori dancer. Her lectures will be illustrated with lantern views of the country. The lecture will be held in the Claremont school Friday night under the auspices of the Board of Education.

Tonight, at the Emerson school, Robert J. Buchanan will lecture on Paris and recent scenes in the present war. He will illustrate his talk with photographs.

These lectures are under the direction of the lecture bureau of the Oakland school department, of which Professor Roswell S. Wheeler is secretary.

NO SNAKES; NO MORE MONKEYS; IS EDICT

SANTA MONICA, Sept. 22. — No more monkeys, no more snakes, no more wild animals of any kind within the city limits of Santa Monica is the edict that has gone forth from the council chamber to the chief of police of that city, and is to be enforced.

It all came about because a real estate dealer had a dozen big rattlesnakes in the window of his office to attract passers by. They were alive and had not been fang-pulled. Nervous citizens advanced to the council the possibilities of their getting out of the window and the probabilities of the population being decreased should they do so.

In order to get rid of the snakes anything that looked like an inmate of a menagerie was included in the order. Chief of Police Randall will enforce the order.

MORE HOPS BURNED.

SANTA ROSA, Sept. 22.—A barn on the Henry Leggett ranch, containing 54,000 pounds of hops, was destroyed by a fire, supposedly of incendiary origin. It was the second serious fire in the hop fields since the season here opened. The police and sheriff filled the jail with all suspicious characters who could be rounded up.

AUTO LEAVES ROAD; SEVERAL ARE INJURED

MARYSVILLE, Sept. 22.—Dr. T. Wah Hing, of Sacramento, his wife and 14-year-old daughter, Mrs. Hing's sister and the latter's baby, S. L. Truax, a Sacramento contractor, his wife, son and daughter, narrowly escaped serious injury in an automobile accident on the state highway three miles south of this city.

The party of nine was proceedings to Yuba City, Sutter county, by way of Marysville, from Sacramento, in Dr. Hing's automobile. The latter was driving at a high rate of speed when the machine swerved off the road to the south side in permitting another automobile to pass. Without slacking his speed, Dr. Hing steered the machine into the road again, causing it to skid to the north side. When the wheels struck the soft earth they sank and one broke, and the automobile turned turtle.

Truax and his son, Bernard, aged 4, who were seated in an improvised chair between the seats proper, were thrown clear of the wreck, but Dr. Hing and the remainder of the party were pinned beneath the machine until assisted. Mrs. Truax was the last to be removed.

Dr. T. Wah Hing was treated by Dr. Kaufman at the home of a Chinese friend in this city. He has several broken ribs, his leg and left forearm and back are injured and it is thought there are internal injuries. The babies in the party escaped injury, but Hing's daughter has three fractured ribs and an injured shoulder. Mrs. Hing is suffering from the shock. Mrs. Hing is suffering from the shock. Hing's condition is considered critical.

The displays of livestock, agricultural products and manufactures are said to be the largest in the fair's history. Among the more noteworthy features are the herds from the state college of Washington, Oregon and Idaho entered in the fat stock competition.

TO SAVE EYES

Is the Object of This Free Prescription: Try It If Your Eyes Give You Trouble.

Thousands of people suffer from eye troubles because they do not know what to do. They know some good home remedy for every other minor ailment, but none for their eye troubles. They neglect their eyes, because the trouble is not sufficient to drive them to an eye specialist, who would, anyway, charge them a heavy fee. As a last resort they go to an optician or to the five and ten-cent store, and often times get glasses that they do not need, or which, after being used two or three months, do their eyes more injury than good. Here is a simple prescription that every one should use:

5 grains Optona (1 tablet),
2 ounces Water.

Use three or four times a day to bathe the eyes. This prescription and the simple Optona system keeps the eyes clean, sharpens the vision and quickly overcomes inflammation and irritation; weak, watery, overworked, tired eyes and other similar troubles are greatly benefited and often times cured by its use. Many reports show that wearers of glasses have discarded them after a few weeks' use. It is good for the eyes and contains no ingredient which would injure the most sensitive eyes of an infant or the aged. Any druggist can fill this prescription promptly. Try it and know for once what real eye comfort is.—Advertisement.

President Grateful for Sympathy Given

WASHINGTON, Sept. 22.—President Wilson today expressed to Congress his appreciation for the resolutions of sympathy passed at the time of Mrs. Wilson's death. His message follows:

"I have received at the hands of the Senate the resolutions of sympathy passed on the occasion of the death of Mrs Wilson. It was very gracious of you to think of me in my hour of deep affliction and I thank you with sincere gratitude. It is comforting to me to think that we are comrades in the conduct of life as in the conduct of the nation's business and that we are bound together in human sympathy as men, as well as in duty as servants of the people. Your courtesy and thoughtfulness I deeply appreciate."

TEACHERS WILL ENJOY OAKLAND GARDEN PARTY

The members of the Oakland School Department will lay cares aside for a day and frolic on the green at Mosswood Park next Saturday on the occasion of the first regular meeting of the present school term.

The affair is called a garden party, but will be more in the nature of an old-fashioned picnic so great and varied are the attractions. It is expected that more than two hundred will take basket lunches or be served with lunch at tables arranged on the oval lawn in front of the club house. Forty boys who comprise the Elementary Schools Band will render several selections under the direction of Mr Glenn H. Woods, supervisor of music, and those around the tables will join in singing some of the good old-time songs that everybody likes to sing. Mr. A. C. Barker, Superintendent of Schools, and others will be asked to respond to toasts.

The program begins promptly at 1:30, Miss Annie Florence Brown, of the Board of Education, presiding. Dr William F. Bade will talk on the subject of "The Preservation of Our Game". Miss Florence Locke will read "The Sanctuary," by Percy Mackaye; and Miss Marie Brehm will deliver an address upon the subject of "The Voice of Science." Miss Brehm was the United States delegate to the World's Temperance Congress in Milan and was on of the speakers at a convention in Zurich, Switzerland, last year.

The committee having the entire affair in charge consists of Miss Zanette W Potter, chairman; Miss Annie Florence Brown, Mrs. W D Forbes, Miss Lulu Shelton and Mr. William F. Ewing.

CONTRA COSTA TAX RATE IS UNCHANGED

MARTINEZ, Sept. 22.—The Contra Costa supervisors yesterday fixed the tax rate at $1.60, the same as last year, on a total assessment of $45,859,000 for the county. This will bring the county $418,886.80 for all expenditures.

The supervisors appointed October 16 as the date for an election to determine whether Walnut Creek shall become an incorporated city of the sixth class. When the matter was first broached several property owners opposed it, and asked that their properties be left out of the incorporation, but it is said that much of this opposition has been withdrawn. The election will affect only Walnut Creek.

LOCKED IN VAULT.

KANSAS CITY, Mo., Sept. 22.—Armed with a pistol, but unmasked, a bandit entered the People's State Bank at Dodson, Mo., a suburb of this city yesterday afternoon, locked Hugh Moore, the assistant cashier, in a vault, and escaped in a motor car with $1300 of the bank's funds.

Stomach Troubles Due to Acidity

SO SAYS EMINENT SPECIALIST.

So-called stomach troubles, such as indigestion, wind, and stomach-ache are in probably nine cases out of ten simply evidence that fermentation is taking place in the food contents of the stomach, causing the formation of gas and acids. Wind distends the stomach, and causes that full, oppressive feeling sometimes known as heartburn, while the acid irritates and inflames the delicate lining of the stomach. The trouble lies entirely in the fermenting food. Such fermentation is unnatural, and acid formation is not only unnatural, but may involve most serious consequences if not corrected. To stop or prevent fermentation of the food contents of the stomach and to neutralize the acid, and render it bland and harmless, a teaspoonful of bisurated magnesia, probably the best and most effective corrector of acid stomach known, should be taken in a quarter of a glass of hot or cold water immediately after eating, or whenever wind or acidity is felt. This stops the fermentation, and neutralizes the acidity in a few moments. Fermentation, wind and acidity are dangerous and unnecessary. Stop or prevent them by the use of a proper antacid such as de rated magnesia, which can be obtained from any druggist in powder or tablet form. This enables the stomach to do its work properly without being hindered by poisonous gas and dangerous acids.—M. F. P.

Child Wanders 4 Days Seeking Aid on Desert

EL CENTRO, Sept. 22.—Perrit Bowers, 14 years old, staggered into Ogilby, 35 miles east of here, yesterday, and told a tale of being lost on the desert with his father, their water gone, that sent a searching arty out to rescue the father.

The team of mules which the pair set out from Holtville on their way to Yuma was found near their starting point. The elder Bowers has not been found.

The boy said that four days ago they lost their way in the sandhills. The following day the boy set out in search of water, leaving the last drink for his father. He wandered for three days until he struck the railroad track, which he followed to Ogilby.

THINKS INDICATIONS IN CHINA ARE ENCOURAGING

BALTIMORE, Md., Sept. 22.—"It is a very risky thing to make any predictions about China, but the indications are encouraging," said Dr Frank J Goodnow, the new president of Johns Hopkins University, and former adviser to the Chinese Republic, who came to Baltimore yesterday.

During the fifteen months he was in China, Dr. Goodnow said he observed a marked change for the better.

"The trouble is, there is not a spirit of unity in China," he added, "and it is more difficult than ever to make any forecasts as to its future because of the European war.

"Incidentally I would say that all the talk about the danger of the 'yellow peril' seems groundless. I do not believe the Japanese are looking for western conquests."

BEANS CAUSE DESERTION.

SAN FRANCISCO Sept. 22.—What was left of the crews of the German steamers Alexandria and Serapis after those who were members of the naval reserve departed for the front has also left the ships, not to fight, but because "a man must eat." About a dozen husky German sailors have quitted the vessels for the reason, it is said, that they were treated to a constant diet of beans.

WASHINGTON, Sept. 22.—Another tract of land in Alaska was withdrawn by President Wilson today and reserved for town sites under the Alaska railroad bill. It is three miles square and located at the confluence of the Tanana and Nenana rivers.

RAPHAEL WEILL IS WELCOMED BY FRIENDS

SAN FRANCISCO, Sept. 22.—When Weill went to his office at the White House yesterday, having just returned from Paris, he found his desk banked with American Beauty roses. Other flowers filled the office with a veritable jungle of bloom.

On a table lay the "Credo" of the French Academy, written in French, and left for the chevalier's home coming. Loving messages of welcome were stacked on the desk.

San Francisco's aged chevalier d'honneur offered his services to France in a letter to M. Jusserand, the French Ambassador to Washington, before he left New York for Paris.

Michael Weill, well known in San Francisco, who was wounded in one of the first encounters of the French troops, is recovering rapidly at Saint Etienne Hospital in the north of France and soon will be back in the ranks.

MAXIM ESCAPES EXPLOSION.

LAKE HOPATCONG, N. J., Sept. 22.—That Hudson Maxim, inventor of Maximite, who has passed safely through many crises, bears a charmed life was never more apparent than yesterday, when he emerged unscathed from a terrific explosion that destoyed the laboratory in the rear of his handsome home on Elva Point. The explosion could be heard for ten miles.

Why Suffer From Migraine or Sick Headache?

USE ANTI-KAMNIA TABLETS

Dr. J. J. Caldwell says that this exceedingly distressing disease does not shorten life, but does not appear to be curable. Sufferers from this affliction are condemned to undergo the periodical attacks every few weeks until they are forty years of age, after which the attacks are less frequent, and finally disappear entirely. Palliative measures during the attack are all that it is possible to suggest, while care in the diet is the best preventive measure. An attack may often be prevented by taking two Anti-kamnia Tablets when the first symptoms appear, and one Anti-kamnia Tablet every two hours during the attack shortens it, eases the pain and brings rest and quiet.

Anti-kamnia Tablets may be obtained at all druggists. Ask for A-K Tablets. They quickly relieve all Pains.

THIRTEENTH STREET, Between Broadway and Washington.

Well, Estelle, Are You Still Undecided About Your Fall Clothes? Here's a Tip; Buy Them at Cherry's or Credit!

You don't catch me paying all cash and high prices any more for my clothes. I used to do it, before I learned any better, and I only wish I had the money I wasted.

Mona told me about the way she bought her clothes (you know all the girls wonder how she can be so well dressed on her salary).

It seems she found out about the place through other girls—the news spreads fast, it's so good.

At 515 Thirteenth street, between Washington and Clay, there's a shop called CHERRY'S, where, for just a little money down, you can get every bit as swell styles in ready-to-wear garments as any store in town can show you—and at lower prices than they charge, too.

What's more, it's only necessary to pay down a little money; then you tell them how it is easiest for you to make subsequent payments (by the week or month, you know) and they'll make you the MOST GENEROUS CREDIT TERMS IMAGINABLE.

Now I leave it to you if that doesn't beat paying $25 or $35 or more in a lump sum. Why, I simply arrange my salary into groups—so much for board, etc., and so much for my clothes, each month—and you'd be surprised how easy it is to have all the good clothes you want.

CHERRY'S FALL STYLES ARE IN NOW, and it is a delight to see how pretty they are and how reasonably they're priced.

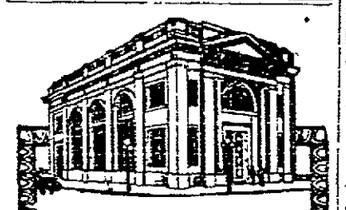

CHERRY'S have an exclusive store for men at 528 Thirteenth street. Their San Francisco stores are at 1069 Market and 2400 Mission street.

It's Beaver Season Now

PUT OFF YOUR OLD STRAW BONNET

King Fashion So Decrees

"In moth balls place the festive straw;
Next summer bleach it, too.
But—don't you wear it any more;
The summer has run through!"

—(Lay of the Oakland hatter).

The straw hat is no longer in season, any more than the ice-cream suit and the bamboo cane, or rather, won't be after tonight. Summer's over for sure. Today dawned gray—and dawned as the last day of the straw-hat season. Whether nature made the sky gray to indicate this or not is a question, but that the festive straw's now out of fashion isn't any question at all. In the words of Oakland hatters, "It's a cinch."

At the stroke of midnight the straw hat must go. The festive Panama, the rough straw, or the white felt, that looks like straw—good night! So says Fashion.

The dictum has been issued, and even California, the land of sunshine, can't be a land of straw hats all the year round. The summer hat has ebbed with the season. The beaver has come into his own!

Railway Employes' Local Endorses M. J. Kelly for County Treasurer

Members of the local division Amalgamated Association of Street and Electric Railway Employes of America have, in a strong resolution, endorsed the candidacy of M. J. Kelly for the office of county treasurer this week. Their resolution was as follows:

"Whereas, It is the sense of the members of the local division of the Amalgamated Association of Street and Electric Railway Employes of America that one good turn deserves another; and

"Whereas, That when a public officer fullfills his duty to the community he is elected to serve, he is entitled to the support of that community at any time; and

"Whereas, We, the Street and Electric Railway Employes of Oakland, have no knowledge other than that the county treasurer's office of Alameda county has been conducted in a first-class, business-like and economic manner under the able leadership of the present incumbent, M. J. Kelly; and

"Whereas, M. J. Kelly has always stood ready and willing to assist the workers in securing needed legislation, and has always been a friend to the man or woman seeking employment, regardless of their standing in society; therefore be it

"Resolved, That it is the sense of this body that we endorse the administration of M. J. Kelly, and do recommend to the members of this division and the public at large the re-election of M. J. Kelly to the office of county treasurer of Alameda county; and be it further

"Resolved, That a copy of these resolutions be sent to every newspaper in the county of Alameda."

PICKS UP 'S.O.S.' OF U. S. CUTTER

Aid Rushed to Revenue Boat Tahoma, Fast on Dangerous Reef.

SITKA, Alaska, Sept. 22.—The United States cruiser Buffalo picked up an "S. O. S." call yesterday from the United States revenue cutter Tahoma, which is fast on a reef and in serious danger ninety miles west of Kiska island of the Aleutian chain. The Tahoma has nine officers and sixty-three men aboard.

The distress call from the Tahoma was heard by the Japanese liner Tacoma Maru and the steamer Senator, and both of these vessels have gone to the aid of the stranded revenue cutter. Both should be near the scene of the disaster, as the Japanese vessel left Seattle September 15th, bound for Hongkong, and passed near Kiska Island, and the Senator, bound from Nome, left Seattle September 12th.

Early yesterday the Coast Survey steamer Patterson and the revenue cutter Bear sent wireless messages that they were aware of the plight of the Tahoma, and these vessels may also steam for Kiska Island, although the Bear, it was reported last night, was about to leave Nome hurriedly to go to the aid of the Karluk steamer Corwin, having received word that the Corwin was aground off Cape Douglass, between Nome and Teller. The Bear may go to the aid of the Tahoma and delegate the task of saving the Corwin to Captain Thomas Ross and the life-saving crew of Nome, who, it was reported, were leaving Nome to go to the Corwin.

The Tahoma sailed from Seattle May 1st last, and through the summer has been cruising in Behring sea. She was on her way back to Seattle from Attu island, the westernmost of the Aleutians.

The cruiser Buffalo, which received the first call from the Tahoma, has been engaged in making repairs at the Government wireless station in Alaska.

Kiska Island is one of the principal islands of the Rat island group of the western Aleutians, near east longitude 170 degrees 30 minutes.

CLUB GAINING MANY NEW MEMBERS

Commercial Expansion Campaign More Successful Than Anticipated.

That 2500 new members will be enrolled in the Commercial Club by Saturday night as a result of the big expansion campaign was practically assured today when Managing Director Joseph E. Caine, in charge of the campaign, issued a partial report on membership figures after consultation with captains and assistants in the work.

The campaign, according to the figures in the campaign office of the company, has been more successful this week than the workers had dreamed, and there is still a large field which has not yet been touched by the workers. Several big firms today announced that every employe in their offices would be required to take out memberships.

So far, while a number of the larger firms have taken blocks, the majority has been in single memberships. The special committee appointed by President Harmon Bell to see the heads of the "big interests" of Oakland has still to report. While nothing has been said officially of the result of its work, members of the committee have declared unofficially that they have met with unexpected success, and that when the full report is made it will be a big surprise in the number of memberships taken and will add most materially to the rolls of the club.

All present members, as well as those who have made application for membership, have been invited to a luncheon at the Hotel Oakland tomorrow to hear Caine tell what has been accomplished so far in the campaign of expansion, and outline plans for a big finish before Saturday night, when the campaign ends.

LOS ANGELES, Sept. 22.—Search for the two men who robbed observation car passengers on Southern Pacific train No. 75, north of Burbank, was centered in this city today.

They found no clews indicating that the robbers sought refuge in the foothills, as at first thought, and several indications that they were in hiding here.

Very Effective Method for Banishing Hairs

(Modes of Today)

At very little cost any woman can rid her face of hairy growths, if she will use the delatone treatment. This is made by mixing some water with a little powdered delatone. This paste is spread upon the hairy surface for 2 or 3 minutes, then rubbed off and the skin washed, when every trace of hair will have vanished. No harm results from this treatment, but care should be used to buy real delatone.

SOUTH IS FOR FREDERICKS, STRONG

Republican Candidate Given Astounding Ovation in Town After Town.

FULLERTON, Sept. 22.—Riding in what is practically a triumphal procession through the south, Captain John D. Fredericks, Republican candidate for governor of California, arrived here last night to speak at the biggest meeting held since he started from San Diego on his flying trip. The captain has covered nearly 200 miles by automobile, campaigning through San Diego and Orange counties. That Fredericks is assured of a majority of 15,000 is declared by the leaders of the Republican stronghold of the citrus belt.

Captain Fredericks' meeting was held in the largest hall in the town, with C. C. Chapman, the millionaire orange grower, who withdrew from the gubernatorial race when Fredericks entered, presiding as chairman. The captain was given an ovation when he stepped to the platform. The meeting was a representative Republican gathering. Farmers for miles around had come to Fullerton, and automobiles, cars and teams lined the streets.

FARMERS LOYAL.

Yesterday, while on his tour, Fredericks addressed meetings at Escondido, San Juan Capistrano, Tustin, Santa Ana, and Orange. Driving through the walnut, orange and lemon groves, the Fredericks party met farmers on every hand, passing as they were through the richest region in the entire south. Two buglers from the captain's regiment in the Spanish American war rode in the van of the procession, to herald the visit of the campaigning party. Flag-draped autos received Captain Fredericks at the different towns. At the old Mission San Juan Capistrano the first person to greet Captain Fredericks was Pio Pico, the nephew of the last Mexican governor of California.

At Tustin Captain Fredericks was introduced to a big crowd by Judge A. H. Stutzman, formerly a Progressive and Johnson adherent.

RALLY TO FLAG.

Throughout the south Progressives by the score are changing their registration and rallying to the Fredericks banner.

"I was particularly impressed," said Captain Fredericks, after the meeting last night, "by the number of former Progressives who assured me in Orange and San Diego counties that they had seen the light and were going to vote the Republican ticket in November. I had expected a strong Republican sentiment in these two counties, but what I experienced today exceeded all my preconceived notions."

CANDIDATES SUBPENAED.

LOS ANGELES, Sept. 22.—Deputy District Attorney Bell yesterday issued a complaint for the arrest of C. A. Wisda on a charge of forgery and then issued subpoenas for practically every prominent politician in Southern California.

Wisda is charged with having fraudulently represented that he was authorized to solicit advertisements for a booklet to be issued by the Brotherhood of Railroad Trainmen and also to collect funds for sick and disabled members of the order.

The book is a small pamphlet containing a few pages of blank spaces for the trainmen to record the time at which they arrived and left railroad stations on their runs. The remainder comprises political advertisements and a "roll of honor" of those who donated to the good of the cause, but didn't care to advertise.

TWO FOR GOVERNOR.

On the front cover appears a picture of Captain John D. Fredericks.

On every page inside is Governor Hiram Johnson's photo.

At the top of every page W. Joseph Ford makes the forceful plea "Vote for Ford for district attorney," while at the bottom of each page Thomas Lee Woolwine says he's the winner.

Then there is a large photograph of Judge Nathaniel P. Conrey, a half page devoted to Vincent Morgan and Fred H. Hall's pictures.

Judges Frank R. Willis, Willis I. Morrison and Louis Myers, Elmer R. McDowell, Joseph R. Knowland, Joseph F. Chambers, Frank C. Prescott, John C. Cline, Lewis Cruickshank, O. F. Scherer, George L. McKeeby, W. C. Ralston, J. W. Summerfield and also among "those present" and finally "Doyle's Arena."

All will be called as witnesses to tell that they paid and officers of the brotherhood will be called to say Wisda had no authority to collect.

ASSURE SUPPORT.

SAN FRANCISCO, Sept. 22.—Assurances of the strongest support from many districts about the bay and throughout the state were received at the meeting of the executive committee of the State Central Committee of the Republican party, which gathered in San Francisco yesterday to consider matters of routine business. Congressman Joseph R. Knowland, one of the leaders of the Republican ticket and candidate for the office of United States Senator, was in attendance at the session.

Sheriff R. R. Veale of Contra Costa county assured Captain John D. Fredericks and Congressman Knowland, as heads of the ticket, that they would receive every support of the Republicans of that region.

Headquarters for the State Central in the Phelan Building, and offices will be maintained there until the end of the campaign.

CURTIN IN SOUTH.

Which will Oakland like the best, one of the "Anatol" series, or a Bernard Shaw play? That's what Arnold Daly, noted actor, is going to find out this week. He opened his engagement at the Oakland Orpheum in "Ask No Questions," a clever playlet of the "Anatol" series. He closes his week with "How He Lied to Her Husband," George Bernard Shaw's first vaudeville venture. Then he's going to leave it to Oakland to decide which offering is the best.

"Ask No Questions," the playlet offered for the first part of the week, is a remarkable bit. A suspicious husband, with a penchant for hypnotism, tries to draw from his wife, while she's in a hypnotic trance, true details as to his suspicions. He learns that she loves him—and is afraid to ask the rest. He wakes her—and the curtain goes down. There are no heroics. It's all comedy.

Doris Mitchell, as the wife in the play, is charming. Ray Brown, as Max, friend of the family, is a comedian no whit less clever than Daly. The act is one of the most pleasing that the Orpheum has presented, and the opportunity to compare it with Shaw's whimsicality which is also of the "different" kind, has interested theater-goers.

Several other clever features are on the bill this week. Rita Boland and Lou Holtz present songs and patter, and Alf Gores and Ethel Hoag present some more. "Chuck" Reisner and Henrietta Gores have another bit with a little dancing and a few warvles.

Joseph Cole and Gertrude Denahy present their series of remarkable ballroom dances. Jones and Sylvester, two comedians who can sing; O'Brian, Havel & Company in a clever Cressey skit; Max and Ed Carlos in "The Artist's Dream" and exclusive motion pictures round out the bill.

OPEN Y. W. C. A. CLASSES.

With a registration of 200 women, the educational classes of the Oakland Young Women's Christian Association opened yesterday morning in the administration building, Fourteenth and Castro streets. The largest enrollment appeared in the dressmaking, millinery and domestic science departments. For the benefit of the social and the association workers, classes have been established for the purpose of studying "the working girl's problem." Authorities upon that subject will give fifteen-minute talks on the different phases of the issue.

Household planning will be featured, including economical buying and managing, marketing and lessons in caring for a home. A furnished house will be used for the work.

INEBRIATE HOSPITAL UNWANTED NEIGHBOR

Protest was lodged with the city council today by 146 residents of the Peralta Heights against the establishment of a hospital for the care and treatment of inebriates at Brooklyn and Hanover avenues. The protestants were headed by Chief of Police Walter J. Petersen, who informed the commissioners that the district is strictly residential, and that the establishment of such a hospital would not only reduce property values, but would be objectionable, as there are schools in the neighborhood.

A resolution was passed directing Building Inspector Towle to make an investigation, and sould he find that the building being erected is planned as a hospital for inebriates, to refuse a building permit, under the provisions of the industrial zone ordinance recently passed.

French Canadians to Form Own Regiment

MONTREAL, Sept. 22.—A delegation of French Canadians will leave for Quebec soon to obtain the prime minister's sanctions for the incorporation of a regiment recruited in Quebec for foreign service in the next contingent sent from Canada.

The presence of a French Canadian regiment at the front, members of the delegation say, would do away once and for all with the suggestions that have been made that the war is not popular in Quebec.

TAPPAN GAINS 35 MORE VOTES

Recount Brings Out Discrepancies in One Alameda Precinct.

Showing a difference of 35 votes between the official canvass and the court recount of Alameda Election Precinct No. 8, the contest between R. B. Tappan and L. R. Weinmann for the office of Justice of Peace in Alameda was continued before Superior Judge Wells today. So far but six precincts have been re-counted. With the exception of Precinct No. 8, there was no material change found in the count of the ballots from that recorded by the election boards.

Judge Wells has permitted the contestants for the county clerk's office, John P. Cook and George E. Gross, to keep an unofficial tally of the Alameda precincts that are being opened. Clerk Cook did not ask for a recount of the Alameda precincts, but Candidate Gross sought to have the entire number of precincts in the county gone through. As a matter of courtesy to both candidates the court permitted them to "take a peek at the tally" under the circumstances. So far, the tally has shown practically no change in the count of ballots for this office, Gross gaining 2 votes in 5 precincts.

DISCREPANCY FOUND.

In Alameda Precinct No. 8, however, the first material discrepancy came to light. The court count compared with the official canvass showed that Justice Tappan had gained 19 votes, while Weinmann lost 16, making a difference of 35 between them.

"This was the precinct that I had the strongest doubt about," said Justice Tappan. "The personnel of the election board was against me, and I fully expected that the recount would show considerable change in the figures. If the showing along this line keeps up I shall continue through the rest of the precincts."

Unless the contestant should decide to have the court discontinue the recount, the work will probably consume two days more. Where the contestants now before the court have asked for the recount of same precincts, the count is official.

The contest between Paul Arnerich and Alfred Morgenstern for the Republican nomination for Assemblyman from the Thirty-fifth district, so far as the precincts coincide, is also being tallied.

AHEAD, WOULD QUIT.

When Paul Arnerich gained a plurality of 6 votes over his opponent, Alfred Morgenstern, in the contest for Republican candidate for Assemblyman in the Thirty-fifth district, he declared that he was ready to stop the recount so far as his contest is concerned. However, Morgenstern insisted that he count the remainder of the precincts which he originally named in his affidavit of contest. These include 19 precincts in Alameda. Judge Wells ordered that the count should continue.

Arnerich was defeated by Morgenstern with 48 votes, according to the official canvass, and by the recount he gained 54, placing him in the lead. It is probable, however, that the opening of the ballots for the remainder of the precincts will bring about further change one way or the other, although, according to the present aspect, the chance of Arnerich's winning out in the end is strong.

TO CALL NEW BIDS FOR AUDITORIUM SEATING

Failure to comply with certain technicalities in the bids submitted for the seating in the Municipal Auditorium resulted in the city council today rescinding the award of contract to the Rucker-Fuller Company and directing that new bids shall be called for. The error was discovered by Commissioner of Public Works Harry S. Anderson and after some discussion before the auditorium advisory commission it was decided that the safest plan would be to rescind the resolution awarding the contract and readvertise.

Fredericks Making Masterly Campaign.

Captain John D. Fredericks, Republican candidate for governor, has opened his campaign in a masterly and forceful manner. It is plain from reading his speeches that he does not propose to indulge in rancor, inuendo, invective or abuse, but will content himself with a discussion of the issues before the electors for their consideration.

Captain Fredericks opened his campaign proper in San Diego last Friday night where he held an audience of thousands for two hours, during which time he brought home forcefully the truths upon which the contest is based so far as the Republicans are concerned. It was an able presentation and the vast audience applauded the speaker to the echo.

Among the leading issues to be decided in November, so far as the voters are able to decide them, is the question of the material prosperity of the state and its people. Mr. Fredericks believes in material prosperity for capital and labor alike, recognizing that upon that basis all happiness rests. As a means toward achieving such material prosperity, Captain Fredericks believes in the doctrine of protection to American industries for the nation and for laws that will give capital its opportunity in the development of the state.

On the first point Mr. Fredericks made the following declaration:

> There is no progress in an empty stomach, there is no development in poverty, and I say to you in all seriousness and in all solemnity that I believe the greatest doctrine that was ever given to man by man is the doctrine given to the American people by Lincoln when he said he believed in the protection of American industry and workmen.

Discussing the needs of California with respect to capital and labor, the candidate continued:

> Capital fears our state; it fears investment here. And just so long as our present administration continues, just so long will that condition exist. Now, who suffers most from that; the workingman, the business man, the capitalist, all suffer alike. How are we going to get back? I have had many battles in my lifetime, battles that have tried the hearts and souls of men. Some I have won, but I never yet found it necessary to resort to abuse of my adversary to win my point, and I do not intend to begin now, but I am going to criticise and I am going to tell you what the Republican party stands for. Others may tell you what we stand for, but we will tell you ourselves what we stand for.

In the two paragraphs quoted may be found the policy of the candidate with respect to the canvass. He proposes to take a firm stand for the issues and to discuss them candidly; to present the case of the Republican party from the standpoint of a Republican and to enlighten the people as to what will be done following Republican success. John D. Fredericks does not propose to let the opponents of the Republican party tell what it stands for; he, its chosen standard bearer, will do that and do it right.

This course of conduct will win thousands of votes. Californians are sick and tired of ranting demagogy and endless tirades. Californians are weary of hearing their citizenship derided, their business men belittled. Californians want to listen to a discussion of issues and when the case shall have been finally summed up and submitted to the people by such men as John D. Fredericks and able companions, the verdict of the jury will be "California Republican, 250,000."

The "human interest" story appears to have been side-tracked by the reports from the front.

President Wilson asserts his belief that the strife across the Atlantic will be stopped in two months. Herein he differs from Lord Kitchener, who has told Great Britain to prepare for a three years' struggle, but perhaps the president has some inside information on Kitchener.

Inferring from the manner in which the opposing armies are shooting at each other the ammunition factories must be running overtime, or else the supply previous to the breaking out of the engagement was an enormous one.

Shall California Abolish Poll Tax?

Initiative amendment to Section 12 of Article XIII of the constitution proposes to abolish poll tax. All taxes are unpopular and included is poll tax. But there are two sides to the argument, as is the case in every question presented.

The argument on behalf of abolition goes into the history of poll tax, as having been laid originally on feudal barons and paid by him according to the number of serfs he owned. In course of time, however, the barons shifted the burden of the serfs themselves, which action, it is claimed, abolished the reason for its existence. Originally a tax upon property, it is urged that it is now a tax upon persons, is a survival of despotism and a denial of democracy. For these reasons nearly all civilized nations have abolished it, Russia, Turkey, Persia and China and a few of the states of our own union retaining it. In 1900, according to the statements, thirty-five of the states had discarded it.

There is no defense on ethical grounds, say the advocates of abolition. It is unjust and unfair and inflicts an unnecessary hardship on those least able to bear it. Replying to the argument that it is necessary for the public schools, it is related that any deficiency which may follow its abolition can easily be made up from the tax on corporation incomes. It is also contended that the poll tax is objectionable because it has never been uniformly collected. That wealthy citizens sometimes pay it, while laborers always do because it is deducted from their wages. It is not justified, says the affirmative side, because it taxes aliens, as this class pays only about one-eighth of it and the citizens are penalized to the extent of seven dollars for each one collected from foreigners.

For the retention of the tax it is claimed it adds about $850,000 or one-seventh to the school funds. In thirty-five counties of the fifty-eight it is utilized in collecting taxes for road and hospital purposes. The argument that it is an old tax is dismissed because many things among our institutions are old but are not of necessity bad because they are old. As to the argument that it is not uniformly collected it is urged that the remedy lies not in the abolition but in better methods of making such collections. It is also urged that every citizen, rich or poor, should pay some tax and that as there are many in California who pay no other direct tax than the poll tax, including aliens, large numbers of unorganized, migratory and seasonal laborers whose presence is a menace, it should continue. In conclusion it is urged that it is a just tax, bears heavily on no one and its defects can be cured by vigorous and uniform administration.

It is fair to presume if Czar Nicholas had anything to say about it, the name of Germantown would be changed.

Stranded in Paris with but $5 and fifteen wives, the Sultan of Zanzibar is evidently in a mood to endorse Sherman's definition of war.

The government press bureau at Constantinople declares that it will not accept "Petrograd"; that it must be St. Petersburg or nothing. Now will the czar march on the Bosphorus?

It is related that the Vera Cruz merchants and shopkeepers are agitated because the fleet and soldiers are to be withdrawn. Business has been brisk since American occupation.

The coal miners of Colorado have accepted the arbitration plan suggested by President Wilson and the operators are going to discuss the proposition with him tomorrow. Looks as if there might be a chance for peace in the Centennial State.

THE UMPIRE

—BY THE OAKLAND TRIBUNE CARTOONIST.

Progressives Lose in Larger States.

The decline of the Progressive party in the eastern states is remarkable, so remarkable the colonel has been called upon to sound a rallying cry, and is sounding it to the best of his ability.

For example in the recent state-wide primary in Missouri, but 5614 votes were polled as against 124,371 two years ago. In Kentucky the vote this year was 2968 as compared with 102,766 in 1912 and in Ohio where two years ago the third party polled 229,000 votes, this year the total was 12,000.

Reasons are apparent. Electors have found after a review of conditions that a third party is unnecessary; that this third party was born, not to meet a great emergency, but to gratify the personal ambition of its progenitors. Wherever the Progressives have lost, Republican gains have been noted, for the voters, having convinced themselves that the third party is useless, are turning to the Republican party for the legislation desired to restore the prosperity of the country. The history of the Progressive party in California will be the same as the history of the organization in the other states. Having noted the handwriting on the wall, the leaders of this so-called reform movement are now urging "non-partisanship" as a substitute. But Republicans under the leadership of such men as Captain John D. Fredericks and Joseph R. Knowland, and Democrats with standard bearers like John B. Curtin, realizing the need of a healthy partisanship in public affairs, are not being led astray.

The voters of this state see the mistake they made four years ago and two years ago and at the November elections will rectify it.

By the way: Have you joined the Commercial Club yet?

With the allies and Germany rejecting all suggestions for peace it looks as if efforts in that direction at this time is simply energy wasted, no matter how earnest they may be.

Just now several of the state papers are voicing a demand to cut out the "pork" from the rivers and harbors bill, yet if California should suffer as a result there is little doubt these lusty editors would be the first to protest. As a matter of truth a recommendation for improvement made by the board of engineers in Washington cannot in any sense be considered as "pork," and California's plans having received such endorsements, it is the duty of California papers to stand behind them and not try to make political capital by shouting for economy at the expense of the producing interests at home. This commonwealth is entitled to many millions of dollars for such work and it is the duty of the national government to provide it and when the national government shows a disposition to so provide, encouragement and not discouragement should be the policy.

The colonel in an address to the Progressives of Kansas, declared that business is entitled to its profits and that the public must in the end accept the principle of combinations of capital as of the utmost economic value. All of which is respectfully referred to the Progressives of California who maintain the business is legitimate prey for political ends.

Premier Asquith declares the Kaiser made a mistake before the outbreak of hostilities in cherishing the belief that England's colonial possessions would take advantage of the opportunity to sever relations with the mother country. Which brings to mind the proclamation of Valeriano Weyler, Spain's Captain-General in Cuba before the Spanish-American war, in which he said this government was made up of states all anxious to be independent and that a declaration of war would mean the immediate disintegration of the union.

Chauncey M. Depew, on his return from France, declares upon his entry from Switzerland the excited populace, thinking he was an Englishman, cheered his whiskers. What a proud and happy moment that must have been for Chauncey.

Twenty Years Ago Today

A very pretty wedding was celebrated in the First Congregational Church, the contracting parties being Miss Emma Sharratt of this city and Donzel Stoney of San Francisco. The bride is a cousin of Mrs. W. H. Bailey and the groom is a son of the late Judge Stoney. The ushers were Messrs. Raymond Sherman, Warren Olney Jr., W. H. Bailey Jr., Ralph Jones, Edward Beard and Fred McNear. The bridesmaids were Miss Alice Proctor and Miss Florence Hayes.

One of the finest specimens of the oak forest which originally grew on the site of this city, and from which the city took its name, was removed from the sidewalk on the south side of Sixth street, between Jackson and Madison. It stood alongside the residence of the late E. L. G. Steele.

J. W. Nelson has declined the nomination for Sheriff by the Non-Partisans. He has been slated for Mayor by his supporters.

The wedding of Miss Maud Goodby and Harry Boyle, two popular young people of Alameda, will take place on the 29th inst.

The wedding of J. G. W. Schmidt and Miss J. F. Meinert took place at the residence of the bride's parents in Lorin.

The engagement of Miss Emma E. Stiefvater of Alameda to Emil Munch of San Jose is announced.

Another determined effort is being made by Berkeley's citizens to secure a new form of city government. At present the college town exists as a corporate entity under and by virtue of an act of the State Legislature, passed at the session of 1877-8. The Good Government Club has taken the matter under consideration and in a short time will ask the Board of Town Trustees to appoint a committee to begin drafting a new special charter.

NEW HARBORS BILL IS FRAMED

Senator Burton's Filibuster Reduces Democratic Appropriation $35,000,000.

WASHINGTON, Sept. 22.—The victory of the Senate filibusters against the river and harbor bill bore fruit speedily today when the commerce committee formally reported a new measure, providing $20,000,000 to be spent by the army engineers. No prolonged discussion was expected in the Senate, but how the House would receive the reduction of nearly $35,000,000 could not be predicted.

The action of the Senate in recommitting the bill, by a vote of 27 to 22, ended the fight over the measure and was a victory for Senator Burton of Ohio, who had led such a determined filibuster against it. It was accomplished by sixteen Democrats, who rebelled against party leadership. The motion for recommittal was made by Senator Bankhead of Alabama, a Democrat, when it seemed likely that a substitute offered by Senator Burton for the $34,000,000 committee measure would be supported by Democrats who had championed the latter. Senator Simmons of North Carolina made a futile fight for the committee's bill.

The bill that was rejected, when it first was reported by the commerce committee, called for appropriations amounting to $53,000,000, but, as the result of opposition, this was reduced to $34,000,000 several weeks ago by the committee.

WIFE WAITS NEWS OF SLAYING CASE

Investigation of Shooting Over Woman Is Under Way.

LOS ANGELES, Sept. 22.—While beautiful Mrs. Roy Glover anxiously awaits the outcome, the district attorney's office will search the state of Texas for evidence regarding the cause of the tragedy in which Glover slew Daniel de Villiers, a Boer war general, in Los Angeles.

The men fought for the love of Mrs. Glover, the district attorney's office declares. DeVilliers was the former husband of Mrs. Glover.

Deputy District Attorney Keetch will undertake the mission in Texas.

Glover, who says he shot De Villiers in self-defense, has given the district attorney the names of several persons in El Paso and San Antonio who, Glover declares, heard De Villiers say early in December of 1913 that he was going to Los Angeles to kill Glover.

Although it is generally accepted as the duty of the district attorney to prosecute persons believed to have committed crime, it also falls upon the shoulders of the district attorney to investigate from a neutral standpoint, and this mission, which, if successful, will be to Glover's advantage and possibly result in his release without a trial, was in consequence ordered, it was asserted at the district attorney's office today.

Against Glover's contention that he shot in self-defense is the statement of a messenger boy who was employed by De Villiers. The boy stated De Villiers did not carry a pistol when he went to the house.

Mrs. Glover was formerly Mrs. De Villers. The district attorney found evidence indicating that De Villiers went to the house to see his children and the shooting followed.

De Villiers left South Africa at the close of the Boer war, being unable to reconcile himself to the British victory. He wandered about as a soldier of fortune. The British government has interested itself in the case to see that De Villiers' rights as a British subject, though an unwilling one, are fully protected.

KODANI WILL BATTLE FOR LIFE IN COURT

SALINAS, Sept. 22.—George Kodani, the Japanese accused of slaying Miss Helen Wood-Smith, the Carmel artist, intends to make a legal fight for his life, despite the fact that he has confessed his crime.

Yesterday morning, when his case was called before Superior Judge B. V. Sargent, his attorney, J. A. Borden, secured a continuance for a week, with the understanding that he would retire and Attorney A. G. Jorgensen would take his place to prepare Kodani's defense on an insanity argument, after the Japanese formally pleads not guilty.

Judge Sargent indicated that he would set the case for trial for October 13.

PASSENGER FARES TO BE INCREASED

Rates in East and West to Be Fixed on 2½-Cent Basis.

WASHINGTON, Sept. 22.—Interstate passenger fares, in both eastern and western territories, are to be increased by the railroads in the immediate future. The new rates will be fixed on a basis of 2½ cents a mile, but will vary slightly, in particular cases, from that basis.

Information received by the Interstate Commerce Commission is that the straight fare between New York City and St. Louis, for instance, will be advanced $2. The fares between New York and intermediate points will be based on the increase between the two large terminals.

The fare between New York and Chicago will be based entirely upon a 2½ cents a mile rate, and, so far as practicable, the fares between New York and intermediate points and Chicago and intermediate points will bear a like mileage charge. Because of the laws of some intermediate states fixing the maximum of interstate passenger fares at 2 cents a mile, some difficulty is experienced by railroad officials in working out the details of the proposed advance in interstate rates, but it is expected that these difficulties may be removed.

The preparation of the new passenger tariffs now is in progress, and it is expected that they may be in readiness to file with the commission by October 1.

The determination of the railroads to raise their passenger fares is a direct result of the suggestion of the interstate commerce commission in its decision of the advance rates case. The commission expressed its belief that the passenger traffic of railways ought to bear its proportion of the burden of sustaining the roads and that the traveling public, which demanded speed, safety, comfort and luxury in passenger facilities, ought to be willing to pay for them.

NEW COMET VISIBLE.

LICK OBSERVATORY, Sept. 22. The Meujism comet, which was discovered about four months ago, and which has been visible through the smaller telescopes for some time, is now visible to the naked eye. It can be seen in the northern sky just after darkness and just before sunrise. The comet will attain only a small degree of brightness. The comet has never been seen before this year.

That's why they can't improve the quality, and war or no war, the price remains the same. E. J. Sargent, Dallas, Tex., says: "I believe Foley's Honey and Tar has no equal, for it completely relieved me of all symptoms of tuberculosis and my cough has entirely disappeared." WELL-GROOMED WOMEN REMOVE HAIR GROWTHS WITH EL RADO

Thousands of women regard El Rado, the liquid hair remover, as necessary a toilet article as cold cream. They would no more think of appearing in public with unsightly growths of hair on lip, chin, cheek, neck or arms, than they would think of going to a party with a dirty face. Many people think that because "fuzz" only shows in strong lights that other people won't notice it. But they do.

El Rado acts instantly. A few drops, a simple application, and any growth of hair will vanish in a moment or two, leaving the skin smooth and velvety, even whiter than before, because of the soothing, antiseptic properties. The fact that many physicians use the ingredients in El Rado for exactly the same purpose—hair removing—shows conclusively how perfectly harmless its action is.

The removal of embarrassing hair is becoming more prevalent every day. You need have no more hesitancy in calling for El Rado than in asking for your face powder. El Rado is a standard toilet article, used now by women in all walks of life—old and young, in society, and on the stage.

Trust the actress for discriminating judgment in the use of her toilet preparations. Her profession demands it.

Get a 50c or $1.00 size bottle today. Try it on your arm. Prove for yourself it will do everything claimed. Your money back if you are not entirely pleased. Noted Author Proves to Be Genial Genius

Not Cynical Nor Vainglorious. She Finds Friendship in Heroine Worship.

There are so many interesting advantages of fame. Some of them are the friendships of perfect strangers, so to speak. That is the sudden, voluntary friendship of heretofore strangers, who write friendly letters from clear skies.

Of course there are misanthropic celebrities who don't like them, or say they don't. Deplore the presumption of well-meaning admirers and don't answer the letters. But not Mrs. Norris.

Anyone as genuine and broad in her sympathies as Kathleen Thompson Norris is interested in everyone and especially in the people who respond to the appealing charm of her books, and write to tell her so.

There was a woman in the Middle West who wrote about "Mother," and this is the story: The woman wrote that "Mother" was the most beautiful story she ever read, and so strangely like the story of her own mother's life. Mrs. Norris sent her thanks for the letter, and then a second came, and presently it was a correspondence in which the admirer of "Mother" wrote of her home and her children charmingly, and the everyday things of her life, to Mrs. Norris, who was cordially interested.

Coming to California a few weeks ago, Mr. and Mrs. Norris met a man on the steamer from New York to New Orleans. He was introduced as Mr. Blank of Omaha (for example), the same name and town of "Mother's" admirer, so Mrs. Norris asked at once about the children, and the household cat, and such details, that the man stared in amazement.

"How in the world do you know so much of my home," he asked the handsome New York woman who had never been in Omaha.

"Why, Mrs. Blank and I are old friends," Mrs. Norris explained, and the surprised gentleman from Omaha was further surprised to know that the handsome Mrs. Norris was Kathleen Thompson Norris, who wrote "Mother."

MISS ETHEL PERKINS, WHO HAS RETURNED FROM A VISIT TO MARE ISLAND.—Hartsook photo

MISS KENNEY A BRIDE.

This afternoon at 4 o'clock Miss Lella Kenney was married to William Addison Ridout at the home of her mother, Mrs. W. A. Kenney on Montecito avenue. It was a quiet wedding with only relatives present, but the house had been elaborately decorated with masses of pink chrysanthemums and gladiola. Miss Kenney was a very beautiful bride in a gown of soft white charmeuse covered with narrow ruffles of tulle that gave it the effect of an exquisite white flower. She wore a long tulle veil and carried a shower of white orchids and lilies of the valley. There were no attendants and Rev. George Eldridge of Berkeley was the officiating clergyman. The honeymoon will be spent in the East, where the bride and groom will visit the latter's relatives in New Jersey, and spend several weeks in New York. On their return the first of November they will take possession of their new home in Piedmont Manor. The wedding is the result of a charming romance of a trip to the Orient, where the young couple met on the trans-Pacific voyage on the Manchuria, of which Mr. Ridout, who is a graduate of Princeton, is chief engineer.

The orchestra of the club gave the Kinder Symphony of Haydn [illegible] Mrs. F. H. Payne at the drum. After the program there was an informal dance.

LEAVE PARIS.

Mrs. Ella Cook Greenfield and Mrs. James C. Black, who were among the last Americans to leave Paris, have arrived in New York and will make a brief visit in the metropolis before coming to California. Mrs Greenfield and her small son went abroad early in the summer to visit her father, Robert Cook, who makes his home in Paris, but has returned to America until the war is over.

Mrs. Frank Carolan has finally been induced by her relatives to leave Paris and is at present en route to California with Mr. Carolan. They have taken an apartment at the Stanford Court opposite the Fairmont, where the Ernest Folgers will spend the winter.

INTERESTING ENGAGEMENT.

An interesting engagement that has just been announced is that of Miss Grace Marian Noble, daughter of Mr and Mrs William Noble of Berkeley, to Horace Marden Albright, assistant secretary to Secretary Franklin K. Lane in Washington. Both young people are graduates of the University of California in the class of 1912 and the friendship of their college days was renewed this summer when Mr Albright visited his parents Mr and Mrs. George A. Albright, in Berkeley. He returned last week to resume his duties in Washington and plans for the wedding will not be made for several months. Mr Albright went to the capital two years ago as secretary to Professor Adolph Miller, who was assistant secretary to Lane, and upon Miller's appointment to the Federal Reserve force he joined the staff of Lane's secretaries. He is considered an unusually brilliant young man and recently won a degree in the law college of Georgetown University in Washington.

The announcement was made at an informal tea given by Miss Noble in honor of Mrs Earl Derly, who was formerly Miss May Newcomb of Stanford. The news was told in a song written for the occasion by Mrs Arthur Hicks, and sung by Miss Alice Noble, and was a delightful surprise to the guests.

The Pursuit of Happiness

(By Lillian Russell)

Copyright, 1914, by LILLIAN RUSSELL.

THERE is a great hoard of happiness stored up for all of us in this world if we know how to take our share. Hilarity is not happiness, nor is there abounding joy in wealth. Contentment, also, may give peace, but the contented person misses a lot of life's pleasures through lack of aspiration.

Happiness is always active, not passive, and there is more true happiness in doing something well than can be comprehended by the person who thinks that happiness consists in lazily lolling on a couch, reading novels and eating chocolates. Happiness is not so much of the condition or the environment as it is of the mind and the heart.

To be obliged to work for one's living is not, as many people seem to think, an impediment to happiness. There is more discontent, there are more sour minds, sad souls and hungry hearts among the idle rich than could be found among the same number of industrious poor.

Do you remember the story of "The Blue Bird," a type of happiness, which the boy and girl searched for all over the world and finally discovered it had been an inmate of their humble house all the time? True, "into each life some rain must fall," and tears and sighs cannot be entirely suppressed, but the person whose outlook upon life is clear will always find that "sorrow is of the night, joy cometh in the morning."

In the pursuit of happiness the chief essential is to realize that life itself, and not its accessories, is what is of importance. And the life of each one of us is exactly what we make it. If you grumble, and whine, and rebel, and loaf over your work, your life won't be happy, nor will the lives of those who are forced to associate with you.

If we take care of our bodies and avoid those excesses which break us down physically and mentally, and cultivate a cheerful habit of thought our vision will be clarified and we will see that happiness surrounds us.

Remember. Happiness is the natural and the normal; unhappiness is a disease.

Answers to Queries.

E. L. Scalp massage is the secret of keeping the scalp and hair healthy. It is easily done and not a great tax either on time or patience. The scalp is loosely attached to the underlying skull and when the scalp becomes adherent to the bones underneath and will not move easily then the hair will fall and become dry and lifeless. By massaging the scalp you keep it flexible, promoting a flow of blood to the roots so that it will be properly nourished. I think if you would faithfully massage your scalp each night when retiring, using a good hair tonic with massage, your hair would regain its luster and in time you would find a vast difference in your hair. This will also help it to grow. I shall send you the formula for an excellent hair tonic with complete instructions for scalp massage if you will send me a stamped, addressed envelope.

Y. V.. Sometimes the dark circles under the eyes are caused from loss of sleep or eye strain, but they are usually caused from some internal trouble. Indigestion will cause them, or if the system is run down. If you are not in good health consult a good physician and get a remedy from him. Bathe the eyes with cold water each morning and rub gently under them. Be very careful not to touch the eyeball. At night when retiring fill the hollows under your eyes with a good skin food and allow it to remain overnight. Be careful not to get any of it into the eyes, as it is liable to irritate them. If you will send me a stamped envelope I shall gladly send you the formula for an eye wash.

Mrs. M. M.. The shriveled, rough condition of your hands is probably due to having them in water so often. After having them in water, if you would rub a good cream into them it would keep your hands soft. At night before retiring scrub your hands in warm soapy water, using a hard brush, rinse and dry them thoroughly, then cover them with the skin food, using plenty of it, and put on an old loose fitting pair of kid or cloth gloves. This will protect the bed linen and will make your hands soft and smooth. Do this every night for a while and you will see a great improvement in your hands.

Dorothy: If the soap you use agrees with your skin there is no reason for your changing it. If you will send me a stamped addressed envelope I shall be glad to send you a formula for a cold cream which will work wonders with the complexion, also the French eyebrow tonic.

F. G.: I am sorry, but I cannot send you a formula for a sachet powder. There are so many real god ones on the market that it doesn't pay to put them up. A good way to scent your clothing is to make tiny silk bags, fill them with a good sachet, then fasten them into your gowns or lay them among your clothes. This will give a delicate and lasting scent to them.

RUTH S.—I cannot give you the name of a skin food which may be purchased. I shall gladly send you my formula for skin food if you will send me a stamped, addressed envelope. Any druggist will make the cream up for you, or you can make it yourself. For the whiteheads, first bathe the skin with warm water to soften it, then open each little whitehead with a fine needle which is sterilized by dropping in boiling water. Press or pick out the contents, then apply a drop of peroxide. They are easily removed this way and will not leave a scar.

ASKS $100,000 FOR LOSS OF DAUGHTER'S AFFECTION

LOS ANGELES, Sept. 22.—Mrs. Teresa E. Wurtsbaugh filed suit for $100,000 damages yesterday charging that many prominent citizens of Owensboro, Ky., were leagued in a conspiracy to deprive her of the affections of her daughter, Jessamine Wurtsbaugh, a belle of the Blue Grass country, who, some time ago, fled from her home to Los Angeles.

According to the complaint the girl was accompanied here by Earl Berry, who is said to have left a wife and several children in Owensboro. Berry and a half-dozen Owensboro citizens are named in the complaint which alleges that while employed as a bookkeeper by Berry, Miss Wurtsbaugh was taught the use of drugs and intoxicants.

The persons named in the suit are charged with having given the girl money in order to disgrace the mother, who alleges she has been persecuted by enemies.

SAYS FOREIGN WOMEN WELL TREATED IN GERMANY.

SAN FRANCISCO, Sept. 22.—Mrs. Frank Fredericks, who has been traveling abroad and is one of the most prominent club women of this city, having been at various times president of the Forum Club, To Kalon Club and the local Council of Women, has written to a friend here of the kind treatment of American and English women who are stranded in Germany. Mrs. Fredericks says:

"One of our national traits is a desire for 'fair play,' and, following that line, I wish, not only for myself, but in the name of Americans in Dresden, to contradict any rumor that there has been bad treatment accorded to our countrymen.

"The German papers have repeatedly published articles emphasizing the fact that foreigners must be courteously treated, especially Americans, and I find that Germans of all classes honor Americans, in fact, all strangers are respected. In a certain German pension there are eight Englishwomen who are stranded and penniless. They are being cared for as though they were paying guests. They go about the streets freely, without any fear of molestation."

LETTERS TELL NEWS OF S. F. GIRL'S ENGAGEMENT.

SAN FRANCISCO, Sept. 22.—Mr. and Mrs. G. H. Von der Mehden are announcing the engagement of their daughter, Miss Frieda von der Mehden, to Francis Schrader. The news was made known by means of little notes sent to the intimate friends of both families.

Miss von der Mehden is a charming girl and has been a popular attendant at many of the dansants on this side of the bay as well as the society affairs in Mill Valley, where the Von der Mehdens make their home the greater part of the year. No definite date has been set for the wedding, but it will probably be an affair of the early winter.

SEARCH FOR STOLEN FLAGLER PENDANT WORTH $50,000.

ASHEVILLE, N. C., Sept. 22.—Police and private detectives are searching for a pearl and diamond pendant valued at $50,000, lost or stolen from Mrs. Henry M. Flagler at a local hotel.

LARKSPUR WOMAN, WIDOW OF TURFMAN, ASKS DIVORCE.

SAN RAFAEL, Sept. 22.—A divorce complaint was filed yesterday by Evelyn E. against Fred W. Weglehner, a San Francisco saloonkeeper living in Larkspur. Cruelty is the charge. Mrs. Weglehner was the widow of Sol Honigsberger, well known to racetrack followers, and married her present husband two years ago.

TEACHER BLAMES KERN COUNTY OFFICIAL

PLACERVILLE, Sept. 21.—Miss Catherine Coughlin, Green Valley teacher who was recently placed under bonds to keep the peace visited Judge N. D. Arnett and asked that the revolver taken from her when she was arrested be returned. The trustees of Green Valley insist that Miss Coughlin resign.

Miss Coughlin has stated that she had a similar school dispute four years ago. At that time she was fighting the county superintendent, named R. L. Stockton, of Kern county.

Miss Coughlin stated that she won the fight, and ever since then he has been endeavoring to get revenge. Her present difficulty she attributes to his actions.

MYSTERY VEIL IS RENT

MADELINE BRAM'S PARENTS DISCLOSE CLIMAX TO TRAGIC LIFE

MISS MADELINE BRAM, WHO HAS CLEARED AWAY MYSTERY OF HER PARENTAGE.

LOS ANGELES, Sept. 22.—Dissipating the veil of mystery enshrouding the parentage of Madeline Bram, Mr. and Mrs Henry Nisbet of West Fiftieth street added the final climax to the tragic history of the beautiful young girl by announcing that she was their daughter.

Gladdened through finding her own parents, Madeline Bram, or Dorothy Nisbet, has flung the last memory of her past as the foster daughter of Mrs. Ada Bram, wealthy Los Angeles woman, behind her.

According to the story told by Mrs. Nisbet, the girl was born January 3, 1897. When she was but two weeks old a nurse named Mrs. Halstead took her and cared for her. Then Mrs. Bram entered the life of the girl. She offered wealth, social position and education under a cloak of mystery, through the nurse. Days of sorrow ended in the relinquishment of the baby to the wealthy woman, who was unknown to the Nisbets.

CHAIN OF EVENTS.

Then came the mysterious disappearance of the young girl, her location in San Francisco and her renunciation of the love of her wealthy foster mother. In rapid succession followed her acquisition of a new foster mother in Mrs. Leon C. Eubanks, a well-known settlement worker of San Francisco, and then the finding of her own mother, who recognized her daughter, through newspaper pictures, even though more than sixteen years had elapsed.

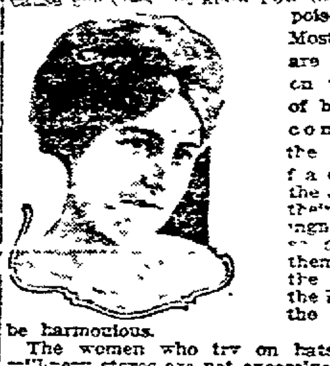

Mrs. Nisbet went quietly to San Francisco and the happy reunion followed. After the excitement had abated the girl was brought home and the mystery of her birth explained.

During the excitement following the finding of the girl in the north, Nisbet represented himself as attorney for the parents of the girl, but refused to disclose his identity until yesterday.

While Frank Stone, the young man who claimed the girl as a long-lost sister, is said by the Nisbets to be mistaken. Stone disagrees with them.

"I will prove by Mrs. Halstead, the nurse," Stone said last night, "that Madeline is my sister and that she is no relation to the Nisbets."

'POISE YOUR HAT,' SAYS MME. ISE'BELL

Nine times out of ten when a woman complains that it is "impossible for her to find a becoming hat" it is simply because she does not know how to properly poise one. Most hats are built up on the idea of being becoming to the average face and the secret of their becomingness is to so adjust them that the line of the head and the hat shall be harmonious.

The women who try on hats in the millinery stores are not excessively handsome nor always young, but they know how to wear hats, that's their business. They know that a hat must be comfortable, it must rest on the head with its weight evenly distributed. If a hat has heavy trimming on one side, the hat must be so constructed and so put on that the opposite side fits firmly over the side of the head so the proper balance of weight is established.

Nothing is more unbecoming than a hat out of equilibrium, the silhouette of the figure is out of line and the discomfort produced will bring lines of dismay and anxiety on the face.

BE SURE OF THE LINE.

The next point in choosing a hat is to find out if the hat brim makes an agreeable line with the sides of the head. Try on the hat before a triple mirror or with the aid of a hand glass. Survey it from the profile and from the rear. A hat that clings close to the head is apt to prove the more becoming, and a style to be avoided is one that shows a dark space between the hair and the brim. By the expression "close to the head" I do not necessarily mean a brimless hat; I mean that the brim to be becoming must in a measure conform to and continue the line of the head.

Try the hat standing as well as sitting, for it must suit the lines of the figure as well as the head. Walk a few steps in it and observe the effect. A woman who bobs when she walks must choose a hat of fairly steady construction while a woman with a long steady gait can stand considerable movement in her headgear.

See that the hat reflects some of the story that your face tells. If you are serious and somewhat heavy of character, a lacey confection of violets and blush roses will not suit. If the face is delicate and too thin be sure the hat does not overbalance it and emphasize its fragility.

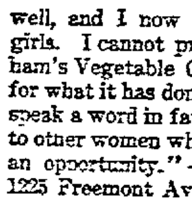

A smart or elegant black hat suits most costumes and seems to become most figures, but it does not become all faces. It is not simply a question of youth and freshness, for some middle aged women look their best and youngest in a black hat. It is very much a question of expression. Be sure that a color suits your expression as well as the tint of your complexion.

MRS. WINN'S ADVICE TO WOMEN

Take Lydia E. Pinkham's Vegetable Compound and be Restored to Health.

Kansas City, Mo.—"The doctors told me I would never be a mother. Every month the pains were so bad that I could not bear my weight on one foot. I began taking Lydia E. Pinkham's Vegetable Compound and had not finished the first bottle when I felt greatly relieved and I took it until it made me sound and well, and I now have two fine baby girls. I cannot praise Lydia E. Pinkham's Vegetable Compound too highly for what it has done for me. I always speak a word in favor of your medicine to other women who suffer when I have an opportunity." — Mrs. H. T. WINN, 1225 Freemont Ave., Kansas City, Mo.

Read What Another Woman says:

Cumming, Ga.—"I tell some suffering woman every day of Lydia E. Pinkham's Vegetable Compound and what it has done for me. I could not eat or sleep, had a bad stomach and was in misery all the time. I could not do my housework or walk any distance without suffering great pain. I tried doctors' medicines and different patent medicines but failed to get relief. My husband brought home your Vegetable Compound and in two weeks I could eat anything, could sleep like a healthy baby, and walk a long distance without feeling tired. I can highly recommend your Vegetable Compound to women who suffer as I did, and you are at liberty to use this letter."—Mrs. CHARLIE BAGLEY, R. 3, Cumming, Ga.

VILLA MAY ATTEMPT TO QUELL UPRISING IN SONORA

FOLKS AND THINGS ABOUT TOWN

THE fire had been blazing merrily for some time and the firemen had been busily engaged in applying chemicals and water to the crowd, the house and the landscape in general. The crowd was getting tired and was almost ready to go home. It was close to midnight and the fire was almost out and nobody had been hurt and there had been no thrilling escapes.

The last little wisp of flame flickered in the breeze and almost went out. It would have gone out, but there was something yet to be seen and the last little blaze was needed to throw a light upon it.

There was a buzz and whirr and the screeching of a siren. Out of the darkness came noises such as might have been made by the approach of some antediluvian monster in pain. Then there was a crash and the shrieking of breaks and the automobile driven by Fire Chief Ball dashed into the little circle of light.

But more resplendent than the fire was the chief himself. He was in full evening dress. In place of automobile gauntlets he had white kid gloves. His immaculate shirt front caught the red glow of the embers. He had abandoned dance and dancers and had responded to the call of duty.

But the little flame expired.

"The fire is out, chief," came a voice from the darkness.

"Yes, you can go home now," echoed the crowd. "Good night!"

The campus argot, which is a strange sort of slang often grammatical, has got the better of Berkeley and makes its appearance in every conceivable quarter. "Let's go" and a few other things like that are as common in town as on North Hall steps. The habit has reached advertisers in the student daily, who apparently expect to win student custom, if by no other means, by talking student talk. "We have 'em, oodles of 'em," writes one haberdasher. "Blankman's shoes, they come in two's, you wear them on your feet, dispelling 'blues,' no comfort lose, ther're stylish and their neat," writes a bootman in the style of the campus yell. "On the level" is the colleguesque slogan adopted by a third establishment.

Burglars broke into the home of Charles Ward, 1512 Magnolia street and ransacked the place. Jewelry valued at $62 and a small amount of money were stolen.

The home of Charles A. Burton, 391 Adams street, was entered by burglars and jewelry valued at $20 stolen.

A bedspread and a box of preserved fruit were taken by a thief who visited the backyard of H. N. Percy's home, 4210 Piedmont avenue. A barrel of wine was taken from the basement of the home of Louis Lacilo, 1369 Twelfth street.

Burglars attempted to force an entrance to the home of Charles Mosgere, 1512 Harrison street, but were frightened away.

Tools valued at $10 were stolen from a shed belonging to the Oakland Lime and Cement Company, 103 Market street.

Workmen on the Addison street sewer in Berkeley have uncovered street railroad ties that remind older citizens of the long defunct Claremont, University and Ferries Railroad Company. It was built by Walter E. Sell, Louis Gottschall and other Berkeley pioneers, possessed five cars, eleven horses and barns. Its maximum daily revenue was $15. The ties are still in a good state of preservation, although laid twenty-five years ago. The original promoters of the road have long since died.

James Gallagher, a cook, and Harris Greer, a chauffeur, were arrested today by Corporal John Fahy and Patrolman O'Hara at Seventh and Campbell streets and a joint charge of petty larceny has been placed against them. It is alleged that the two men entered a second-hand shoe store at 1606 Seventh street and that while Greer tried on several pairs of shoes under the pretext that his own hurt him and that he wanted to exchange, Gallagher filled his pockets with rubber heels. The rubber heels were later sold, it is declared, to a Japanese shoemaker. Both men confessed on being arrested.

"Dick" Kessler, formerly proprietor of Kessler's cafe, and one of the best known members of the local German colony, boasted among his friends that he was immune on the subject of the European war and that he could not be forced into an argument about it. Not long ago he was with a group of friends, including several city officials, at the Forum, and a secret agreement was reached among those present to "get Kessler's goat." It may be noted that all were drinking Dubonnet cocktails.

Presently the subject turned on the war. A general attack was made on Germany, front, flank and rear. There was nothing that could be said about the fatherland that was not said and reiterated.

Kessler refused to be drawn into the talk. But finally he could stand it no longer.

"Take away this French drink and bring me a man's drink," Kessler broke out. "Bring me some kummel and bring some for all the rest, too. If they don't like that, make them drink kirchwasser or schnapps. Hoch der Kaiser!"

John Letarro was held to answer by Judge Mortimer Smith this morning on a burglary charge. Letarro is alleged to have entered the home of Manuel Moriz, 1063 Kennedy street, and to have stolen articles of minor value. Bonds were fixed in the sum of $2000.

After a deliberation of about twenty minutes the jury returned a verdict of not guilty in favor of Alfred Nelson, who was alleged to have failed to provide for his 74-year-old wife Christiana.

Throughout the hearing the testimony on the part of the plaintiff and defendant was extremely conflicting and it was not until the foreman made his final announcement that Nelson lost his worried look and his weather-seamed countenance broke into a labyrinth of smiles.

On the stand the old man, who is commonly known by the sobriquet of "Pins and Needles" by reason of the stock that he carries, testified that he had always done all in his power to support his aged wife and there was a pitiful break in his voice when he said:

"She always was a good wife to me during the eleven years of our married life, and was all a man could want, but I guess she just wants to get rid of me."

The wife, on the other hand, testified that although there was always plenty of money in the house she was forced to rely on the charity of the neighbors and that of the Associated Charities for her food and clothing. When asked if the defendant ever struck her she replied in the negative, saying:

"He dassen't, because he feared the law."

Nelson was one of the oldest prisoners ever held in custody in the county jail.

Oscar Small, who pleaded guilty on a charge of assault upon a minor, was sentenced by Superior Judge Ogden today to serve five years in San Quentin. John B. Marcon pleaded guilty to burglary and upon petition for probation being denied was sentenced to serve three and one-half years in Folsom.

Doubt as to the exact time Alex La Frange entered the room of A. J. Thompson in Twenty-second street made it possible for him to plead guilty to second degree burglary today. He is said by the police to have been implicated in many similar robberies and to have been sought for the last year. He claimed that he had entered the room between 7:20 p. m. and midnight. As the sun set at 7:24 on that date there was four minutes distinction between first and second degree burglary. His case has been referred to the probation office by Superior Judge Ogden.

Harry L. Boykin, negro chauffeur for Walter J. Laymance, was held to answer before Judge George Samuels this morning on a charge of manslaughter for running down and killing Jerome Anderson, a motorman, at Fifteenth and San Pablo avenue on the night of June 16. Boykin was captured several weeks after Anderson was killed and confessed that he had driven the automobile.

Suspected Murderer of Doherty Arrested

SAN FRANCISCO, Sept. 22.—The first suspect to be taken into custody in connection with the murder of special policeman John Doherty yesterday morning was brought to police headquarters today by Corporal Daniel Collins and Patrolman William Gleeson. He is a young teamster, but the police refuse at this time to divulge his name, declaring that they desire to keep his identity secret. He is being held in detinue.

At an early hour this morning the police received private advices, that one of the two yeggmen believed to have participated in the killing of Doherty would be taken to a lodging house on Bryant street. This man, supposed to be the wounded murderer, was to have been taken to the house for medical treatment. As soon as the police got wind of the plot, Detectives Suttman and McGrath were planted in the house. They waited all night long, but the culprits failed to appear.

Laymen and clergymen will greet Bishop and Mrs. Francis J. McConnell of Denver at the reception to be given this evening in the First Methodist-Episcopal Church, Twenty-fourth street and Broadway, where the annual sessions of the California conference of Methodist-Episcopal Churches will open for a week's convention tomorrow morning at 10 o'clock. Representative ministers, missionaries and Sunday-school workers will take part in the conference, which will be presided over by Bishop McConnell. About 1000 religious workers are expected to attend the conclave, which, for the first time in 30 years, will be held outside of the conference grounds at Pacific Grove.

The visitors will be welcomed this evening on behalf of the citizens of Oakland by Mayor Frank K. Mott, while Rev. George W. ROOSEVELT URGES CHILD LABOR LAW

New York Judiciary Most Reactionary in the Entire Country.

KANSAS CITY, Mo., Sept. 22.—Criticism of the judiciary and a plea for immediate laws to regulate child labor were voiced by Colonel Theodore Roosevelt in an address made in Kansas City, Kansas, last night.

"The Progressives want a national law to put a stop to child labor, and we are going to have it," declared Colonel Roosevelt. "The Republicans and Democrats say it is against the constitution to pass such a law, but in the day when the constitution was written there was no child labor.

"We should choose our laws to suit the present needs of our people. No man admires the constitution more than I. No man admires more the fathers that wrote it than I. I admire them intelligently, for I know what they didn't then.

"New York has the proud distinction of having the most reactionary judiciary in the country," declared Colonel Roosevelt, "and the funny thing is that the men who compose its courts are A No. 1 men and could settle a dispute between two men with perfect justice. When they settle a law case, however, they don't think of the human being involved. They think only of the papers, precedents and arguments."

The Roosevelt party left here this morning for Lincoln, Nebraska, where Colonel Roosevelt will speak tonight.

Virginia Voting on Statewide Prohibition

RICHMOND, Va., Sept. 22.—Virginia voters were called upon today to decide whether a state-wide law shall be enacted prohibiting the manufacture and sale of intoxicating liquors or its policy of local option be retained.

Ninety of the 100 Virginia counties voted "dry" in previous local option contests. In the event, therefore, that state-wide prohibition is voted down, the local option laws now in effect in nine-tenths of the state would still continue in force. If prohibition wins, the governor, under the terms of the legislative referendum, will issue a proclamation declaring the state "dry" on and after November 1, 1916.

WILL LECTURE ON PARIS.

An illustrated lecture on "Paris and Scenes in the Recent War" will be given tonight by Robert J. Buchanan of Berkeley at the Emerson school, on Forty-ninth and Shafter streets. Buchanan has traveled extensively over the scene of hostilities and has slides made from pictorial matter sent him recently by a correspondent in Europe.

VESSEL NEAR NORTHWEST PASSAGE

Unable to Continue Trip for Growing Shortage of Engine Fuel.

NOME, Alaska, Sept. 22.—The fifteen-ton wooden gasoline schooner Teddy Bear, Captain Joe Bernard, which left Nome on a hunting, trapping and trading expedition in 1909; which skirted the Arctic coast of Canada farther eastward than any other ship had ever gone, and which might have accomplished the Northwest Passage and reached Hudson bay, but for a shortage of gasoline, arrived here yesterday. The little boat had sailed 1800 miles since August 4th, unable to use her engine because there was no gasoline aboard.

Bernard, with John Sandstrom and an Eskimo crew, left Nome well supplied with goods for trade among the Eskimos and refused to return until he had disposed of these goods. In the winter of 1910 Sandstrom was frozen to death in a blizzard on Barter island, while he was on his way to an Eskimo village.

The Teddy Bear explored Coronadon gulf, on whose shores live the blue-eyed Eskimos, supposed to be descendants of the Scandinavian settlers in Greenland. Bernard and his crew lived comfortably on wild game along the coast, and had an ambition to go to Hudson bay, but after making more than half the distance they dared not continue, because the shore farther east was uninhabited and the Teddy Bear was without fuel. So the ship turned back last year after reaching Cochran Point on Dolford and Union straits, more than 1000 miles east of Point Barrow.

In 1911 Captain Bernard met Vilhjalmur Stefansson on Coronadon gulf and carried him to Bailey island. Bernard, who went farther east than Stefansson, says that 75 per cent of the Eskimos he met east of the Mackenzie river had never seen a white man or a white man's vessel. The natives live in the most primitive fashion, using stone and copper weapons and cooking utensils.

The Teddy Bear brought an extraordinary collection, weighing several tons, composed of birds, furs, eggs, implements hammered from float copper found in the river beds, stone pots for cooking and other various things.

Republicans Oppose War Revenue Measure

WASHINGTON, Sept. 22.—The administration war revenue bill was formally reported out of the ways and means committee today with all the Democrats voting in its favor and all the Republicans in opposition.

Progressive Leader Murdock was not present. The tax of two cents a gallon on gasoline was extended to cover "motor spirits." A tentative agreement was reached with Republican leaders for a vote at 4 p. m. Friday.

The majority report estimated the falling off in revenues during the next twelve months, based on the assumption that all imports from the countries at war will cease as follows: Germany, $38,653,000; France, $35,566,000; United Kingdom, $40,653,000; Belgium, $5,398,000; Austria-Hungary, $5,267,000; Russia in Europe, $242,000, and Servia and Montenegro $2000. The committee added that it seemed certain that some imports would continue and that the falling off would not exceed the $100,000,000. It declared that but for the war in Europe the new tariff law and other sources of revenue would have yielded sufficient money to meet the government demands.

Rescind Bond Rules on Stock Exchange

NEW YORK, Sept. 22.—The special committee of governors which has managed the affairs of the Stock Exchange during its period of closure, announced today that it has rescinded certain rules regarding dealings in bonds and listed notes. Under the new order members are permitted to buy or sell these securities at moderate concessions.

Heretofore the committee had placed a ban on any dealing below prices quoted at the close of the exchange on July 30th.

Transactions under the new rule must be submitted to the clearing house of the exchange before confirmation. Approval by this committee also is necessary for any public advertising of listed bonds or other securities.

Leggett Lifeboats Beached; No Bodies

PORTLAND, Ore., Sept. 22.—Two lifeboats of the steam schooner Francis H. Leggett, which sank 60 miles south of the Columbia river Friday with a loss of approximately 70 lives, came ashore today on Neah-Ka-Nie beach, near Neahalem. Neither boat contained any victims of the disaster. Early today there had been no additions to the list of eight bodies picked up by schooners yesterday and the one washed ashore on Neah-Ka-Nie beach. Of the four dead brought into Newport yesterday by the schooner Patsy, one is believed to be D. A. Goldsmith and another C. W. Caldwell.

OLD MURDERS OUT

Corroded Revolver Found by Wreckers in House of Mysterious Death.

Ah Sam, found dead 1901.
Ah Jim, found dead 1906.
On Look, found dead 1907.

These are Chinatown's three unexplained deaths. Three victims were shot. No light was ever cast on the tragedies.

Today, wreckers, tearing down the old building at Eighth and Webster streets, haunted by Chinese for years, discovered an old, rusty revolver, with three empty shells in the blackened cylinders. The other cartridges were loaded.

Was the old gun the instrument of death for the three victims? Is it a clew that may lead to the mysterious highbinders who plied their murderous trade in the dark hours?

The grim relic of murder was turned over to Policeman No. 76, who has placed the matter before the detective bureau.

Striped Suits to Go; Folsom Sees Reform

SACRAMENTO, Sept. 22.—The convicts at Folsom Prison will cast aside their stripes and don uniforms of light blue about January 1, according to the decision of the State Prison Board of Directors at the meeting held in Folsom Prison. The suits are to be made by the convicts at San Quentin Prison, and it is believed they will not be ready until the first of the year. They are to be the same as worn in San Quentin Prison.

The Prison Board granted seven paroles, to take effect at once, and three to become effective later. Thirty-three applications for parole were passed upon.

Farmers' Association to Fight 8-Hour Law

SACRAMENTO, Sept. 22.—Announcement was made yesterday at the offices of the Farmers' Protective League by Arthur Dunn, secretary-manager, that there would be no cessation in the campaign to defeat the proposed universal eight-hour law, notwithstanding Attorney General Webb's opinion it would be unconstitutional if adopted.

The league takes the position that the measure would have to be passed on by a court, if it were adopted.

HUBBY BACK ON JOB

Elopers Witnesses for Romantic Marriage of San Jose Girl.

Following a brief honeymoon, during which they will visit their surprised relatives, Mr. and Mrs. Jester James, hero and heroine of the "Romance of the Elevator," will return to Oakland to make their home in a few days. James, an elevator operator in the Syndicate building, met and married Miss Angeline Pacheco, daughter of a wealthy San Jose family, while she was in Oakland on a visit. The bride's parents were telegraphed the news, wired congratulations and forgave the couple.

The romantic marriage had elopers for its witnesses, in Mr. and Mrs. Peter Jepson. Jepson, while an elevator operator in the Hotel Oakland, eloped with Miss Bess Mein, daughter of a Los Angeles capitalist. Both men now operate elevators in the same building.

Lillian Russell May Undergo Operation

PITTSBURGH, Pa., Sept. 22.—Lillian Russell, the actress, who is Mrs. A. P. Moore in private life, was taken to a hospital last night suffering from an attack of appendicitis and will undergo an operation. The illness is not acute, her physician says.

OAKLAND PUBLIC WOOD YARD REPORT IS FILED

The report of the Oakland Public Wood Yard for August shows that the labor market has not altered to any great extent since the last report was submitted. The total receipts for the entire month amounted to $256.5 and the disbursements came to $237.45; this leaves a balance of only $19.60 whereon to begin the month of September.

That there is much work, but more men than there is work for, can be appreciated by the fact that in the past month the institution has served 1733 meals to the unemployed, which is an increase of 433 over the same month in 1913. Lodgings were given to the amount of 1655, 45 more than were given during the month of August last year.

There is, however, in the number of steady lodgers, a deficit of 20, that is due to the fact that the institution has found 27 more positions for men than last year.

In the course of his remarks, as he submitted his report, W. S. Goodrich, the superintendent, took occasion to assert that "as things are we have on the one hand [illegible] that they [illegible] workmen [illegible] on the other [illegible] about like ants in search of work that is to be done. What we really need is a good free employment bureau to supplement the work of this institution."

U. S. DEMANDS SAFETY OF PRIESTS

Disquieting Reports Come in From Mexico; Evacuation Is Deferred.

WASHINGTON, Sept. 22.—Although yesterday's official reports indicated that friction between Generals Obregon and Villa was insignificant, there was a pessimistic tone in advices from Mexico today. The local troubles in Sonora have given rise to the fear among some observers that Villa may attempt to quell the disturbances there independent of Carranza's orders.

The state department today asked the Carranza government to guarantee the safety of the priests and nuns gathered at Vera Cruz seeking a means to leave the country. Consul Canada reported that about 220 are destitute. Thirty-two of the priests desire to go to Havana, but the wishes of the other religious refugees have not been determined.

WAR CLOUDS THREATEN.

EL PASO, Texas, Sept. 22.—War clouds again hung over Northern Mexico today in spite of official denials from all sources except officials at Mexico City. General Carranza, in power as chief executive at the national capital, remained silent regarding General Villa's invasion of Sonora. The first chief, however, conversed for many hours over leased wires with Rafael Muzquiz, his agent here.

The next move admittedly from all sides must be made by the Carranza government. The movement of some 5000 Villa troops into the western border state progressed today under the leadership of General Felipe Angeles, deposed as secretary of war from the Carranza cabinet.

It was learned definitely that General Benjamin Hill, commanding constitutionalist troops in Sonora, has not been ordered to move from his post by Carranza. Indications were that he would combat Villa's invasion of the state. In doing this he also will have to meet the Yaqui Indian troops of Governor Jose Maria Maytorana, who has began an open revolt against the central government.

VILLA HOLDS ALOOF.

General Villa will not take part in person in the convention of chiefs which Carranza has called for October 1 at the national capital. This was announced yesterday in a telegram addressed to the Associated Press from Luis Aguirre Benavides, Villa's secretary. He stated, however, that Villa's generals would participate in the meeting, which is designed to make arrangements for general elections in the republic.

Benavides as well as General Obregon in telegrams denied reports that Obregon had been imprisoned or had had any estrangement with General Villa. Obregon stated in his message that he would proceed immediately to Mexico City. Persons who were witnesses of the trouble at Chihuahua City last Friday, however, declared Villa had placed Obregon under arrest, threatening to shoot him and all members of his staff, but later had altered his verdict. The trouble arose, they said, over the invasion of Sonora, Obregon's native state.

Obregon recently has been acting as mediatory between Carranza and Villa. He is commander of the northwestern military zone, including the state of Sonora. Villa commands with equal rank the central zone, of which Chihuahua, his native state, is a part.

EVACUATION DELAYED.

WASHINGTON, Sept. 22.—Fixing of a date for the departure of the American military expedition sent to Vera Cruz, plans for the evacuation of which already have been agreed upon, was being delayed by administration officials today pending the settlement of questions growing out of the payment of funds collected at the customs house there and the care of American refugees. These problems were before the state department today for adjustment.

Imposition of fines on the steamers Ypiranga and Bavaria of the Hamburg-American line for entering so-called ports in Mexico and whether merchants who have paid duties to the American officers since the Carranza government came into power will have to pay similar sums for the same goods when Vera Cruz is taken over by the Mexicans, are the administration questions awaiting decision. No difficulty is expected in their adjustment.

The Washington government will assume responsibility for the care of American refugees only at Vera Cruz. It is estimated that there are altogether 1300 refugees, including 36 nuns and priests, who want to get away before evacuation begins.

Payment of transportation of other refugees than American, it is believed, will be from church organizations of other countries. Administration officials believe that the American forces will depart from Vera Cruz in about two weeks.

BURNS FAVORITE ON EVE OF BATTLE

COLLEGE MEN TO CHANGE RULES

The new four-point scoring method for tries, and the imaginary "interference" line between opposing scrums will be settled, so far as their use in California-Stanford games are concerned, next Monday night, when representatives of both Rugby teams will meet in San Francisco to thresh out the details of the argument over the rules of the game. The entire football agreement will be revised by the two universities in outlining their plans for the coming contests and the adoption of the new rules of play.

[illegible] of the Stanford managers, with George Presley and A. E. Worthy, are to represent Stanford in the conference. Coach Jimmy Schaeffer, Tom McKin, the California captain, and Victor Doyle will represent the University of California.

The meeting is held in San Francisco as neutral ground for the conference. The college men will go into a number of other matters in connection with rule changes. The conference is being looked upon by college men as a probable change in important features of the present Rugby games.

Stanford Varsity has a strong team this year, and, from the present indications, has not a weak department. The forward lines has many strong candidates out for a position now, and some husky players are also out for backfield. Coach Brown is busy choosing material and persuading his team to refrain from kicking into touch.

California's fifteen showed a slight slump against the Alumni last week, according to experts, but this is not considered at this time of the season an indication of anything wrong. In fact, say coaches, they're not rushing the men at the present time.

FORMER SAN FRANCISCO BALL PLAYER IS ARRESTED

"Red" Davis Accused of Stealing Diamonds by His Father-in-Law.

On the complaint of his father-in-law, Gerald H. (Red) Davis, Buffalo rightfielder, and formerly with the Seals several seasons back, was arrested recently at Galveston and is charged in Justice Vann's court with felony theft. Davis came to Houston by automobile and went to police headquarters.

"There's nothing to this case — the stuff's mine," he said, "but any time you fellows want me for anything don't come arresting me. I am not a fugitive. You can find me at the Hotel Galvez, where I'm enjoying the salt breezes."

Davis' father-in-law, W. S. Pleasants, of 221 West Seventeenth street, Houston Heights, alleges that Davis unlawfully took diamond earrings and a diamond ring with two stones, all worth $615, from the defendant's wife, Mrs. Grace Davis, who is the complainant's daughter. Davis says the stones are his and is bitter over his arrest. Mrs. Davis has sued her husband for divorce.

Some days ago Pleasants sought to prefer the charge of felony theft but was told that civil action was his only recourse, the law on the joint property of husband and wife being specific. An assistant to the district attorney cites the same law, hence it is likely the criminal action will be dismissed.

Davis was released on bond. His hearing is set for next Monday at 2 p. m., in Justice Vann's court.

WILL WORK OFF HIS SQUAD MEN SLOWLY

The usual objection to college athletics is that such a small percentage of the student body is given an opportunity to represent the varsity on the field. This point is being more and more discussed every year, and in some places the authorities have even abolished intercollegiate athletics in favor of interclass games in which a great number of athletes participate.

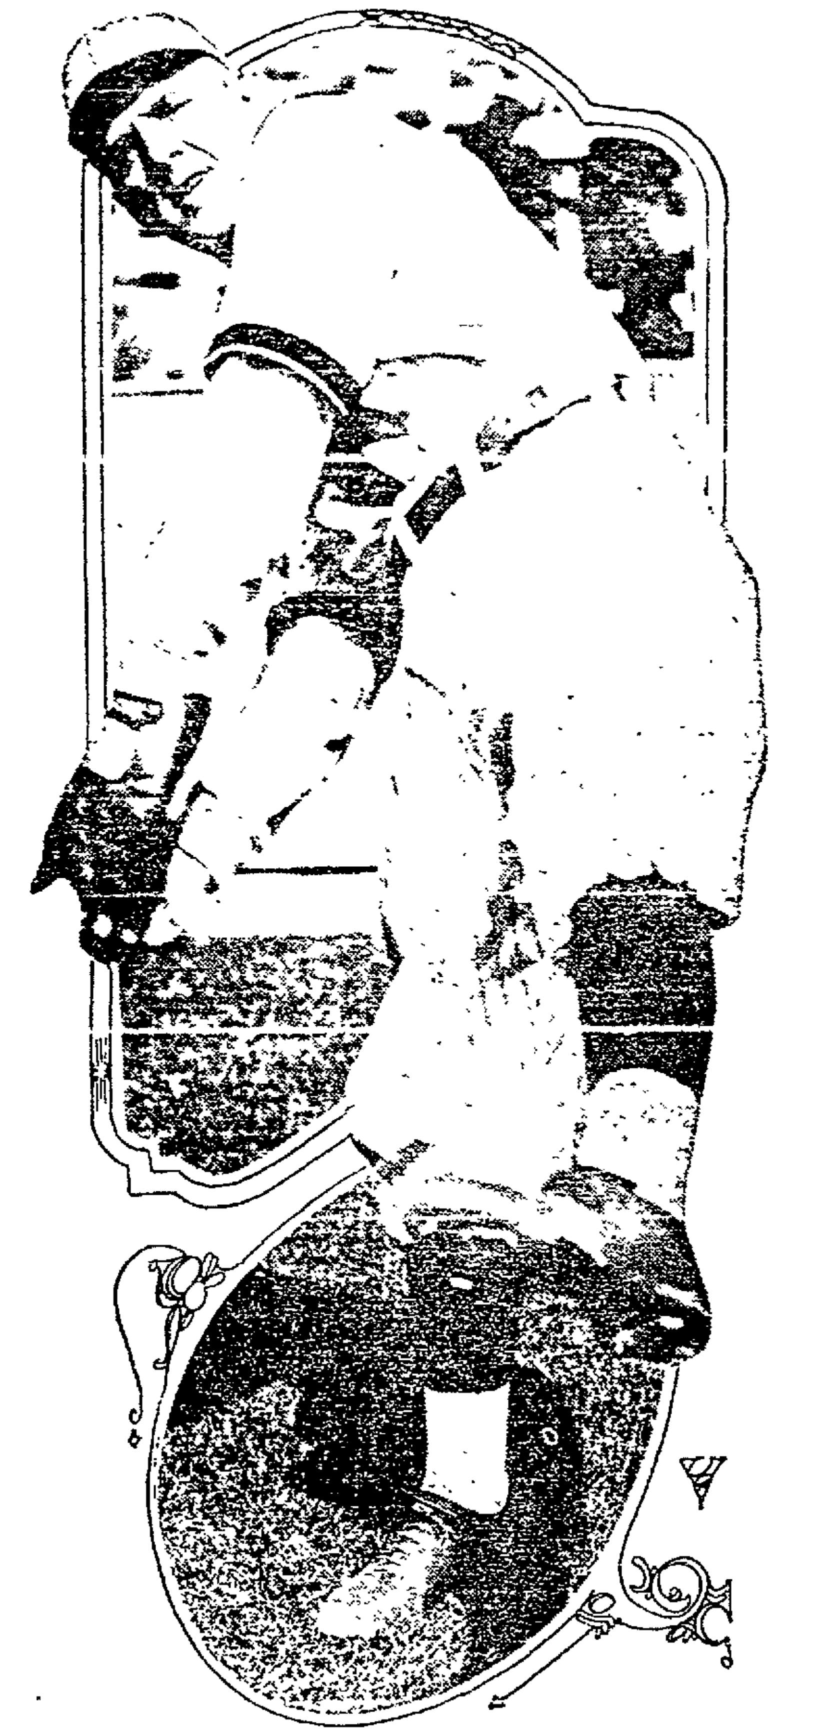

Another move, however, to partly remedy this condition is being made by Coach Brown of Stanford university. The old practice of working the elimination process on the varsity squad as quickly as possible has been thrown out by the coach of the Cardinal ruggers, and he has already obtained startling results from a practice of allowing as many men as possible to participate in practice games.

Coach Brown is working under the belief that every man signed up for football should be allowed to remain on the squad during the entire season, and should be given a chance to demonstrate his ability on some team.

OAKS ARE REHEARSING MANAGER TYLER CHRISTIAN SAYS SO READY FOR NEXT YEAR

MANAGER TYLER CHRISTIAN, WHO DECLARES THE FIGHTING OAKS HAVE BEEN REHEARSING FOR NEXT SEASON.

The Oaks have been rehearsing.

Tyler Christian says so. He doesn't expect to do much with the club until next season, according to an article printed in a Los Angeles paper yesterday.

The writer declares Tyler has been known to smile during the present season. He says a lot more. Here it is:

Tyler Christian is an optimist.

Tyler Christian, occasionally called Joe Christian by his players, has been known to smile this season. And he is manager of the Oakland club, too.

When Christian took charge of the squad he picked up a team that was completely demoralized. He has had hard work getting it into shape. Not until next year does he expect to do much with the club.

Most players cannot do good work on a hopeless tail-ender. They haven't the ambition to travel at their top speed each day and try to get into the game each minute.

When a club is up in the race a new man has a hard time breaking into the line-up. Not only does the manager dislike to break up his combination, but the other players are fighting to stay in there.

Daniels, a Western Canadian League player, had no trouble in breaking into the line-up.

In spite of the many contests they have lost through poor playing, Christian has been able to keep a cheerful view of the matter. For that reason all his players swear by him.

Because of the way the club was gotten together, Christian will have a hard time getting alone for next season.

Alexander goes to the St. Louis Browns, while Prough has been recalled by the White Sox. Quinlan also has been sold to the White Sox and the Oaks are to get an infielder in return for him.

Then there are the Federals to be heard from. Report has it that one of the Oaks has signed a Federal League contract.

In the midst of all this Christian is working hard and that is one reason why the Oaks should be fighting among the leaders next year.

RUBIEN NEW HEAD OF METROPOLITAN UNION

NEW YORK, Sept. 22.—At the annual meeting of the Metropolitan Association of the Amateur Athletic Union here last night Fred W. Rubien, the vice-president, was elected president, to succeed the late James E. Sullivan.

The selection of Mr. Rubien by the board of managers was unanimous. In seconding the nomination, Jeremiah T. Mahoney said that, although the association had intended to leave the office of president vacant for this year as a tribute to Mr. Sullivan, it finally was decided to fill it, because it was felt that the late president would have preferred such a course. Terence Farley was elected vice-president.

Resolutions of regret on Mr. Sullivan's death were adopted, and an appropriation of $500 by the Metropolitan Association was ordered as a contribution toward a Sullivan memorial. Before the close of the meeting this appropriation was augmented by individual subscriptions to a total of $885. The nature of the memorial has not been decided upon, but it is probable that tonight's contributions will form part of a national memorial fund.

Six delegates were elected to the Amateur Athletic Union—Fred W. Rubien, Barlow S. Weeks, Terence Farley, J. W. Stumpf, F. J. V. Delaney and H. Abertubessing.

BIG SQUADS OUT FOR "BIG NINE" ELEVENS

CHICAGO, Sept. 22.—Three hundred and eighty-four football players responded to the first call of practice issued yesterday by coaches of "Big Nine" elevens, according to statistics gathered here today.

The fall's large squad is reported to all of the western conference universities. Purdue topped the list with 67, with Iowa second with 66. Minnesota had 55, Ohio 45, Illinois 40, Chicago 35, Wisconsin 34, Indiana 30 and Northwestern 28.

CAPITAL MAY GET ITS TEAM BACK AGAIN

SACRAMENTO, Cal., Sept. 22. — Al Baum, president of the Coast League, Cal Ewing, president of the San Francisco club and Hen Berry of the Los Angeles club, were in this city last night with a proposition to local business men for the return of a club to Sacramento next season. The Coast League directors said that they wanted assurance that the city would support a club. President Baum declared that the plan for the return of a club here is on the basis of a six-club league and that there is no plan on foot for an eight-club organization. The local conference adjourned until tomorrow and no definite announcement of its outcome was given.

McCORMACK-FOTTRELL TEAM IS WINNER

CLEVELAND, Sept. 22.—E. R. McCormack and Ella Fottrell of San Francisco yesterday won the State tennis doubles championship by defeating Clarence Griffin of San Francisco and Robert Baird of Toronto, 6 to 6, 6 to 4, in the concluding round of the state tournament. Joe Royon and A. F. Beede, challengers, were easily disposed of. The first two sets of the finals were played Saturday. Miss Bvia Stephens of Cleveland and Clarence Griffin of San Francisco defeated Miss Best and E. H. Whitney for the mixed doubles state championship, 12-10, 3-6 and 6-1. The tournament was concluded today.

YALE ELEVEN HOLDS SCRIMMAGE PRACTICE

NEW HAVEN, Conn., Sept. 22.—Behind closed gates, candidates for the Yale football team had their first practice of the year on Yale field yesterday. Despite the sweltering weather, Head Coach Frank Hinkey ordered scrimmage work for 20 rounds, during which time the "Varsity," by long runs and brilliant forward passing, secured two touch-downs.

Le Gore, the star of last year's freshman eleven, made the first touch-down after participating in a 35-yard forward pass making a 40-yard run. Knowles of last year's back field made the second score.

DUCKS STILL IN BATTING LEAD

The three leading batters of the Pacific Coast League all moved closer to the common average this last week, as shown in the percentages. Gus Fisher of Portland fell off four points, but as Del Howard, the Seals' manager, remained pegged at .327, the formidable Leaver was still eleven points to the good and leader of the league with an average of [illegible].

Wolter of Los Angeles, who, besides being the leading run getter of the league, also has knocked out more triples than anybody else, and is only two [illegible] gain of seven points, making his score [illegible].

In club batting averages Portland fell off a point, but .275 was still good enough to lead the league, being four points better than Los Angeles, although the Angels did gain three points during the week. The Seals' hopes of climbing into first place did not gain much comfort from the week's showing. They lost a point, dropping to .255, which is comfortably at the bottom of the pile, two points below Mission and Venice, and seven points below Oakland. The figures tell the story:

SYNDICATE PLANNING JACK-JESS MATCH

A big sporting syndicate is seeking to match Jess Willard and Jack Johnson for a 45 round bout for the world's heavyweight championship, and already $10,000 has been put up to go as a side wager. Cables have been sent from New York to Johnson in England, telling him of the posting of the side bet and asking him to cover it.

The syndicate handling the plans for the bout include Tom Jones, manager of Willard; Lawrence Weber, Harry Frazee and Jack Curley, well known New York sporting man. Jones is acting as business manager.

PECKINPAUGH TO BE AT THE HELM

NEW YORK, Sept. 22. — Roger Peckinpaugh, shortstop, has been temporarily placed in charge of the Yankees following the resignation of Frank Chance. Jack Dunn will in all probability have charge of Farrell's team next season.

Chance, after receiving his pay until the end of the campaign, departed on an automobile trip for the coast last night. Chance also announced that he was through with the national pastime for good.

'JOE WILL COME UP'—Burns Camp 'FRANKIE'S ALL IN'—Joe's Camp

Burns Sleeps Late Not Very Nervous

Tonight is the night when Joseph Azevedo [illegible] and Frankie Burns, also of Oakland, meet in a fifteen-round encounter at Piedmont Pavilion under the auspices of Oakland Wheelmen's Athletic Club, of which Jimmy Rohan is the promoter.

Both men reported to be under the specified 133 pounds today and it is likely that there will be no trouble over that matter when the two step on the scales at 3 o'clock.

Frankie Burns went to bed early last night and at a late hour this morning he was still sleeping, which shows that the [illegible] hours. Proctor, Burns' manager, is authority for the statement that Frankie weighed 132 pounds last night before going to bed.

"You can say for me," declared Proctor, "that Frankie will not be drinking a half a cup of tea today, either. Frankie ate a big breakfast at 10 o'clock and also his usual three squares.

"Anybody who thinks Frankie had hard work in making the weight can come out here any time today, preferably at meal time, and watch that boy eat. He always has a good appetite and he will eat just as much today as if he had no fight on his hands.

"About Azevedo? Our only worries now are that he will cover up like he has in all of his fights in the past. If the Portuguese covers up, he will have a good chance to stay the full number of rounds, but if he stands up and fights like they say he will, Frankie will knock him out before the limit.

"[illegible] was at weight [illegible] for this fight. He has trained harder this time than for any other fight and if he is beaten, which I know will not be the case, he will have no excuses to offer [illegible] nothing but a road to victory."

AZEVEDO CONFIDENT.

At the Rohan-Azevedo camp there is no less confidence displayed. Joe is reported to be down to weight and through his manager he conveys the usual confidence that fighters generally display.

Today the little promoter-manager was bubbling over with enthusiasm and he still maintains that Azevedo will be the next champion of the world.

"There is no reason why Joe shouldn't beat Burns," says Jimmy. "He is younger and is strong as a bull. Why, Burns can hit him with all his might just now and it wouldn't phase the boy.

BURNS "ALL IN."

"We not only expect to beat Frankie, but we expect to beat him decisively, and I stand willing to wager that Frankie will be the first one to cover up. All this talk about Azevedo going to cover is 'bull,' pure and simple. Joe has never covered up in a fight yet. In his latest

Jim Griffin, who has refereed all the important fights around the bay cities lately, will be the third man in the ring. Griffin has made visits to the camps of both scrappers and explained his system to them and he anticipates little trouble with either of the men.

Freddie Hamman and Frankie Malone, former Pacific Coast feather-weight champion, who lately turned professional, will meet in the semi-windup. Hamman is a clever performer and a good battle is expected.

Three four-round preliminaries between some of the best fighters around the bay have also been arranged, completing one of the best fight cards put up for some time.

THE EARFULL

Being a Few Inside Facts Gleaned From the Haunts of Sportsmen.

Freddie Welsh is not exactly satisfied with winning the championship from Willie Ritchie—but, like Caesar, is out for more triumphs. Right now he simply refuses to let Willie rest in peace. He comes out with an offer to fight Willie Ritchie to a finish, declares that he can stop him under any conditions, and says that Willie's first on his eligible list for more fighting. The next move is up to the ex-champ.

Welsh is at present training by making bows. He's on a vaudeville circuit, where he speaks, shows his muscles and makes due obeisance to those fans who watch always challenge Ritchie. In fact, he's just spoiling for another go at the ex-champ.

There are a few fancy scraps scheduled for the near future, if the present efforts of the pugilistic cooks produce the broth. Kilbane and Attell are signed up for a bout, and Clabby will probably meet the winner of the Chip-Murray bout. Kid Williams is available now.

Jeff Smith probably won't remain long in Australia, according to word coming to California—in fact it is declared that he's already hankering to return. This means the chance of a Smith-Clabby series, if the managers can swing it.

In the meantime Joe Welling is out among the scrappers with an offer of $2000 as a side bet for any lightweight in the running. The Beecher-Dundee winner is being looked at by those framing a match. Joe's in Los Angeles, enjoying himself and watchfully waiting.

ELLIOTT AGAIN WILL PRESIDE OVER P. A. A.

The Pacific Association of the A. A. U. held its annual meeting last evening at the St. Francis Hotel, and elected officers for the new year. John Elliott was again chosen to fill the president's chair. R. W. Dodd was elected to the vice-presidency of the association, while Herbert Hauser was continued as secretary-treasurer.

During the evening Supervisor McCarthy appeared for the Indoor Yacht Club and requested admission for that body to the P. A. This request was denied after some spirited discussion. It was decided to make an appropriation of $75 to be sent to the Olympic Games Committee in New York as the donation of the P. A. to a proposed memorial to the late James E. Sullivan.

Discussion following this proposal revealed the fact that a number of athletic bodies in the city are in favor of erecting some kind of a memorial in Golden Gate Park as a fitting tribute to the lasting good influence which Sullivan has had on Coast athletics.

Four new P. A. championship records were accepted and filed at last evening's meeting. These were Horine's mark of 6 feet 2 inches in the high jump. Vlught's time of 4.27 in the mile. Parker's performance of 22 seconds in the 220, and Millard's record of 26 minutes and 3-5 of a second in the five-mile run.

OCTOBER 6, DATE PLANNED FOR SERIES

CHICAGO, Sept. 22.—Play in the world's championship baseball series probably will start on October 8, one day after the American and National League seasons are brought to a close, according to President B. B. Johnson, of the American League and member of the National Baseball commission.

President Johnson asserted today there was no truth in reports that October 10 had been decided on as the date for starting the series.

"It is our aim to start and finish the series as early as possible," Johnson said. "I believe we can arrange to play the first game on October 8. There is no reason for delay."

In the event that Boston Nationals and Philadelphia club of the American League are contenders for the world's title, two games will be played consecutively in each city instead of alternating each day as was the case between New York and Philadelphia. The place for the opening game, it was announced, will be decided by the flip of a coin.

NAPA TEAM BEATEN.

VALLEJO, Sept. 22. — The Excelsior baseball nine of this city met and defeated the Napa Outlaws at Napa Sunday by a score of 10 to 9. Davidson, slabster for the Vallejo team, struck out 12 of the Outlaws.

STANFORD OPTOMISTIC OVER PROSPECTS FOR 1914 VICTORY

Twelve Veterans on Cardinal Squad Are Performing in Sensational Style.

STANFORD UNIVERSITY, Sept. 22.—Two weeks of the preliminary rugby season are gone and already the farm is optimistic. Twelve varsity veterans and a promising freshman squad have given much joy to the hearts of coaches and Stanford men in general, and only the biggest kind of an early season reverse will alter the confident opinion of all concerned. There is no feeling of overconfidence, though the Cardinal always holds Jimmie Schaeffer and the Golden Bear in the highest estimation.

The veterans back this year to play in the big game are Hall, front rank; Clover, middle rank; Gard, breakaway; Blase, lock; Erb and Tilton, half; Austin, first five; Lachmund, second five; Carroll, center three-quarters; Reeves, left wing; Urban, right wing, and Andrews, full back. In addition to these men there are as many more able to jump in at a moment's notice in case of injury or unexpected emergency need. Bihlman, the husky freshman shotputter of last season's track team, is out for a front rank position. His playing thus far would seem to indicate that his chances are real good. He is fast for a big man and follows the ball extremely well. Pettingill and Braden, members of last season's second string, and men who made the very closest of fights for varsity team, are playing with a dash and vim that augurs well for the 1914 scrum. Both are huskies that know the rugby game backward and if an early season showing can be counted on for anything they will be in the running throughout the season. Ogden is understudying Wylie and Gard in the breakaway positions and is himself a player of sterling merits. "Ric" Templeton is out for a wing position and already he has shown enough rugby to entitle him to a brisk fight with Frank Reeves.

It is unlikely that Wines will play this year. He is not yet entirely over the effects of an attack of typhoid. Clark, Bihlman and several freshmen will likely make successful endeavor to fill the hole. Sargent, a former Santa Clara star, ineligible last year, is striving with the best of them for a scrum position and many of the initiated believe his efforts will be successful. He is aggressive, speedy and has all the tricks of the game at his feet. Other scrum men at present on the second string men are Oyster, Jordan Swiggart, Seevel, Orme, Scott. These were all members of the 1916 and 1917 freshman teams and are by no means out of the fight for a minute.

In fact, Coach Brown's problems this year are concerned with the great amount of good material on hand. There is actually a glut on the Stanford rugby market. It is an immense endeavor getting the right man for the right position with 12 vets in the field and as many more just-as-efficient men.

Among the backfield substitutes are such men as Davis, Dickey, Hammon, Dievendorf, Mayberry, Burns and West. These men are fleet of foot and pass well. They improve with each game and are willing to mix matters at all times. The work of Bert West, substitute fullback, is attracting much attention. He played the position on the 1917 freshmen team and even then showed an excellent boot and a cool demeanor under fire. The sophomore's kicks to touch remind one of the old days when Benny Erb was holding down the final defense. West needs seasoning, however. His tackling must improve before he can hope to take Helmus Andrews' position.

Two preliminary games are now history, and the varsity has shown all expected of it. The forwards were after the ball all the time, in ruck and lineouts, and worked well as a unit on several memorable occasions. The backfield held many passing rallies that brought to memory its work of last year. Erb to Austin to Lachmund to Carroll presents a passing combination par excellence. Urban and Reeves on the defense are like stone walls. The former's swerving runs are still in evidence, while the other wing has shown the same steady rugby for which his name is famous. Reeves no longer dives into a ruck head first, coming out of the scrimmage with a battered shoulder or arm. He is using his head for other purposes than stopping his opponent's boot, and improvement has resulted in his game.

The ground-gaining qualities of Charlie Austin are strongly apparent. If there is an opening, the first five wriggles through, somehow. It is a sight for the rugby gods when Austin gets the ball. Lachmund is still the speedy opportunist of old. He has added some weight this summer but it has no effect, seemingly on his speed. Danny Carroll's early form is not of the brilliant sort. It is not until mid-October that the center three-quarters begins to show the Australian stuff of which he is capable. There is not a university man but will remember the great game the little Britisher played last November. He is expected to play the same kind of rugby this time. Andrews, fullback, always gets his man. He tackles hard and sure. There is also indications that his boots to touch will improve before the preliminary games are over.

Schaeffer, it is thought, must build up a defensive machine of the first water to stop the combination backfield play of the veteran offensive line. There is no doubt at the present writing, but that the Cardinal backs are the better on paper, McKim and his cohorts of the scrum will find their work cut out for them to stop the Stanford forwards or bottle up the ball. The struggle will be titanic, and the California team must be built of good material to stop the excellent mechanism that Brown seems to have working.

Trainer Harry Maloney has the confidence of the entire student body. His work in connection with last year's big game will be remembered as long as the present college generation exists. His methods are orderly and the least indication that a man is off-color or has the smallest injury is enough for the genial trainer, who begins work at once after the manner of a physician. There is no fear of "staleness" this year.

The O. P. H. S.-Berkeley game, which is scheduled for tomorrow afternoon at 3:30 should mark one of the hardest fought games of the season. This is the first real test for the Poly boys, and although Berkeley looks to have the stronger team the Poly boys have a team that will fight every inch of the ground.

The teams will line up as follows:

O. P. H. S.—Forwards, Hayes, Morril, Weeks, Van de Peer, Hjelte, Bernstein, Hewson; half, Dalton; fives, Scott, Garcia; three-quarters, Cole, Bush, Lorimer; full, R. Weeks.

Berkeley—Forwards, Southerland, Pederson, Graf, L. Nervins, J. Johnson, Muldoon, Thomson, Sisson, Mathews; half, Crow; fives, McKegney, Captain Johnson; three-quarters, Chalmers, Stevens, Nevins (Graham); full, Davis.

Liverseage's score in the Berkeley High-California Freshmen game was one of the most extraordinary plays ever seen on the coast. The U. C. man blocked a kick-off and picked up the ball, dribbling it for a try unassisted.

CALIFORNIA SULKY CIRCUIT FOR COUNTY

The California Sulky circuit stops next at Pleasanton, where, on Thursday, a three-day meet will open the county fair. Willie Durfee won't be there with his all-star string of purse grabbers, which means that the victories will be more diversified this time. Wherefore local horsemen are looking forward to the meet with more than usual interest. Don Pronto, Rags, Esperanza, Change, White Sox, Frank S. Whitney, Nellie Mack and Nicole will try for the rich purses and stakes in the Northwest.

DIAMOND FLASHES

It is announced from California Winter league circles that Joe McGinnity of the Tacoma Northwestern league team will manage the Hanford entry in the San Joaquin circuit, which is to include Fresno, Hanford, Lemoore, Dinuba, Porterville and Visalia. McGinnity is expected to bring a number of Northwestern league players with him for winter service. First Baseman McCarl, now with Vancouver, will manage the Porterville team.

Fans are wondering how the world's series will be arranged should some club other than the Giants win the National league flag. In case the Braves win it is likely two games will be played in one city and two in the other until the winner is known. Should St. Louis or Chicago cop it is likely two will be played in the city of the first game and three in the other. In this case more than two jumps across the country would hardly be necessary, while one might suffice.

Following the performance of Boston's mayor, Curley, in marching out on the field at Fenway park on Labor Day and attempting to tell the umpires how to run the game, comes the announcement that the famous Boston royal rooters of two years ago have been reorganized. No doubt they recognized that in Curley they had a man fully as well qualified to lead them as was ex-Mayor Honey Fitz, and they couldn't resist giving him the opportunity.

Baseball passes in the Pacific Coast league next year will resemble a Russian passport, if W. W. McCredie of Portland gets a recommendation past the other magnates. Judge McCredie's plan is to have every complimentary pasteboard studded with a photograph of its legitimate owner, so as to prevent its use by the butcher, the baker and the candlestick maker, not to mention the office boy and all his relations. "This system is in vogue in the railway mail service and in the various government positions which require free transportation over the railroads," pointed out the Portland ball owner. "It ought to work in baseball, and it would do away with the greatest evil of the present baseball pass situation."

Reports filter in from cities in the Union association circuit that some of the players of the disbanded league have not yet received their money. The players were made free agents but that does not absolve the defaulting clubs, as they will learn when an effort is made to reorganize the circuit next year.

The American league's contribution to the Red Cross fund through 25 per cent of a day's gate receipts was $1200. The National league in the same manner contributed $848.62. Apparently, the American was not so particular about counting the pennies as was the National.

Savannah won the post-season series with Albany for the championship of the South Atlantic league and thus claims its second straight pennant. In 1913 Savannah won both halves of the season. This year it took the first half, while Albany captured the second half.

In the game of September 8, the Atlantics made eight successive singles off two Washington pitchers, six coming off Johnson, the other two off Harper, who relieved him. A few days before that in a game at Cincinnati the Cardinals made seven hits in a row off Leon Ames.

ALAMEDAS BEAT CLARIONS.

The nine day battle of Aisne had nothing on the battle at Lincoln park yesterday in which the Alameda Feds were successful in hanging a real defeat on the Clarion bunch by the efforts of much batting and all around baseball. The score was 17 to 2 at the end of the ninth inning and the Feds were just warming up, so the game was virtually a slaughter of the innocents.

Three pitchers were used by the Clarions in a vain attempt to stem the tide of battle but all looked alike to the Fed stickers who hit the ball to all corners of the lot. The team played in great form and held the visitors safe at all times. Mossitt, who did the pitching for Alameda, held the tailors at his mercy and allowed only five hits as compared to about 24 for the locals. The hits were as plentiful as fans in New York and it was not regular if the locals did not get two or three an inning.

The lineup for yesterday's game was as follows: Mossitt p, Fitzgerald c, Ross 1b, Bartell 2b, Croll 3b, Gay ss, Flieger lf, Mackie cf, R. French rf.

VANCOUVER RUGGERS NOT TO PLAY STANFORD

STANFORD UNIVERSITY, Sept. 22.—That there is no chance for a rugby game between a Vancouver team and Stanford university is the substance of a letter received recently by Dr. Frank Angell, chairman of Stanford's faculty athletic committee, from "Reggie" Woodward, who has been called "the father of rugby on the Pacific coast." There is "too much war" in the northern British possession to think of getting into football this fall, leastwise international football.

The following from Woodward's letter should be of interest:

"So many players have gone to war that no game can be arranged between Stanford and Vancouver this year. The rowing club has been turned into a barracks where the oarsmen and football players are being drilled for the army. Stanford men who have been in Vancouver would hardly recognize the place now. Oceanic commerce is practically closed, the ocean steamers having been taken by the admiralty for transports. Guns, men, bugle calls and military bands fill the streets."

INSIDE INFO--BY BO

New York boxing promoters are all losing money. No wonder with the "commission" and the "ham" fighters who appear before the clubs.

"Ham" fighters can only be successful in Los Angeles.

In the southern cities the public has not been spoiled by witnessing first-class performers.

James Gilmore claims the Federals will be stronger in 1915. Perhaps the Chicago outlaw magnate is going to feed his men on onions.

It is said Jimmy Coffroth offered Welsh $50,000 for the champ's services in three fights. Besides fighting, Welsh will probably be expected to sweep out the arena after each performance.

Freddie, of course, is expected to put up 49 of the 50.

Ritchie is expected to be one of his opponents. Willie will want his usual 15,000 bobbles for his end, and, oh how the expenses will run.

Jeff Smith made a lot of noise in San Francisco until Jimmy Clabby arrived, then he jumped the next boat back to Australia.

Jeff evidently figures Jimmy's showing against him in Australia did not warrant another appearance. In that his (Clabby's) showing was "sufficient" in the first match.

And Barney Oldfield continues to break the records.

Freddie Welsh and Jack Johnson are in the same boat. For Freddie it is war on that side, or fight on this side. Jack's is slightly different, must admit.

Joe wins! Mandot and Rivers have signed for their regular little tango affair in the southern metropolis.

Jeff Smith Starts West; Will Box With McGoorty

NEW YORK, Sept. 22.—Jeff Smith, who has been cleaning up a few in the middleweight ranks lately; Frank Loughrey of Philadelphia, Jimmy Coffey, better known as the "Walloping Wop," and Al Lippe, impressario of this galaxy, are on their way west, and will wind up in Australia. Smith will meet Eddie McGoorty right off the reel, according to the manager. He's declared a big card in Australia. They will sail from San Francisco in October, according to present plans, and plan stops at Chicago, Denver and Salt Lake City.

Abe Attell Is Ready to Meet His Old Enemy

NEW YORK, Sept. 22. — Abe Attell left today for the west, and is already in active training for his match with Johnny Kilbane, with whom he will contend for the championship in the featherweight class, that he lost two years ago to the latter.

He's a tough proposition now, he says, and will be ready and able to give a stiff account of himself. "If I don't win," he says, "I'll at least offer the toughest scrap a comeback ever put up—and that's something." He weighs 128 pounds and says he'll have the extra weight off with little trouble.

U. C. TO PLAY O. H. S.

Tomorrow afternoon at California Field the U. C. Freshman meet the Oakland high school team, the same bunch that defeated the Stanford Freshman fifteen. This game will give a good chance to all rugby enthusiasts, as they can get a line on the relative merits between the Stanford and California Freshman teams.

The Oakland high boys have one of the fastest prep. rugby teams in the State.

PETER STEVENS THE GRAND CIRCUIT WINNER

COLUMBUS, Ohio, Sept. 22. — Peter Stevens and Lelia Patchen were winning favorites at yesterday's opening of Columbus grand circuit races. Each took a straight heat victory. Peter Stevens finishing his record at 2:03¼ in the second heat of the King stake for pacers. Lelia Patchen took the 2:14 class pace without great trouble, against Patrick M.

ARMY IGNORANT OF WAR'S CAUSE

Soldiers Don't Know Why They Are Fighting, Declares U. C. Professor.

UNIVERSITY OF CALIFORNIA, Sept. 22. — A great proportion of the European men who are [illegible] the great war [illegible] the [illegible] idea what they are fighting [illegible] Professor [illegible] of the economics department of the university. The working class, he adds, from among whom most of the soldiers are drawn, have no interest in the war and nothing to gain from it.

Dr. Cross has been one of the most energetic among the members of the university faculty in decrying the present [illegible].

"The greatest tragedy in the world's history is now being enacted upon the battlefields of Europe. A few weeks ago and all was peace. The workers were busy in factories, mines and workshops, the farmers were engaged in caring for their crops, the streets of cities and the highways of commerce resounded with the activities of the business man. Suddenly all is stopped. The dogs of war are unloosened, and a titanic death struggle for supremacy is begun upon the same old battlefields where have been fought so many historic contests.

"Yet what is it all about? Ask the workers, the soldiers and they cannot tell. Ask the officers and they cannot tell. Ask the statesmen and the diplomats and they give various answers. We do know, however, that the event which precipitated the struggle was the assassination of the Crown Prince of Austria. Yet why should thousands of lives be sacrificed, why should want and sorrow stalk through Europe, because of the killing of a crown prince?

WHAT OF THE WORKERS?

"What interests have the workers in such a struggle? They never have had any interests in any international war. Memory cannot recall the time when any nation has declared war because the interests of its workmen have been in jeopardy. Yet it has been the workmen who have fought the battles; it has been they who have paid the costs of war in terms of life, disease, broken health and in the burdens of resulting taxation. Only when the workers of the world come to realize that they have nothing to gain in shooting down their fellow men on the field of battle will it be possible to usher in the era of universal peace.

"Few of us realize the horrors of war. Few of us have the power to imagine what war means to those who fight, to those whose fathers and brothers, husbands and sweethearts are on the battle line. Few of us have ever been to war. I never have and I never will, because I do not believe in war. I agree with Lowell, where he says 'Ez fer war, I call it murder.'

"I have seen the soldires of but one war return from the front, and that was at the close of the Spanish-American war. I hope never again to witness such a sight. Some of my friends had been left upon the battlefields. Others came back suffering from ravages of the fever, or from the effects of the embalmed canned beef with which they had been fed.

U. S. AS ARBITER.

"May the time never come when this great country of ours engages in another war. May we not rather act as the arbiter between contending nations, high-minded, unselfish and desirous only of bringing about an era of 'peace on earth and good will towards men.'

"That nation will have the most patriotic people which most thoroughly conserves the interests of its people. The enormous sums of money now being spent for war and war preparations would go a long way toward assisting in the solution of our present industrial unrest, toward giving the people better homes and schools and highways, and toward aiding us in the disposition of many unsatisfactory conditions in our present day society.

"Peace is coming, it will come eventually, but it will come not through the efforts of diplomats, or through the activities of statesmen and politicians, nor through those of business men. It can come and will come only when the workers of the world, those who have always fought the battles, demand that war cease."

BERKELEY PERSONALS

BERKELEY, Sept. 22. — The Junior assembly, just organized in this city, is to have its first dance at the Twentieth Century club the evening of October 24. The assembly is the outgrowth of La Jeunesse club, and its members are chiefly high school seniors and college freshmen.

DR. CORY, PROPHET OF FEMINISM.

Dr. Herbert E. Cory recently achieved attention from the state at large when he contributed an article to Brass Tacks, a college publication, on what he believed should be the attitude of women students of the university. He objected to an annual woman's day, and declared that every day should be "woman's day" as well as men's. He deplored masculine monopoly of important matters, advising the women to assert themselves as their individualities dictated. The time was rapidly passing, he added, when the clinging vine type of femininity would be either successful or popular. He thought women were rapidly becoming able to maintain their sex equality with men, and that it was time for them to put the stamp of disapproval upon the conventional masculine gallantry that regarded them as inferior beings. They should command masculine admiration by their achievements, he concluded, instead of begging masculine condescension to their inferiority.

He Preaches Revolt As a Theory; Co-eds Make It a Fact

UNIVERSITY OF CALIFORNIA, Sept. 22. — [illegible] women students have followed the advice delivered to them [illegible] Dr. Herbert E. Cory of [illegible] to such an extent that they are now [illegible] a pivot and stand on their own feet [illegible] they have followed it in the most surprising manner of promoting one of their own sex over Dr. Cory's own head to be chief coach of the Parthenela [illegible] they give annually in the spring.

Miss Hazel Otis of New York city, a new member of the faculty, is the one [illegible] to arrive in Berkeley next week to take up her duties. Hereafter, Dr. Cory is to occupy a secondary place in Parthenela affairs, if he occupies any at all.

It is stated by the women who are chiefly interested in the approaching masque that the deposing of Dr. Cory was not done because of any criticism of his ability, or [illegible] to the success of previous Parthenela in which [illegible] an important hand, [illegible] proof [illegible] their assertion. But they say that they do believe, as Dr. Cory himself has earnestly argued, that the women are able to manage their own affairs without the assistance of the pantalooned sex and they propose to do it in connection with Parthenela, their chief activity of the [illegible] if not all.

DR. CORY COINCIDES.

They also [illegible] that Dr. Cory is not disappointed at the action they have taken, but is quite willing to see his own theories put into practice.

It was the last semester that Dr. Cory who has earned the soubriquet of the "hatless professor" because he likes to walk in the streets with his hat in his hand, spoke out strongly for the advance of the feminine sex. He declared the time had come for women of the university to take a stand on their own merits and show that they were as important an integer in campus life as the men. He begged them to carry out their business by themselves without begging masculine aid.

So they proceeded to do it. Miss Otis comes well recommended as a capable person to occupy Dr. Cory's position as coach of the Parthenela. She is even a bit more capable, the managers of the production declare, because she is an experienced dancer and can coach the participants in the dances as well as those who have the other parts. In coaching the dancers she will have the assistance of Miss Ruth Griffiths, chairman of the dancing committee, Miss Mila Cearley and others.

CHINESE SCORN SMUGGLING TALE

UNIVERSITY OF CALIFORNIA, Sept. 22. — Chinese students in the university are indignant at reports which have emanated from the northwest to the effect that members of their race in this university have been dropped from the rolls because of connection with smugling. The university is not a decoy for smuggling their fellows in this country they declare, and they produce proof in substantiation of their claim.

The Chinese at the university are united in the Chinese Students' club which has headquarters at 2116 Channing way. Miss Clara Soo Hoo of San Rafael, a graduate in last year's class and a graduate student this semester, gives the following data regarding Chinese students who have severed their connection with the university recently:

"Of the 50 or so Chinese students in the University of California from August, 1913, to May, 1914, four were recalled by the Hunan government because that province could not send enough funds, and these four sailed on the Cheyen Maru on June 5. One student transferred to Stanford, while another went to Cornell college, Iowa. Five dropped college for lack of preparation in China. So far as we know all have received honorable dismissal from the recorder."

WOMEN TO SELL PENCILS TO BUY ATHLETIC GOODS

UNIVERSITY OF CALIFORNIA, Sept. 22.—To pay for feminine athletic supplies women students of the university will hold a pencil sale tomorrow on the campus. In charge of the sale are the following committees which have been appointed by Miss Ysabel Forker, president of the Sports and Pastimes Society:

QUITS WAR FOR ALPS; BUT PREFERS SIERRA

BERKELEY, Sept. 22.—War may be all that Sherman said about it but its miseries are not affecting Professor W. R. Pinger of the university German department, according to letters his friends have from him. He has quit its rude alarms for a tramping trip through the Swiss Alps.

"But I prefer the Sierras to the Alps," writes Professor Pinger.

He predicts that in the course of time, the California mountains will be more popular than the great European ranges. Owing to the uncertainty of sailing schedules he is unable to state when he will return to Berkeley.

WEALTHY RANCHER CALLED BY DEATH

ALAMEDA, Sept. 22. — Death summoned Charles Deltrick Elfers, prominent resident and fraternal man of this city and well known in agricultural circles, late yesterday afternoon at his home, 2050 San Antonio avenue. Elfers had been ill a short time, but his death was unexpected. He had resided in Alameda six years, having come here from his big ranch near Modesto. He was a California pioneer, having come to this State 55 years ago.

Elfers was born in Germany, February 14, 1852. He came to America with his aprents when a lad of seven years. They settled in California, and Elfers took an active interest in agricultural pursuits. He became prominent in the valley and was owner of one of the largest ranches in the San Joaquin. He was a director in the Modesto, Crow's Landing and Tracy banks.

Elfers left a widow, Mrs. Caroline Elfers, and a son, Charles Delwin Elfers. He was a brother of Mrs. J. Scanlon and Louis, John and Lawrence Elfers.

Elfers was a member of the Elks, Masons and Knights of Pythias and always took an active interest in fraternal affairs. The funeral will be held tomorrow evening from Elks' hall, Rev. F. S. Brush officiating.

ADELPHIAN CLUB BASKET LUNCH WELL ATTENDED

ALAMEDA, Sept. 22.—There was a good attendance at the basket luncheon of the Adelphian club yesterday which was followed by the business meeting, more coming in for the latter after the luncheon. Following the discussion of the excellent menu, there was a short program which the president, Mrs. A. I. Burgner, had asked Mrs. James E. Higgins and Mrs. W. P. Edwards to prepare. This consisted of songs by Mrs. C. A. Bradford, accompanied by Miss Mabel Mitchell and an essay "The Evolution of the Clubwoman" given by Mrs. Higgins in cap and gown and which was exceedingly clever.

The business meeting opened with the reports of the secretaries, general curator and various committees, and short talks of various interest that are pertinent to the times. "The Travelers' Aid Society and the Woman's Auxiliary of the Panama-Pacific Exposition, of which Mrs. P. S. Teller is the local representative. Mrs. Teller spoke of the necessity of Alameda doing her part, in a whole-hearted way, and helping to make the work of the board less arduous in planning for the furnishing and maintaining of the host building at the exposition.

Other matters were disposed of with regard to the work of the different sections and the coming events in the club.

SIX SPEED BURNERS ARE FINED $10 EACH

ALAMEDA, Sept. 22. — This was speeders' day in the local police court and the six offenders captured by the police speed squad were fined $10 each. Those who pleaded guilty and paid the $10 fines were W. L. Woodward, H. F. Kostering, O. W. Fletter, C. Crandall, R. Laughton and F. Hodgkiss.

Judge Aaron Turner of Oakland sat for Police Judge R. B. Tappan this morning, the latter being in attendance at the recount in Superior Judge W. S. Wells' court in Oakland.

Arthur Follrath pleaded guilty to a charge of being intoxicated and was sentenced to six months in the county jail, commitment being withheld pending good behavior.

The bail of Fred French, charged with cruelty to animals for alleged overloading of a wagon, was reduced from $100 to $10 and the case continued until September 29 to plead.

SAILOR RETURNED TO JAIL.

ALAMEDA, Sept. 22.—James Houghton, a sailor, who was sent from this city to the county jail for one hundred days on a charge of disturbing the peace, completed his sentence last night and an Alameda officer was on hand to take him into custody again on a charge of petty larceny. Houghton is now in the city jail pending the settlement of the second charge.

POLITICAL LEAGUE TO MEET.

ALAMEDA, Sept. 22.—The Alameda Women's Political League will meet next Thursday evening at the home of Mrs. H. J. Platt, [illegible] Central avenue. The league will arrange its plans for the November campaign. The members took an active interest in the primaries and did much to aid the election of Congressman Joseph R. Knowland as a candidate for the United States Senate.

NAME COMMITTEE TO PLAN SCHOOLS

Five Are Chosen to Sit With the School Board and City Council.

BERKELEY, Sept. 22. — Arrangements [illegible] this morning [illegible] the advisory committee [illegible] with these two bodies in [illegible] the new [illegible] schools in this city, for which a bond issue of $[illegible] was recently voted on the advisory board are the following:

Professor Charles E. Rugh, department of education, University of California; Frederick H. Clark, cashier [illegible] Savings bank, representing the Chamber of Commerce; Mrs. Mary Roberts [illegible], president of Berkeley [illegible] Civic league, representing the women's organization; Leon J. Martin, attorney, representing the City club; H. H. Glessner, principal of the Washington intermediate high school, representing the teachers.

This committee will meet with Mayor Heywood and the city commissioners, John A. Wilson, E. T. Harms, E. Q. Turner and Christian Hoff, Superintendent of Schools Morris C. James and the members of the school board, H. L. Stern, Mrs. Agnes Claypole Moody, Mrs. Elvina Beals and Dr. Roycon I. Woolsey, to draw up plans for the schools, determine the style of building and decide upon the sites.

The second point is expected to prove of chief difficulty, after the securing of sites is out of the way. There has already been manifested a distinct difference of opinion among members of the committee of fifteen as to the sort of structures to be erected. A portion of the committee lean toward the permanent class A or B structure, but it is expected their wishes will be nullified unless it is possible to secure ground for the structures very reasonable, only $100,000 being available for each of five buildings. The others are divided between plain wooden buildings and frame structures with cement exteriors.

PROTEST AGAINST $1.68 TAX RATE

ALAMEDA, Sept. 22. — Petitions protesting against the proposed tax rate of $1.58 in this city are being circulated for signatures. Several of the instruments are out and a house to house canvass is being made. Who is behind the movement has not been ascertained, those who have the petitions not announcing the names.

The city council will meet in special session tomorrow evening, to consider Mayor Frank Otis' veto of the resolution adopted by a vote of four to three by the council at its last session. The resolution fixed the rate for regular taxes at $1.17 and 51 cents for the special street fund. The protestants claim that there is no guarantee that the city will continue to place the cost of street work in the budget. They also make a protest against the amount of the regular taxes.

If the mayor's veto is not overridden tomorrow night, a vote of six ayes being necessary to do so, the council will then proceed to go over the budget again.

The protests are to be submitted to the council at its session tomorrow evening.

FERNSIDE DANSANT PROVES BIG SUCCESS

ALAMEDA, Set. 22—Those in charge of the dansant of the Fernside Club, held at Moose hall, have occasion to congratulate them selves on the success of the evening in point of numbers as well as in the evident enjoyment of all present. There were between 125 and 150 who took part, many coming from out of town for the occasion.

The board of directors and husbands acted as a reception committee and assisted the floor managers, Henry H. Graham and W. H. Myers.

The members of the club fell into line in the grand march, led by Mr. and Mrs. J. Sherman McDowell, the latter president of the Fernside Club. The pretty gowns weer features of the evening and were most effective in the various figures of the march which ended in figures designed to represent the name of the club in monogram.

RETURNS FROM EUROPE FOR SISTER'S WEDDING

ALAMEDA, Sept. 22.—Miss Gladys Emmons is en route home from the East, where she landed from the European continent a short time ago. Miss Emmons stopped on her way home in Chicago, where she was the guest of the Countiss family, formerly Alamedans. She is returning to be maid of honor at the wedding of her sister, Miss Marjorie Emmons and Albert Coogan on October 7.

Cards are out for the Emmons-Coogan wedding, for which two hundred invitations have been issued. The young couple are to reside in Piedmont and are preparing a home on Santa Rosa avenue, which they will occupy after their honeymoon trip. The wedding will be one of the brilliant affairs of the season.

ALAMEDA CENTER MEETS.

ALAMEDA, Sept. 22. — Mrs. J. G. Kearney presided at the meeting of the Civic Center last night at Native Sons hall, when Miss Marie Brehn, United States representative of the various anti-alcohol congresses held in Europe, was the speaker of the evening. Miss Kate Field, who was to have spoken for the grape growers of California, was absent owing to a misunderstanding regarding the date of the meeting. In her absence Leo Robinson was called to the platform to give a short talk on the constitutional amendment and the initiative and referendum measures which are to come up for the vote of the people on November next. He emphasized the difference been the initiative and the referendum and called attention to the fact that there were only four referendum measures and their importance. There was a good attendance, Miss Brehn answering a number of questions from the different persons in the audience after her talk.

The next meeting will be held on the first Monday of October. Owing to the absence of Miss Fleid, the session was a short one.

SPECIAL LUNCHEON GUEST.

ALAMEDA, Sept. 22.—Mrs. Jack Wagner, wife of Captain Wagner, now stationed at El Paso, Tex., was the inspiration for the luncheon given yesterday by Mrs. W. H. L. Hynes, who asked a few of the friends of her special guest for the luncheon. Mrs. Wagner is visiting in the bay cities and is being entertained extensively on this side of the bay. Red was the color scheme for the luncheon, roses and ferns making the center piece and the other details in harmony with the central note of color.

TWO ALARMS FOR BLAZE.

ALAMEDA, Sept. 22.—A still alarm was sent into the Webb-avenue firehouse about 6:45 o'clock last night for a new blaze which broke out in a hay pile in the yards of the Dow Pump Company at the north end of Oak street. Yesterday this stock and a barn were practically destroyed by the flames but contrary to opinion the smouldering embers in the hay were not all put out and the firemen had to complete the job last night.

COLOR ENOUGH IN FEMININE FROCKS

Student Editor Against Any Improvements in Co-eds' Styles.

UNIVERSITY OF CALIFORNIA, Sept. 22.—College women can all achieve distinction by their keen interest, not in appearance, but in affairs, declares Editor Harry L. [illegible] in the Daily Californian, the student newspaper, this morning [illegible] takes issue with a feminine correspondent who wants the women to wear brighter colors and to cheer at football games. [illegible] says they wear [illegible] enough color already and that a feminine [illegible] would be [illegible] for comfort. He says:

"One of our correspondents pleads with the women of California to exhibit a little more pep; she even wants them to wear more distinctive clothes, beribboned hats, or bright scarfs, and last but not least [illegible] would have her sisters add their treble cheers to the rooting.

"We agree with our correspondent and say that women should work off their surplus energy in some way other than the tango and the pouring of green tea; let them do it in athletics, in dramatics, in journalism, in debating and even in politics, but heaven save the campus from a small feminine 'Oski Wow.' As for distinctive dressing, it seems to us that campus gowns are rather distinctive in their color and style right now. If there is to be any more pep along those lines we will feel obliged to emigrate to peaceful Stanford.

"No, the women's needs are different than the men's. It is not pep that they should exhibit. It is dignity, and interest in the affairs of the university and of the country. In this way and not by [illegible] colored bands and [illegible] should they be recognized. It is better to be known for one's ideas and aims rather than for one's clothes. Let the women be conspicuous for their keen interest, not in appearance but in affairs."

"AT HOME" TONIGHT.

ALAMEDA, Sept. 22. — Mr. and Mrs. Harry Kassebaum will have an "at home" this evening at the J. A. Kassebaum home, 1420 Santa Clara avenue. The young people who were wed in Fresno last week will leave tomorrow for Taft, where the bridegroom holds a position with the General Petroleum company. The former Alamedan has many friends here who will greet him and his bride this evening and extend their congratulations.

Mrs. Kassebaum was Miss Florence Westfall of Florence, Colorado, and was visiting her brother-in-law and sister, Mr. and Mrs. Frederick Vaughn, the former being manager of one of the leases in the oil fields at Taft.

Bruce Dillman, who has been spending his vacation at the family home of the George Dillman's in this city and at the big ranch in the northern part of the State, will leave Sunday for the east, where he will resume his studies at Culver military academy in Indiana.

Colonel and Mrs. J. J. Tobin and the Misses Nellie and Edith Sullivan are domiciled at the home of Mrs. Adama Heberer on Paru street and San Antonio avenue, where they will remain for two weeks or so before going south again.

Vote for Bonds, Is University Appeal to All California

UNIVERSITY OF CALIFORNIA, Sept. 22.—Every letter leaving the university, either containing official business or other matter, until the November elections, will carry the stamped wording: "Vote for amendment No. 11." No. 11 is the clause in the November ballot that will provide $1,800,000 for badly needed campus buildings, and this is but one of a hundred methods that will be used to bring to it the attention of voters.

Rubber stamps will be left in all public places on the campus, while a supply is on hand for fraternity, sorority and club members to take to their houses as well as to be left in other public places about the campus and city. The second university meeting in October has been set aside by President Wheeler for special discussion of the bonds and will be held in the Greek theater.

MAYTORENA AGGRESSIVE.

NOGALES, Sonora, Sept. 22.—Troops under the command of Governor Maytorena left here yesterday with the avowed intention of giving battle to the forces of General Benjamin Hill at Santa Cruz, following the recent series of clashes between Hill and Maytorena, which has resulted in skirmishes between supporters of the two leaders. A million and a half dum-dum cartridges are reported to have been brought across the border for the Maytorena troops.

NO INQUIRY OF CARDEN.

LONDON, Sept. 23.—The British foreign office, it was learned today, has not as yet made any inquiries concerning the interview attributed to Sir Lionel Carden, former British minister to Mexico, before he left New York last week for England. The interview was reported as objectionable to the American government. The steamer on which Sir Lionel is returning should dock at Liverpool next Thursday.

HEN FOSTERS QUAIL.

A hen, the proud foster mother of a flock of ten small quail, is one of the sights of Albany. Joe Haccour is the owner. The hen hatched the "bob whites" herself, and they follow her in the approved fashions of chicks with no trouble. Haccour found the quail's nest, with the eggs still warm, when he tore down an outbuilding on his property on Stannage avenue. He placed the eggs under a setting hen, where they hatched last Sunday.

SOUTH BERKELEY SUBMITS PROTEST

Condition of Adeline and Grove Streets Elicits Business Men's Petition.

BERKELEY, Sept. 22. — Protests from [illegible] the business men of South Berkeley were brought to the city council's attention this morning show its [illegible] the present time to improve Adeline and Grove streets. The [illegible] by the first of the month [illegible] one way or the other will have been taken by the Key Route company in answer to the Mayor's demand that it start work on these streets or suffer the alternative of having its cars [illegible].

The petition for the protest presented to the council this morning bears the signature of nearly every business man of importance in South Berkeley. It was worded as follows:

"We, the undersigned property owners of the district known as South Berkeley, respectfully call your attention to the fact that unless the work of improving Adeline and Grove streets, from Woolsey street to the City of Oakland's northern border is very materially hastened the winter rains will make the streets impassable. The surface has been taken from the roadbed for three blocks and it needs only a good rain to convert these blocks into mud holes so deep as to make it practically impossible for automobiles and teams to travel thereon.

GREAT LOSSES THREATEN.

"It will also make it very difficult for pedestrians to cross and this will mean a very great loss to the undersigned. The present difficult crossing has cost considerable loss already. We therefore view with alarm the very slow progress being made on the above mentioned improvement. Very few men and teams are at work and we petition your honorable body to require the contractors having this work in charge to put on more men and teams and rush the work with the utmost dispatch."

Commissioner E. Q. Turner informed the council that the City Street Improvement company, to which the contract to this work was let, would be in a position to throw its full force of men into the work on Wednesday. It was, however, impossible for the street to be completed in any satisfactory manner until the Key Route and Southern Pacific and Traction company had done their share. The Southern Pacific has stated its willingness to proceed with the work at any time the council wishes. Mayor Heywood has yet had no reply to his ultimatum to the Key Route company.

PROPERTY OWNERS ACT.

The council was informed this morning that an agreement had been reached among the owners of property along western Park street for the improvement of that thoroughfare. The council's own action toward that end met with a protest. Next Friday the copy of a private contract entered into by the owners will be presented and the council will rescind its former resolution of intention.

Mrs. Elvina S. Beals of the Board of Education appeared before the council to protest against the omission on the advisory committee on the spending of the $500,000 recently voted for schools of representatives of the mothers' clubs and of the Carpenters' Union. Mrs. Beals declared that the union men were interested with other people to an equal extent with the bond money and she believed a wrong had been done them in not admitting a representative to the committee. The mothers' clubs, she added, were in closed touch with school needs and had done more for the schools than any other organization. Her protest was ignored by the council in its immediate subsequent action when a resolution was passed accepting the services of the committee with the membership decided upon at last night's conference.

Post, 804 Central avenue, has been heard from, being in Sacramento when he sent a postal home. GRAIN EXCHANGE RECEIVES SETBACK

Lower Quotations for Wheat and Hogs Pulls Down Provisions.

CHICAGO, Sept. 22.—Wheat turned down today because of the market seeming bare of any orders to buy. The opening, which ranged from ⅛c to ¾c advance was followed by a moderate setback. Corn sagged with wheat and business was scattering. The market, after opening a shade to ⅛@¼c off, suffered a sharp additional fall.

Prospects of a yield, exceeding former estimates had a depressing effect on prices. The close, however, was steady at ⅛c to 1¼c under last night.

Notwithstanding that export brokers appeared to have bids from the seaboard there was no strength in oats.

Lower quotations for grain and hogs pulled down provisions. On the descent trade came almost to a standstill.

CHICAGO, Sept. 22.—Wheat: Subsequently the fact of a fall in exports brought about pronounced weakness. The close was weak, 2¼c to 3c net lower.

U. S. WARNS BANKS TO AID FARMERS

Government Funds to Insure Moving of Crops, McAdoo's Statement.

WASHINGTON, Sept. 22.—A warning to national banks which have received government funds to aid crop-moving or which have received emergency currency, not to charge excessive interest rates or to refuse legitimate credits, was given last night by Secretary McAdoo in a formal statement dealing with the present situation in the cotton growing states. The secretary declared that he would not hesitate to withdraw government deposits from offending banks or to refuse to issue emergency currency to them.

Aside from this warning, McAdoo announced that there is no reason for the cotton producer and manufacturer to feel pessimistic. He expressed the belief that there must soon be an increased demand for cotton and added:

"If the banks, the merchants and the manufacturers throughout the South will, instead of taking counsel of fear, go forward with confidence, the situation will, I believe, improve still further."

A decidedly encouraging development in the cotton situation is the resumption of export shipments from Galveston, Tex., which have been reported to me as follows:

"September 14, 2253 bales; September 16, 3407 bales; 17th, 3500 bales; 18th, 9200 bales; 19th, 8150 bales; total, 27,215 bales.

"These are the first shipments from Galveston since the outbreak of the European war. From the port of New York there have been exported between September 1 and September 19, 5576 bales; from Philadelphia there was exported on September 19 1450 bales.

"These reports indicate that the foreign demand for cotton is reasserting itself and that it will increase in volume."

The terms of the contest are open for all—old and old—girls and boys grown men and grown women—married and single. No discriminations. The only rests the free use of the car and driver will be given to the winner will be on the best answer to the above question.

E. J. Day, head of the E. J. Day Supply Company, and Charles Ayer, manager for the Chandler Four Supply Company, and [illegible] of the Berg Auto Supply Company will be the judges of the written answers. Answers to the question must be written on one side of the paper only. Neatness, spelling and correct wording will be also considered in determining the winners.

The car and a careful driver will be given by THE TRIBUNE, and the Western Motor Car Company, agents for the Chalmers cars, to the person winning this award for all day on the first Sunday after October 1st that the winner selects. No charge of any kind will be made for the use of the car or driver or will any tips be accepted by the driver.

Auto Editor TRIBUNE—Get a knocker from San Francisco and make him an Oakland booster.

MRS. IRVING H. KAHN,
270 Mountain Ave., Piedmont.

Auto Editor TRIBUNE—If I owned the new 1915 Chalmers car for one day, I would fill this new 1915 Chalmers car with as many poor little girls and boys as the car would carry and give them a joy ride. No better way to christen the new 1915 Chalmers car than with innocence.

MRS. HELEN K. DUGAN,
706 13th St., Oakland.

Auto Editor TRIBUNE—What would I do if I had this car for a day? I would be so proud to ride in one of the Chalmers cars that I would ride to all points of interest around Oakland in order to give the car the proper advertising. Hoping this meets your approval, I beg to remain

Respectfully yours,
JEANNETTA WOLF,
836 14th St., Oakland.

Auto Editor TRIBUNE—The question noted in the Sunday paper today, "What would I do if I owned this Chalmers 6 for a day or longer?"

I would use the car to view all Oakland. To see all parts of Oakland that has been developed for the beauty of the city, also to see the undeveloped portions of My City Oakland, their future possibilities for the manufacturing industries that can find locations to upbuild our undeveloped portions of the city, thus putting forth the sights observed from the car to help unfold these future possibilities for our city. Oakland to reality. Oakland has a bright future to become a very large city. So the use of the automobile helps one to bring out these future possibilities by its gliding over the scenes rapidly, thus enabling the mound builders to read the various sights that present themselves to the reader of these natural conditions, which fills the mind with energy full of thought for the good of our city. The pleasure side of the use of the car will take care of itself while observing these conditions of our city Oakland, also her surroundings to help build them up.

To own the car, the writer would use it for the upbuilding of our city, also state industries, is what the writer would do. I remain,

Yours truly,
W. A. SALISBURY,
563 19th st.

Auto Editor TRIBUNE—To have this car at my disposal for one day would be my one delight. It would indeed be a great joy to me to take my mother, father and sister for a ride just to show them how beautiful "My City Oakland" really is. They are homesick and wish to return to the East and it's my desire to remain in Oakland.

Gentlemen, I trust you would give my letter just a little consideration, for a ride in your machine would be a big surprise party to my parents and myself.

Respectfully yours,
WALTER W. BRUNSMAN,
719 10th St., Oakland.

Auto Editor TRIBUNE—When I read the generous offer made by THE TRIBUNE and the Western Motor Car Company I knew what I would do if the Chalmers Six were mine for a day. I would have planned a series of hour trips for old people, poor people and invalids who never know the pleasure of a luxurious auto ride, and who never see our beautiful drives.

For particulars see
MRS. C. C. EVANS,
3051 Richmond Ave., Oakland.

Auto Editor TRIBUNE—What would I do if I had the use of your car for one day? I would ride, ride, ride, and then—I'd ride some more.

Of course, friends and relatives would first be treated to a ride in the wonderful Chalmers Light Six. So, from 8 a. m. to 12:30 a. m. I would take out relatives and friends, big, little, young, old, rich and poor. Then an hour for lunch—the chauffeur would need it. And then! Picture us! "Me" and my mother and a few forturate friends all settled down for an afternoon of solid comfort in the 1915 Chalmers, gliding over byways and highways, country lanes and city streets—just on and on until, alas! the day is done.

Yours "excitedly,"
ELIZABETH STREET,
901 22d Ave., East Oakland.

Auto Editor TRIBUNE—What would I do if I owned this car for a day?

Although not being the fortunate owner of an automobile, I am constantly advocating its various uses, and often share the pleasure with my friends who are owners of cars of various kinds. So in answer to the above question, I would at once proceed to call upon a friend of mine who could well afford to own a car, not only for his and his family's pleasure, but for his business as well, and convince him of the real pleasure enjoyed riding in such a car as a Chalmers Six, and thus be the means of him overcoming his prejudice toward the automobile.

I would also call upon a widow lady and take her and her two children out for a ride to enjoy the beauties of nature, a pleasure I doubt that she has ever enjoyed.

Such a day I would spend should I have a car such as the Chalmers Six at my disposal, not only enjoying the pleasure myself but sharing it with others and at the same time helping to create an interest in the automobile industry.

Yours truly,
W. UPDEGROFF,
2527 East 23d St., Oakland.

Auto Editor TRIBUNE—Were I to win in the Automobile For a Day contest, I would use the car one half of the day for the pleasure of myself and my friends, the other half for the pleasure of the poor.

Respectfully,
MARY A. PARKER,
5048 Fairfax Ave., Oakland.

The Harmonies of Peace

¶ We are watching daily the tremendous forces of the old world civilization rending its own structure apart—to result, hope, in the birth of a higher civilization and order.

¶ Rumor, false report and panic fear—weapons almost as deadly as war itself—are purely products of our mental state.

¶ Therefore, let us bring into our lives and homes every influence that makes for happiness; harmony and peace—that clears our thoughts and helps us to claim vision.

¶ Of all influences none is so potent as Music. To Music, man has always turned for solace and inspiration—the one power able to lift thought above itself, out of the region of anxious doubt, fear and even despair.

GIRLS TO GRACE WATER PAGEANT

Columbus Day Features Will Have Co-operation of Playground Department.

Girls in uniforms will propel whale boats and will compete in a series of races at the big water pageant on Lake Merritt, which will be among the features of the big three-day program to be given in honor of Columbus Day, from October 10 to 12. The girls are now being drilled by J. S. Gutleben of the playground department, who is in charge of the municipal boathouse. The playground department will co-operate with the Columbus Day committees to make this feature of the program notable, and a number of events are being arranged for the school children. In addition there will be championship rowing, swimming and diving events and many of the best performers on the Pacific Coast will compete.

Plans are being completed for a boat parade, the craft to be decorated with the American and Spanish colors, and at night to be illuminated with Japanese lanterns. Hundreds of boats are to be in line, and this will be among the most spectacular features ever held on the lake. On the concluding night a "Feast of Lanterns" will be given. All residents living near Lake Merritt are urged to put up Japanese lanterns and to decorate. A number of film companies are to take moving pictures which will be shown throughout the United States, and it is the desire of the committees to make the best possible showing.

The committees in charge, with the cooperation of the city and county, intend to make the celebration the greatest ever held in the eastbay region, and Oakland will be advertised as one of the leading carnival cities in the United States. The series of pageants, depicting the achievements of Columbus, the literary and musical program, the parades and the lake features will be letter perfect. All railroads will give reduced rates to Oakland during the three days and over 100,000 visitors are expected.

Why Heads of Hair Are So Different

"Nature intended that every woman should have a wealth of beautiful hair—hair that can be arranged into an attractive coiffure which accentuates her beauty," writes Betty Dean, beauty authority. "But so much depends upon the method of care, especially cleansing, that many fail to claim their right. If you use makeshifts instead of something designed for shampooing only, the scalp and hair-follicles may suffer injury and the hair grow dull, brittle and fall out. I have found that the easiest to use and most economical shampoo mixture is made by dissolving one teaspoonful canthrox (which I get from any drug store) in a cup hot water. It gently, yet thoroughly, removes every trace of dandruff, excess oil and dust and so energizes the hair-roots and delicate tissues that they become strong and healthy. After rinsing, the scalp is clean and pliant and the hair is soft, glossy, easy to do up and so fluffy it looks very, very heavy. These scalp stimulating canthrox shampoos not only promote a healthy condition, but encourage an abundant and silky growth of hair.

LOSERS OF OWN PARTY VOTES DISQUALIFIED

SACRAMENTO, Sept. 22.—Secretary of State Frank C. Jordan announced yesterday his refusal to place on the general election ballot the names of candidates who lost their own party nominations but succeeded in capturing the nominations of other parties.

The secretary's decision is based upon the direct primary law, which prohibits aspirants for public office from being candidates at the general election after being defeated for their own party nomination.

Among the men affected by this provision of the law are William R. Geary of Alameda county, candidate for Congress; Dominick Beban of San Francisco, candidate for State Senator, and John W. Craig of Corona, candidate for the Assembly.

BROTHERS, LONG APART, UNITED IN HOSPITAL

LOS ANGELES, Sept. 22.—Misfortune led to good fortune when two brothers, taken to the Receiving hospital during one hour suffering from the same complaint, alcoholic neuritis, were confined in the men's ward after a separation of twelve years.

E. B. Lewis, aged 45 years, a lieutenant of volunteers in the Spanish-American war, was taken to the hospital. Thirty minutes later Edward Lewis, thirteen years his junior, was placed in the adjoining cot. An hour later both men wakened to consciousness and recognized each other.

BODY FOUND NEAR MINE.

GRASS VALLEY, Sept. 22.—William Allen, miner fell from the roof of the Cot mine early Saturday evening, striking head first on the ground, twenty feet below. No one saw him fall. His dead body was found a few feet from the mine on the path leading to his home, located a short distance away, indicating that he was crawling in a vain attempt to reach his home when death overtook him.

DYNAMITE WRECKS NEWSPAPER PLANT

Tonopah Journal's Building Is Damaged by Mysterious Explosion.

TONOPAH, Nev., Sept. 22.—The office of the Bonanza, an an afternoon newspaper, was damaged at 12:15 o'clock this morning by the explosion of three sticks of dynamite under the corner of the room occupied by the job printing plant. A corner of the building was torn off, a garage adjoining was wrecked, and windows a block away were broken by the concussion.

The damage to the job plant was slight. The newspaper plant is located in an adjoining building, and was not damaged.

The Bonanza has a cylinder press in its job plant, plainly visible from the street. It was near this press that the explosion occurred.

There has been friction between the members of the Western Federation of Miners and Industrial Workers of the World in Tonopan and Goldfield lately, and the Bonanza has taken an active part in the controversy, favoring the side of the Federation miners.

GIVES LIFE TO SAVE PICTURE OF HIS MOTHER

SAN FRANCISCO, Sept. 22.—With a tiny picture of his mother, for which he sacrificed his life, clasped in his hand, C. T. Williamson died at the county hospital early yesterday from injuries received when he rescued the picture from his burning home several weeks ago.

Williamson had made several desperate efforts to enter the blazing building, but each time the firemen prevented him.

Then, watching his chance, he broke through the fire line and dashed into the flames, ignoring the cries of warning of the firemen.

He was found unconscious in his room. He had been struck by a falling timber and his clothing had ignited, but in his hand he clutched a small picture frame.

Thin Folks Who Would Be Fat

Increase in Weight Ten Pounds or More.

A Physician's Advice.

"I'd certainly give most anything to be able to fat up a few pounds and stay that way," declares every excessively thin man or woman. Such a result is not impossible, despite past failures. Thin people are victims of mal-nutrition, a condition which prevents the fatty elements of food from being taken up by the blood as they are when the powers of nutrition are normal. Instead of getting into the blood, all the fat and flesh producing elements stay in the intestines until they pass from the body as waste.

To correct this condition and to produce a healthy, normal amount of fat the nutritive processes must be artificially supplied with the power which nature has denied them. This can best be accomplished by eating a Sargol tablet with every meal. Sargol is a scientific combination of six of the best strength-giving fat-producing elements known to the medical profession. Taken with meals, it mixes with the food and turns the sugars and starches into rich, ripe nourishment for the tissues and blood and its rapid effect is remarkable. Reported gains of from ten to twenty-five pounds in a single month are by no means infrequent. Yet its action is perfectly natural and absolutely harmless. Sargol is sold on the Owl Drug Co. drug stores and other good druggists everywhere and every package contains a guarantee of weight increase or money back.

Caution—While Sargol has produced remarkable results in the treatment of nervous indigestion and general stomach disorders, it should not, owing to its remarkable fat producing effect, be used by those who are not willing to increase their weight ten pounds or more.
